

## Adding comment to cell

- ❑ Comments are basically notes that can be inserted into any cell in Excel.
- ❑ When a cell has a comment, an indicator appears in the corner of the cell. When you hover the cursor over the cell, the comment appears.
- ❑ Adding comment to cell helps in understanding the purpose of cell, what input it should have.
- ❑ To add comment right click the cell and type comment and press enter.

Marks
30
70
15
89
30

A yellow comment box with the text "Lowest mark" is positioned to the right of the cell containing the value "15". A red arrow points from the top-left corner of the comment box to the cell containing "15".
