One by one Subtraction
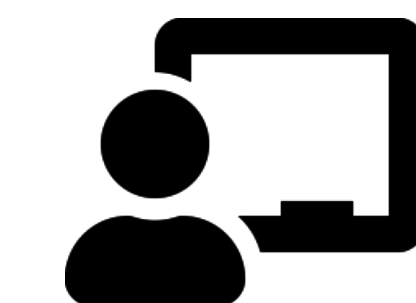

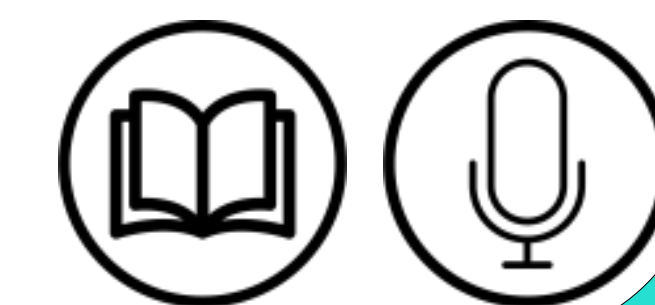

## Definition:

➢ In a simple way, subtraction is taking away a number and find how many are left.

➢ Subtraction is defined as an arithmetic operation that represents the operation of removing the object or objects from the group of objects.

➢ We can say that subtraction is a process of finding difference between 2 numbers.
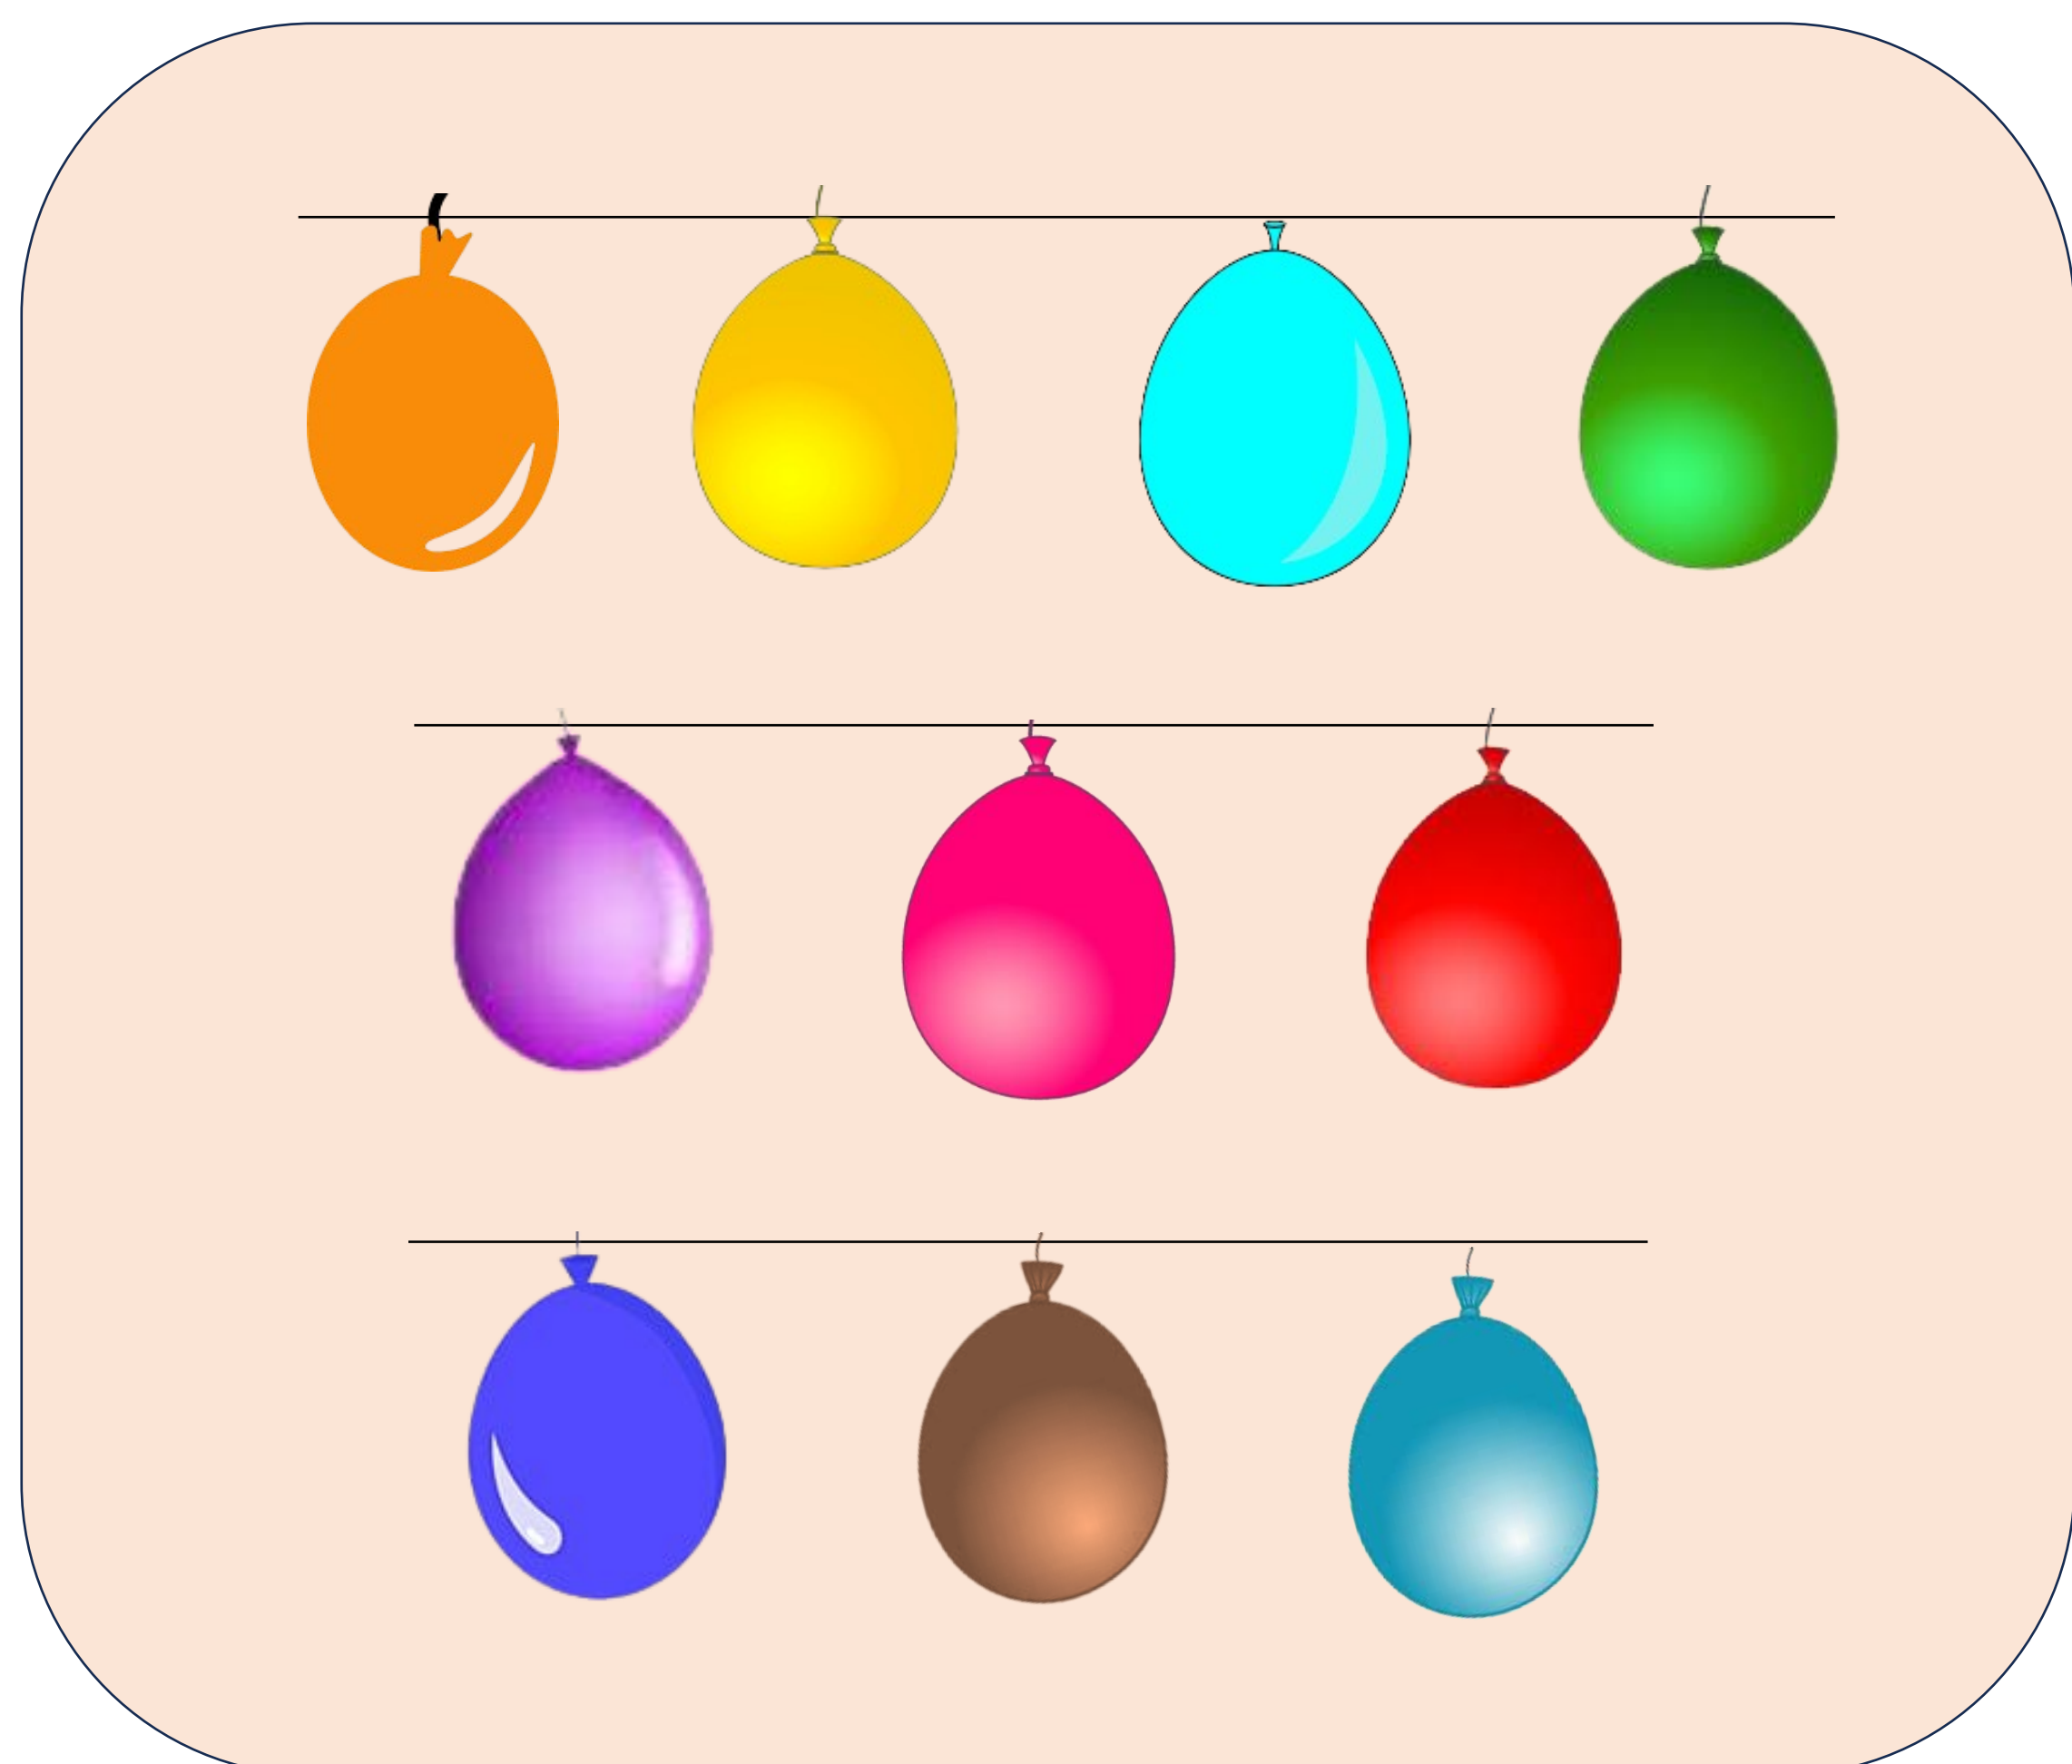

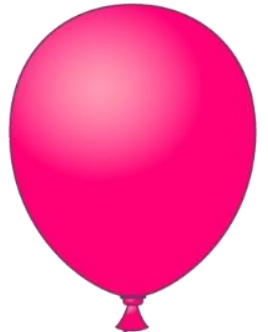

➢ The symbol of subtraction is minus. (-)

It's a balloon shooting game.

There are 10 balloons.

He is ready to shoot the balloons.

He shoot the pink balloon. 🎈

$$10 - 1 = 9$$

After shooting 1 balloon from 10 balloons, there are 9 balloons left.

He shoot the green balloon. 🎈

9   -   1   =   8
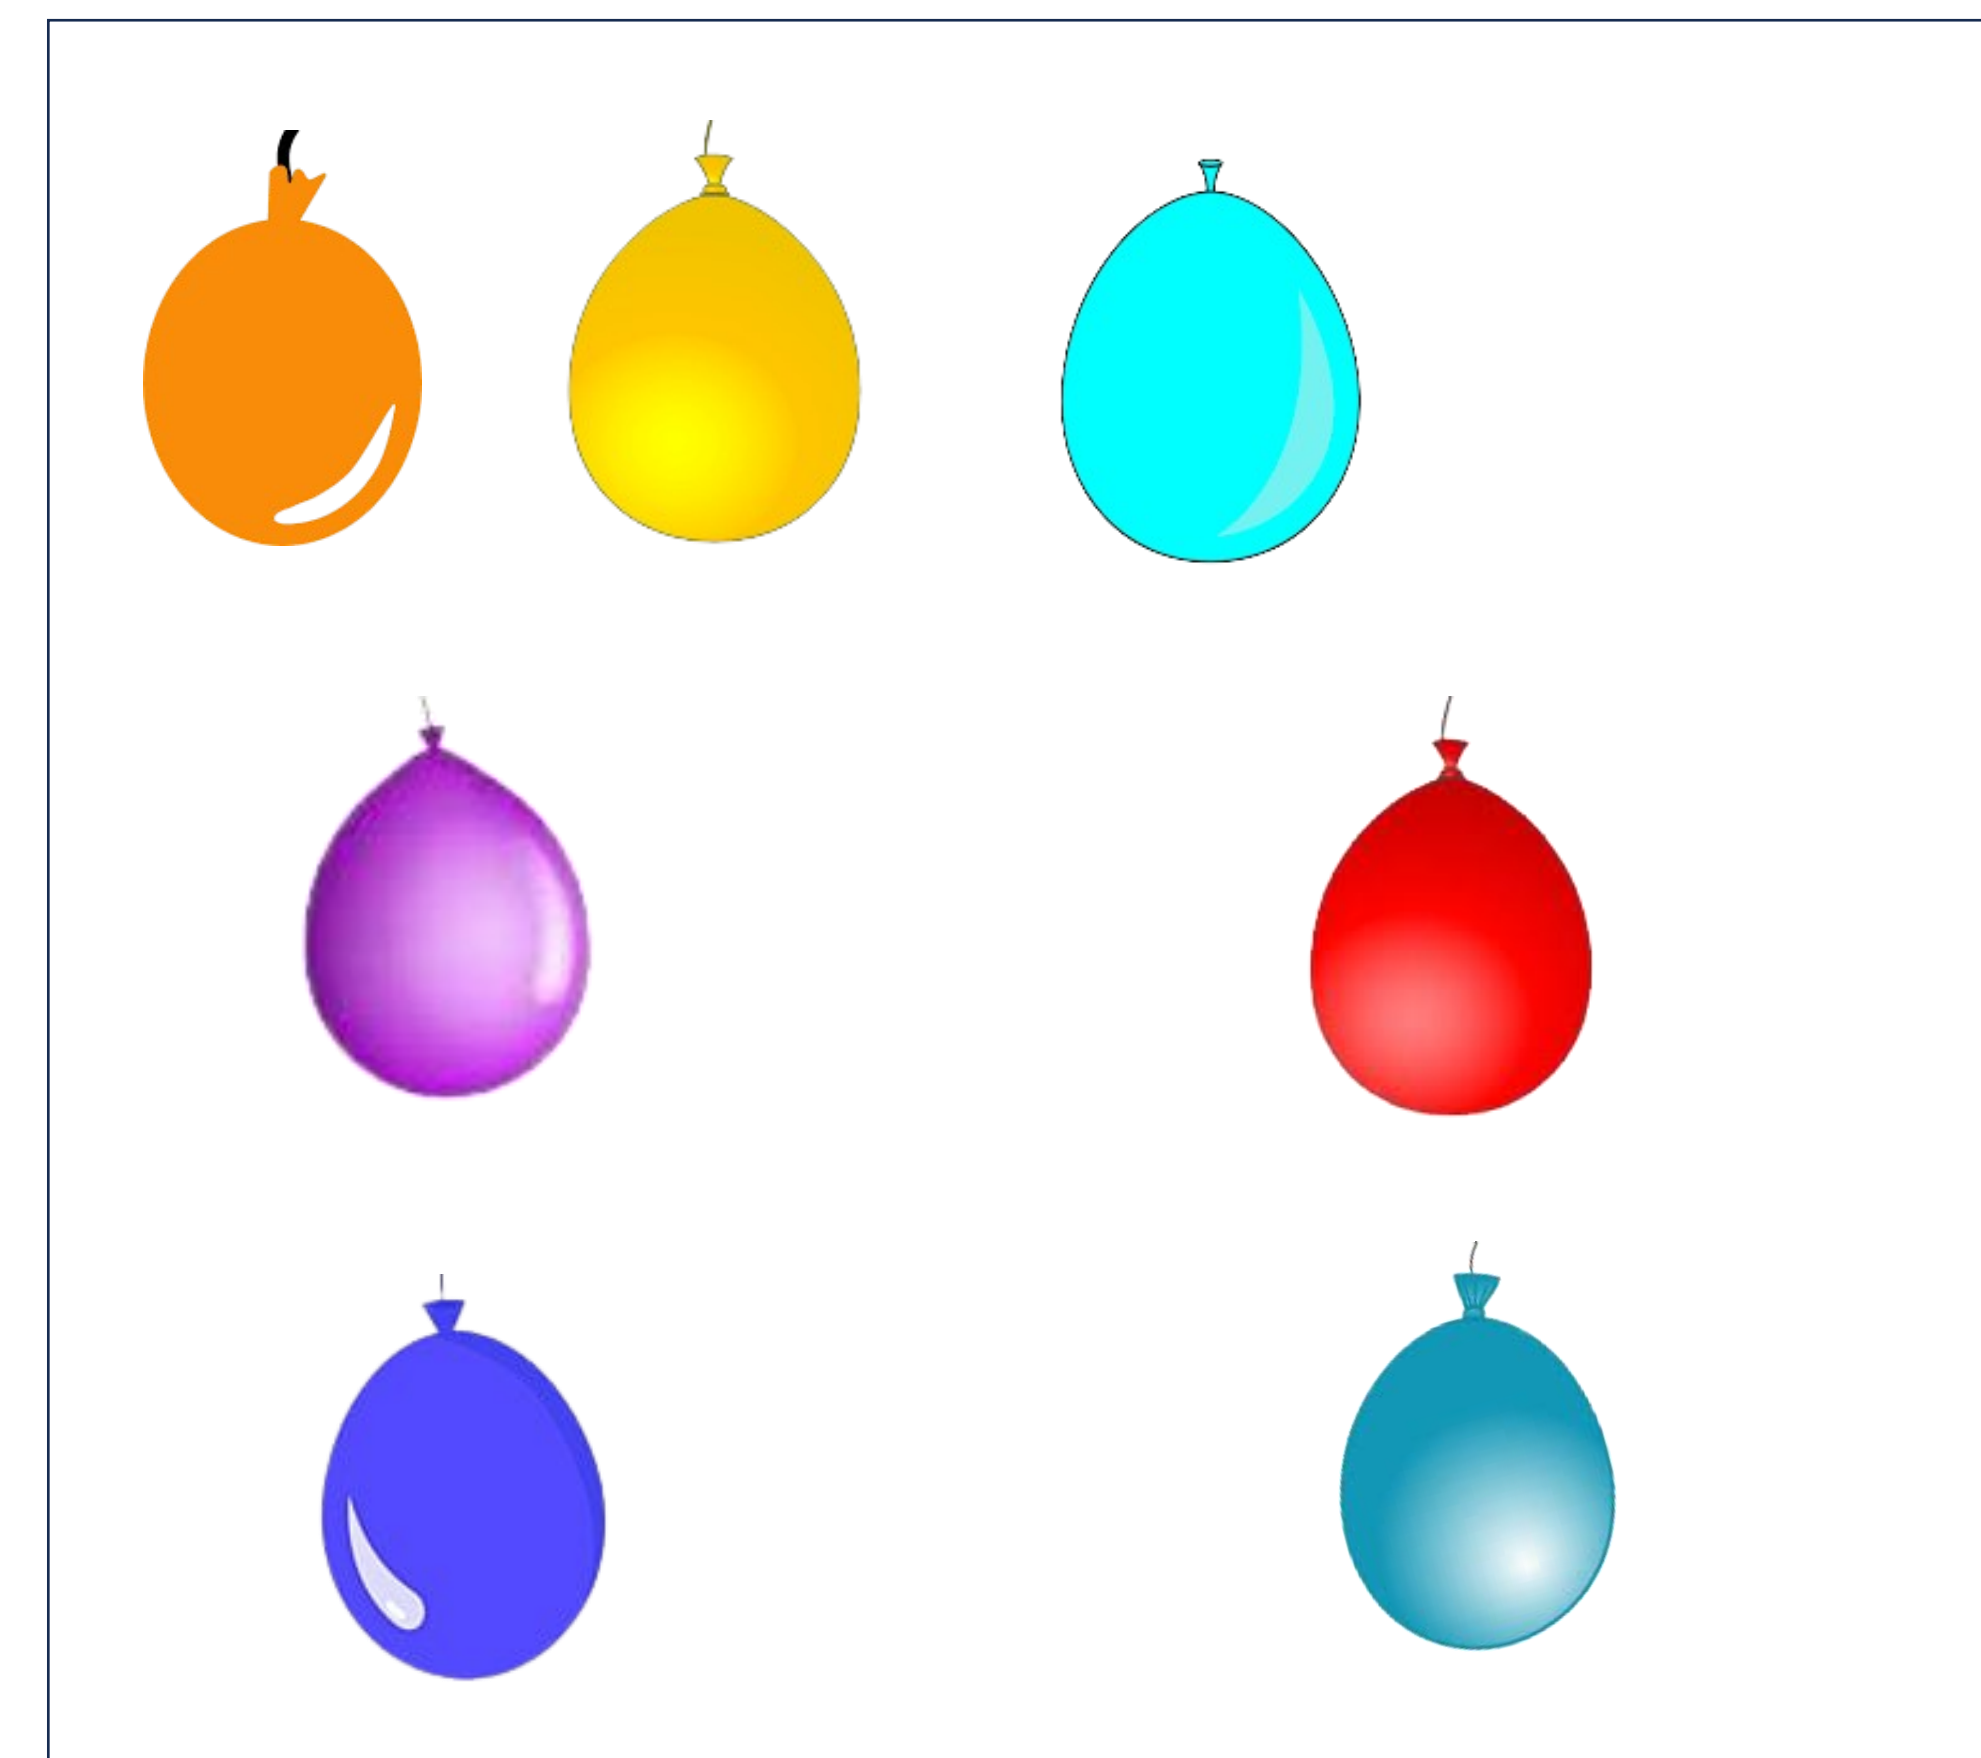

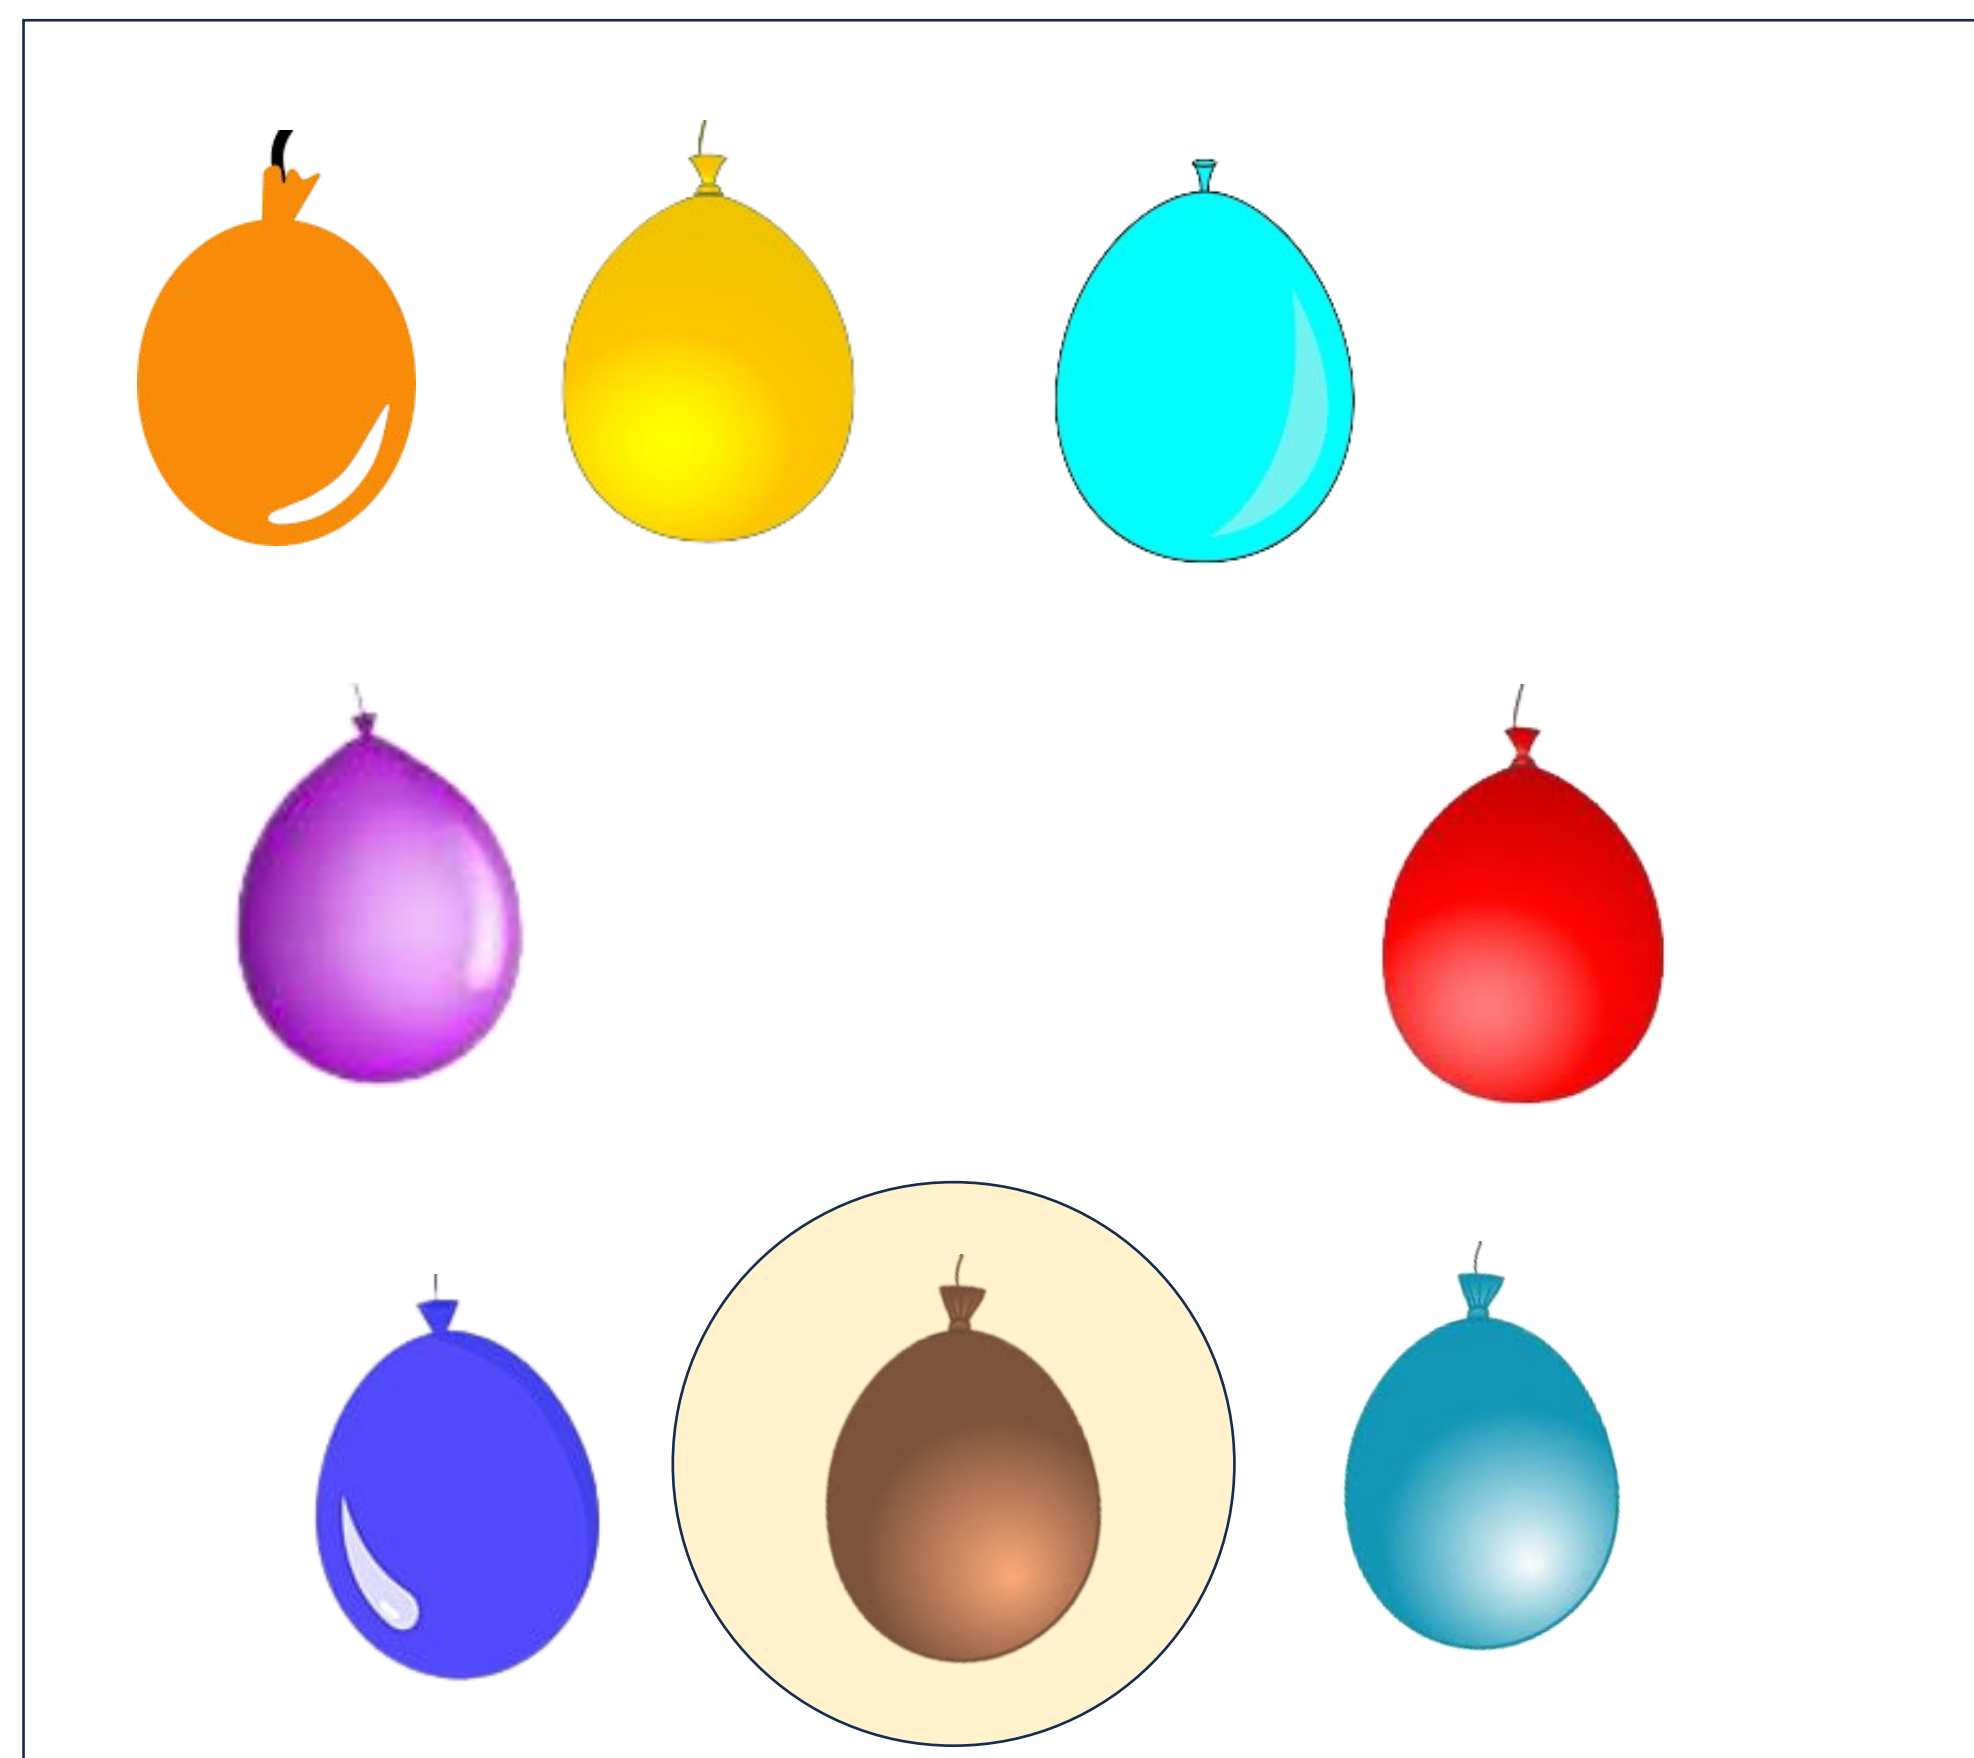

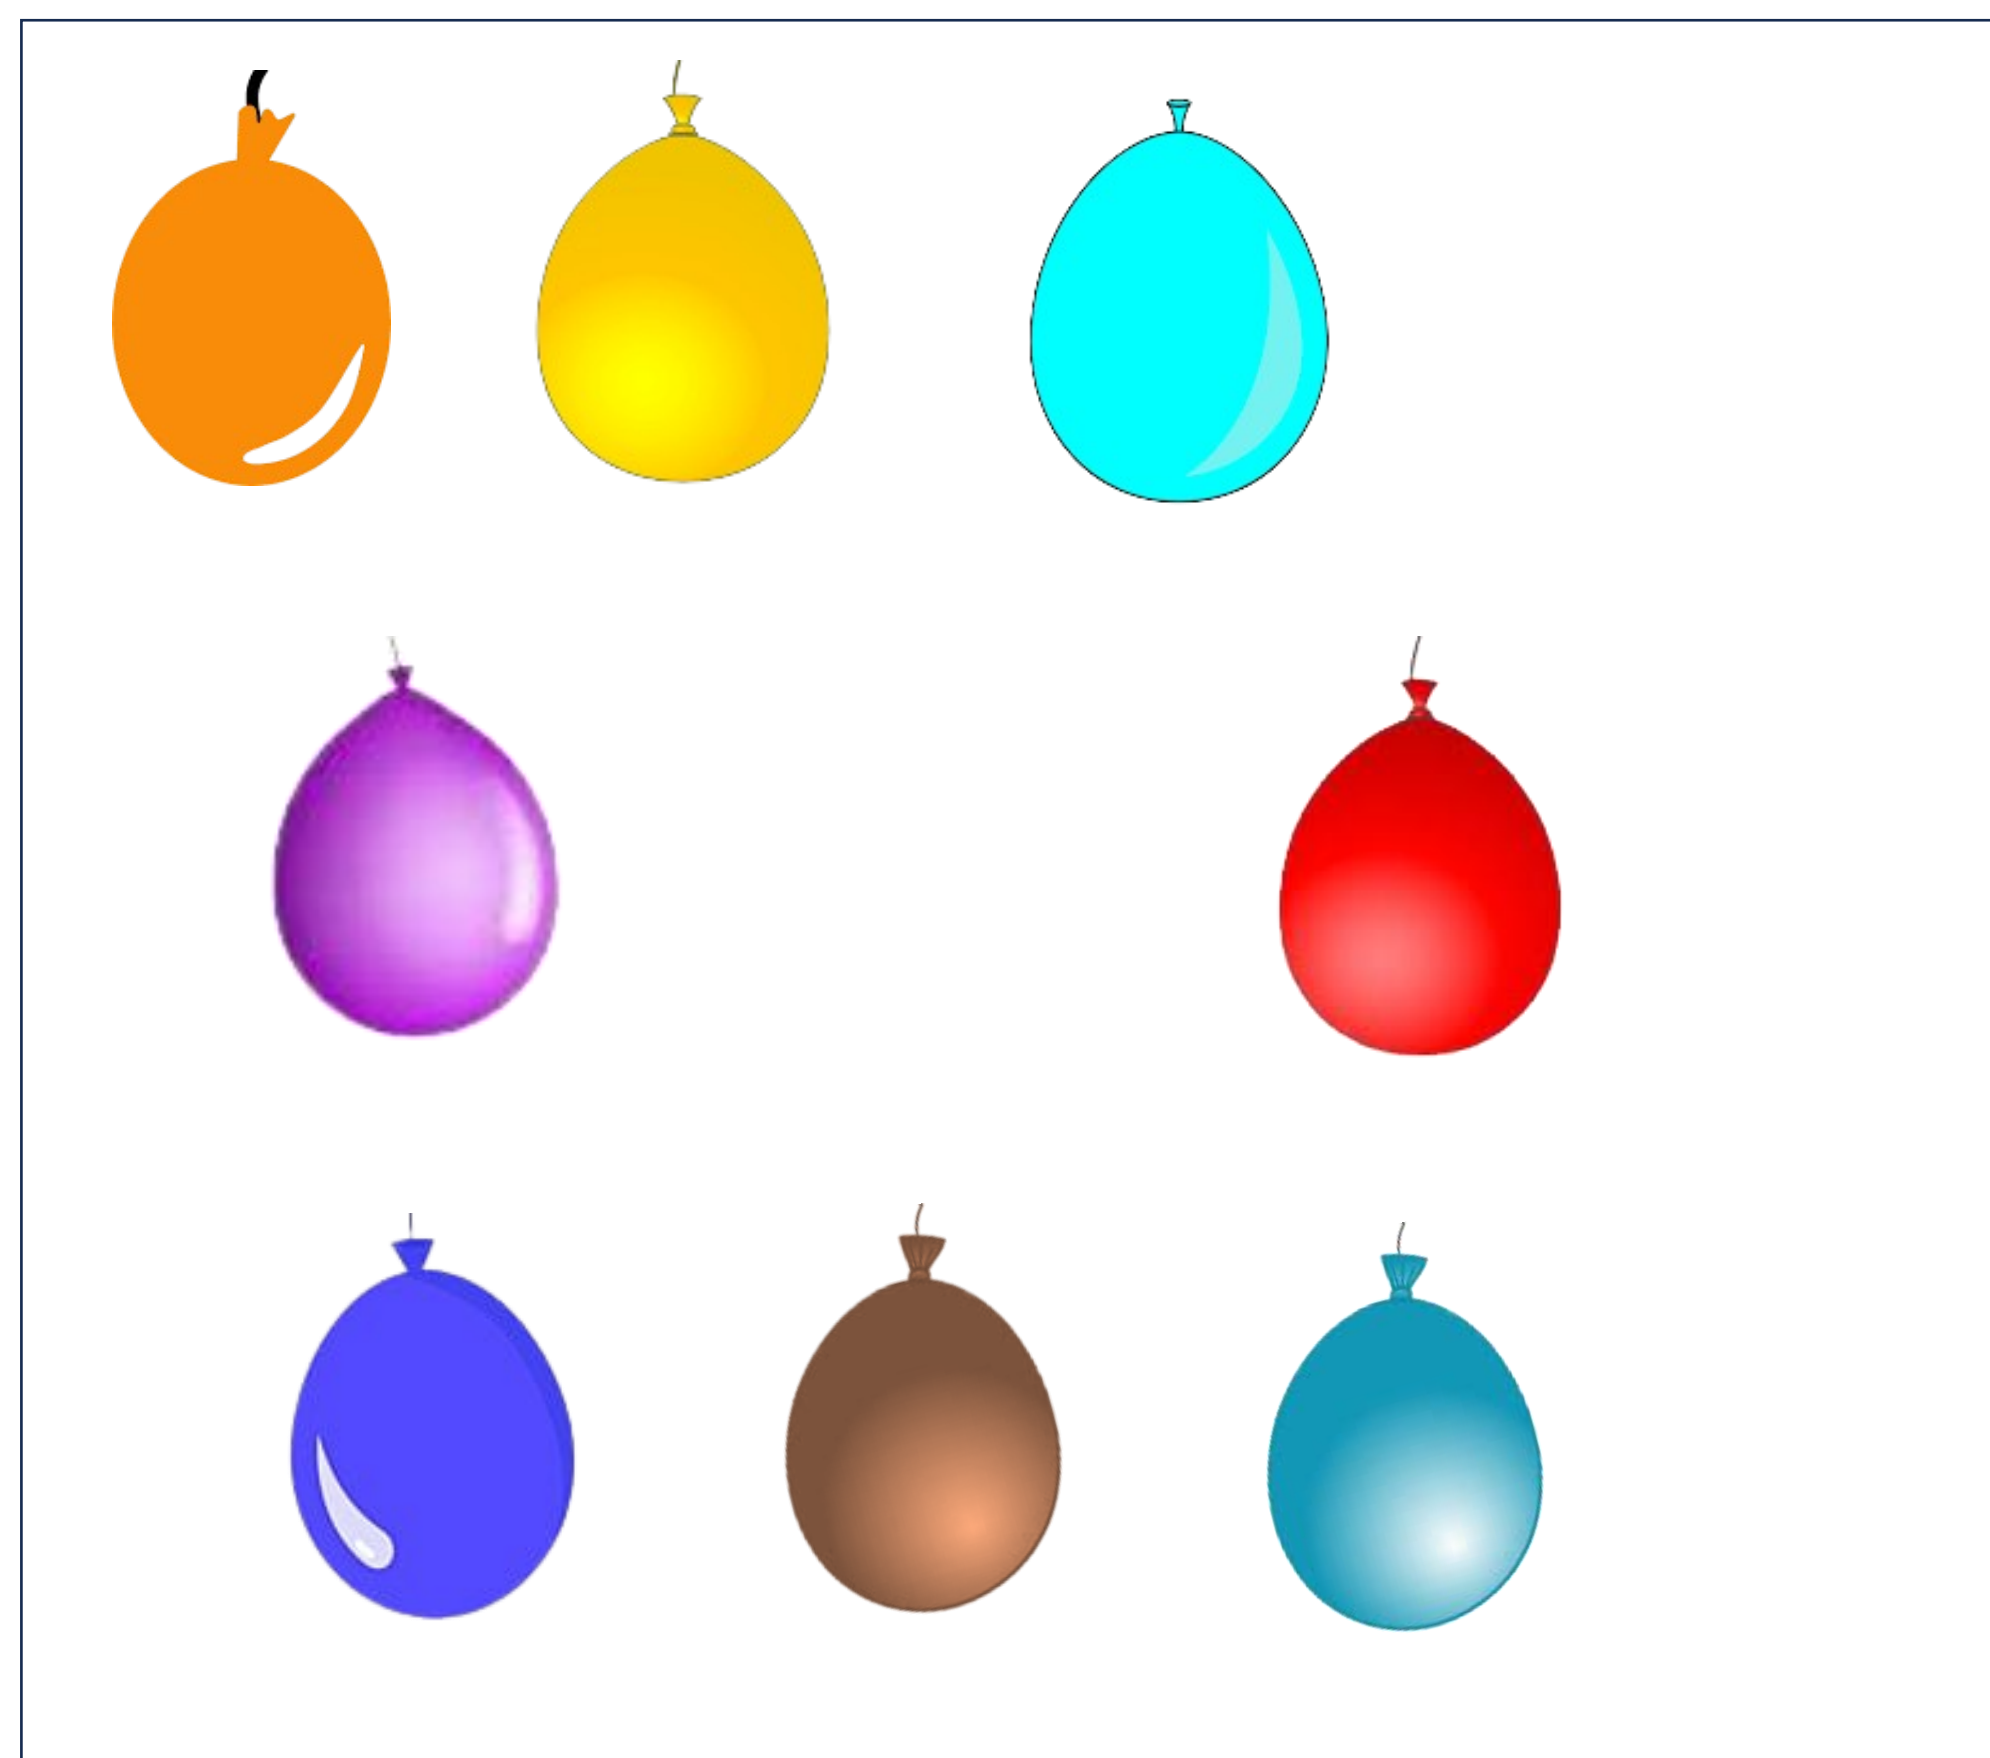

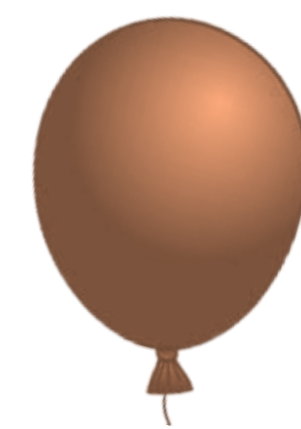

After shooting 1 balloon from 9 balloons, there are 8 balloons left.
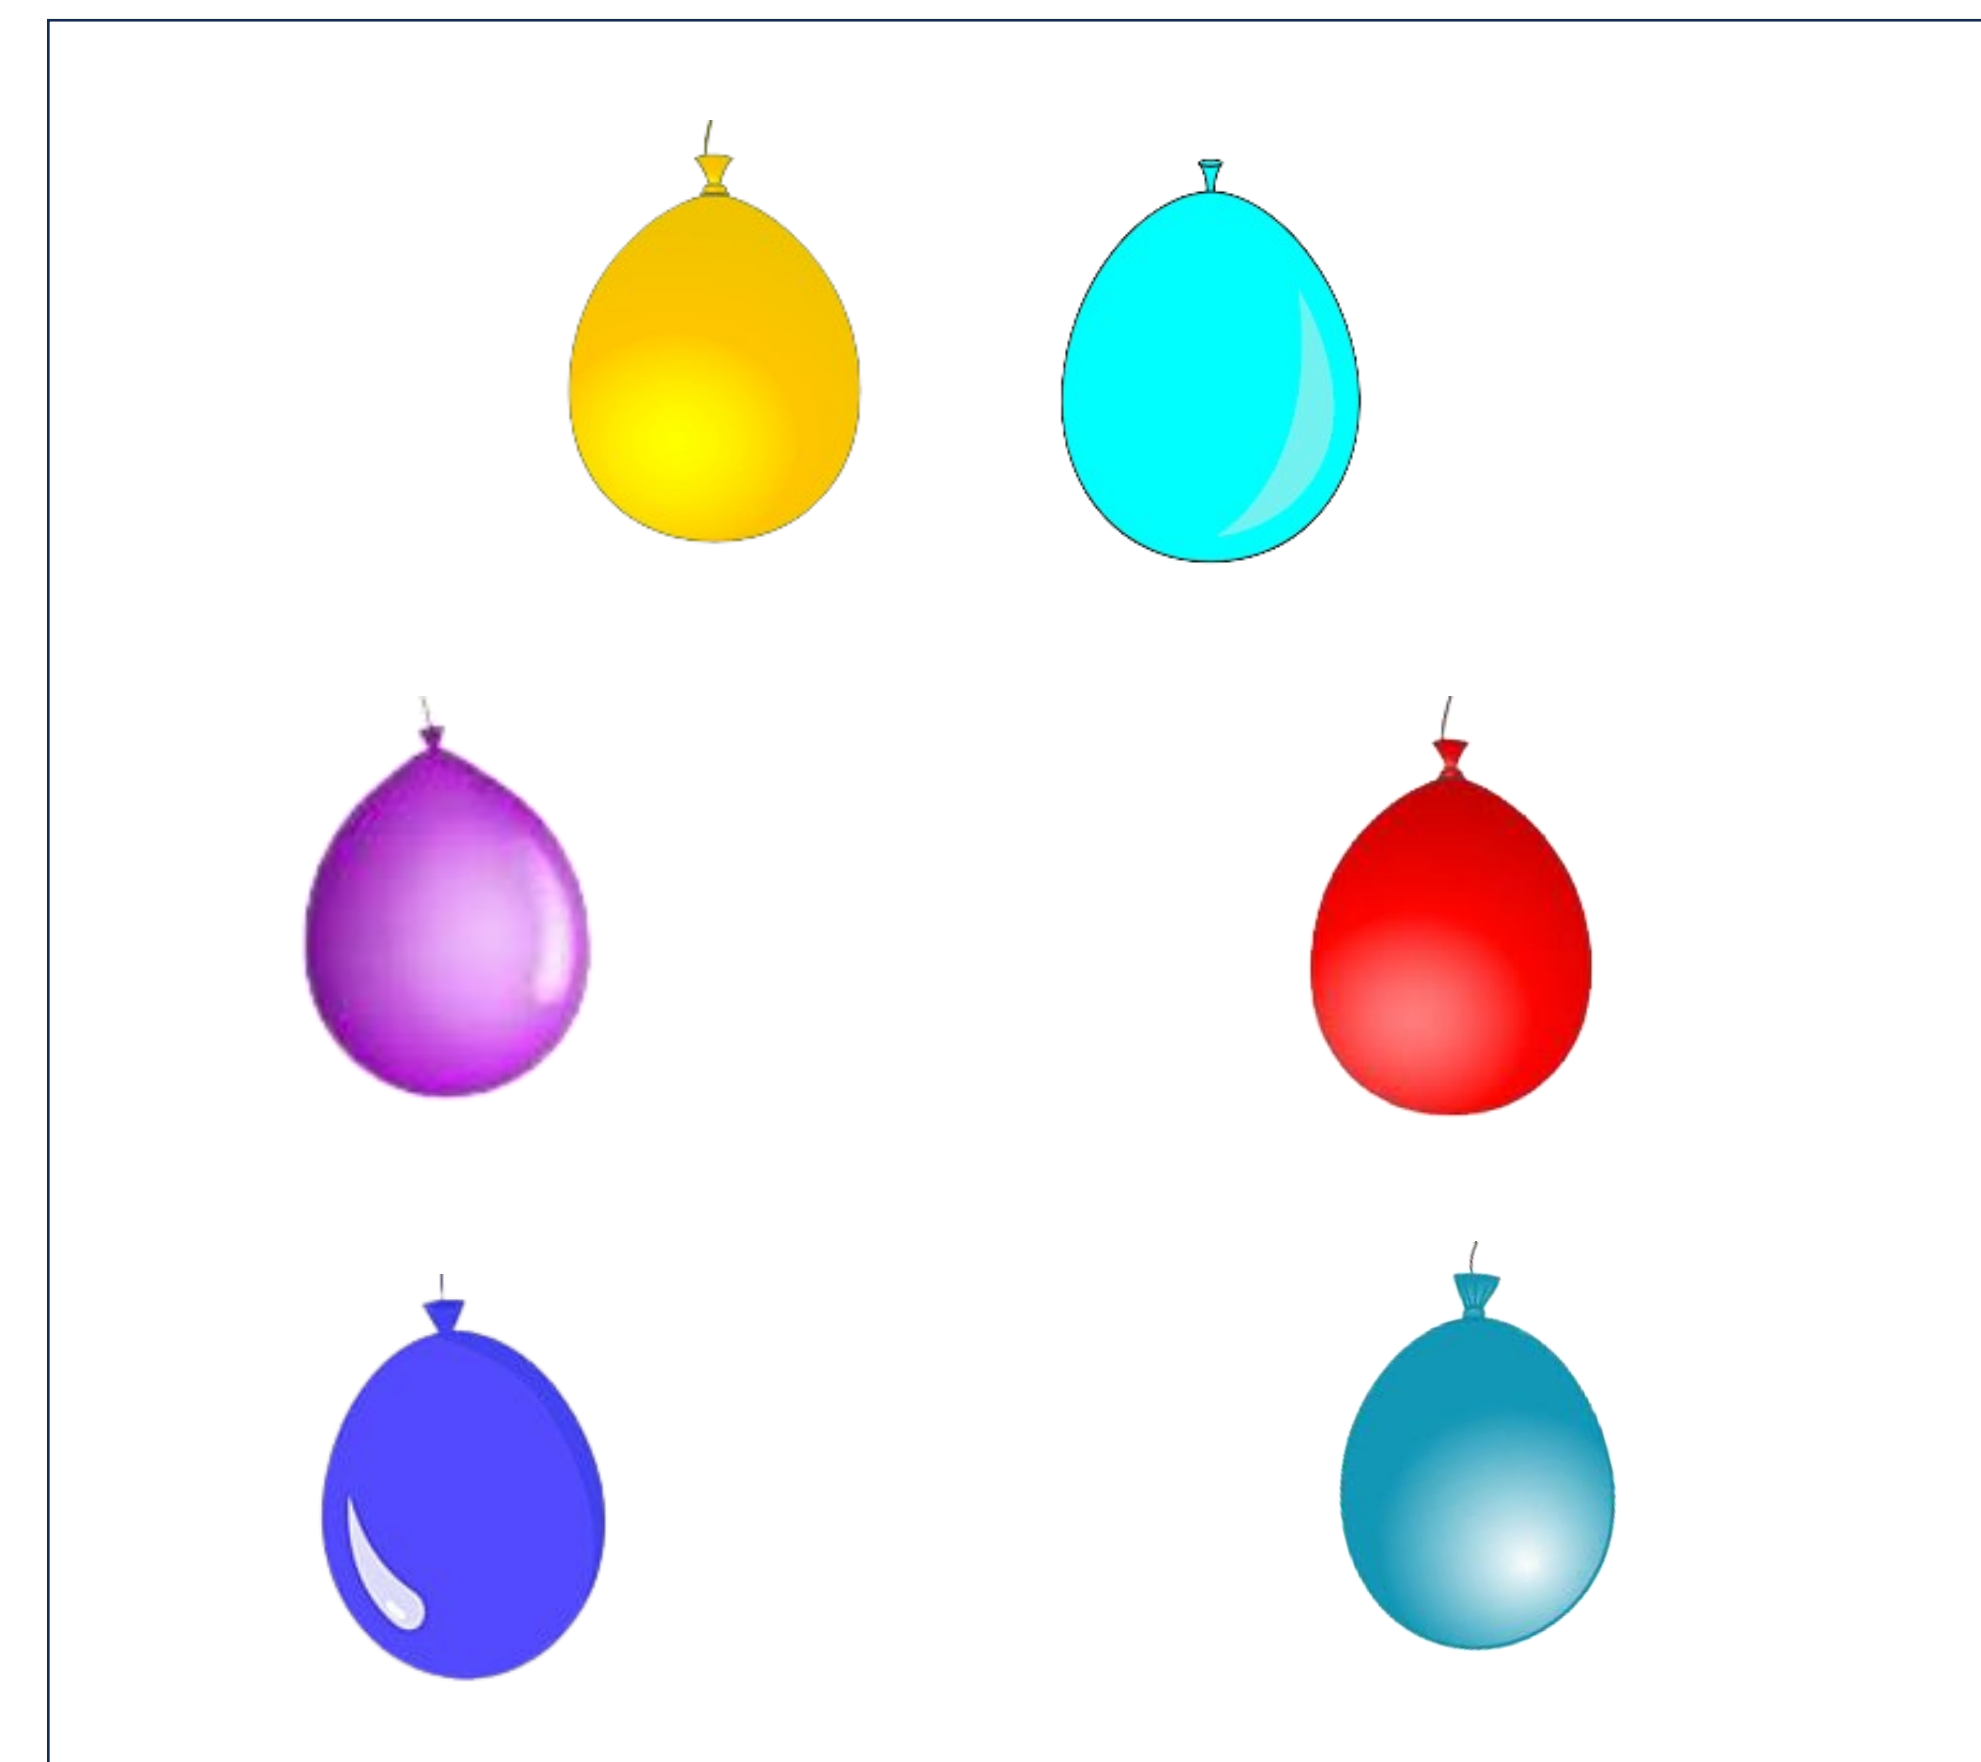

# He shoot the brown balloon.

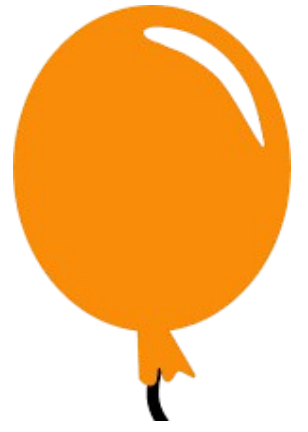

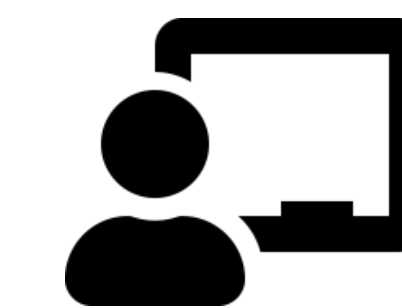

8   -   1   =   7

After shooting 1 balloon from 8 balloons, there are 7 balloons left.
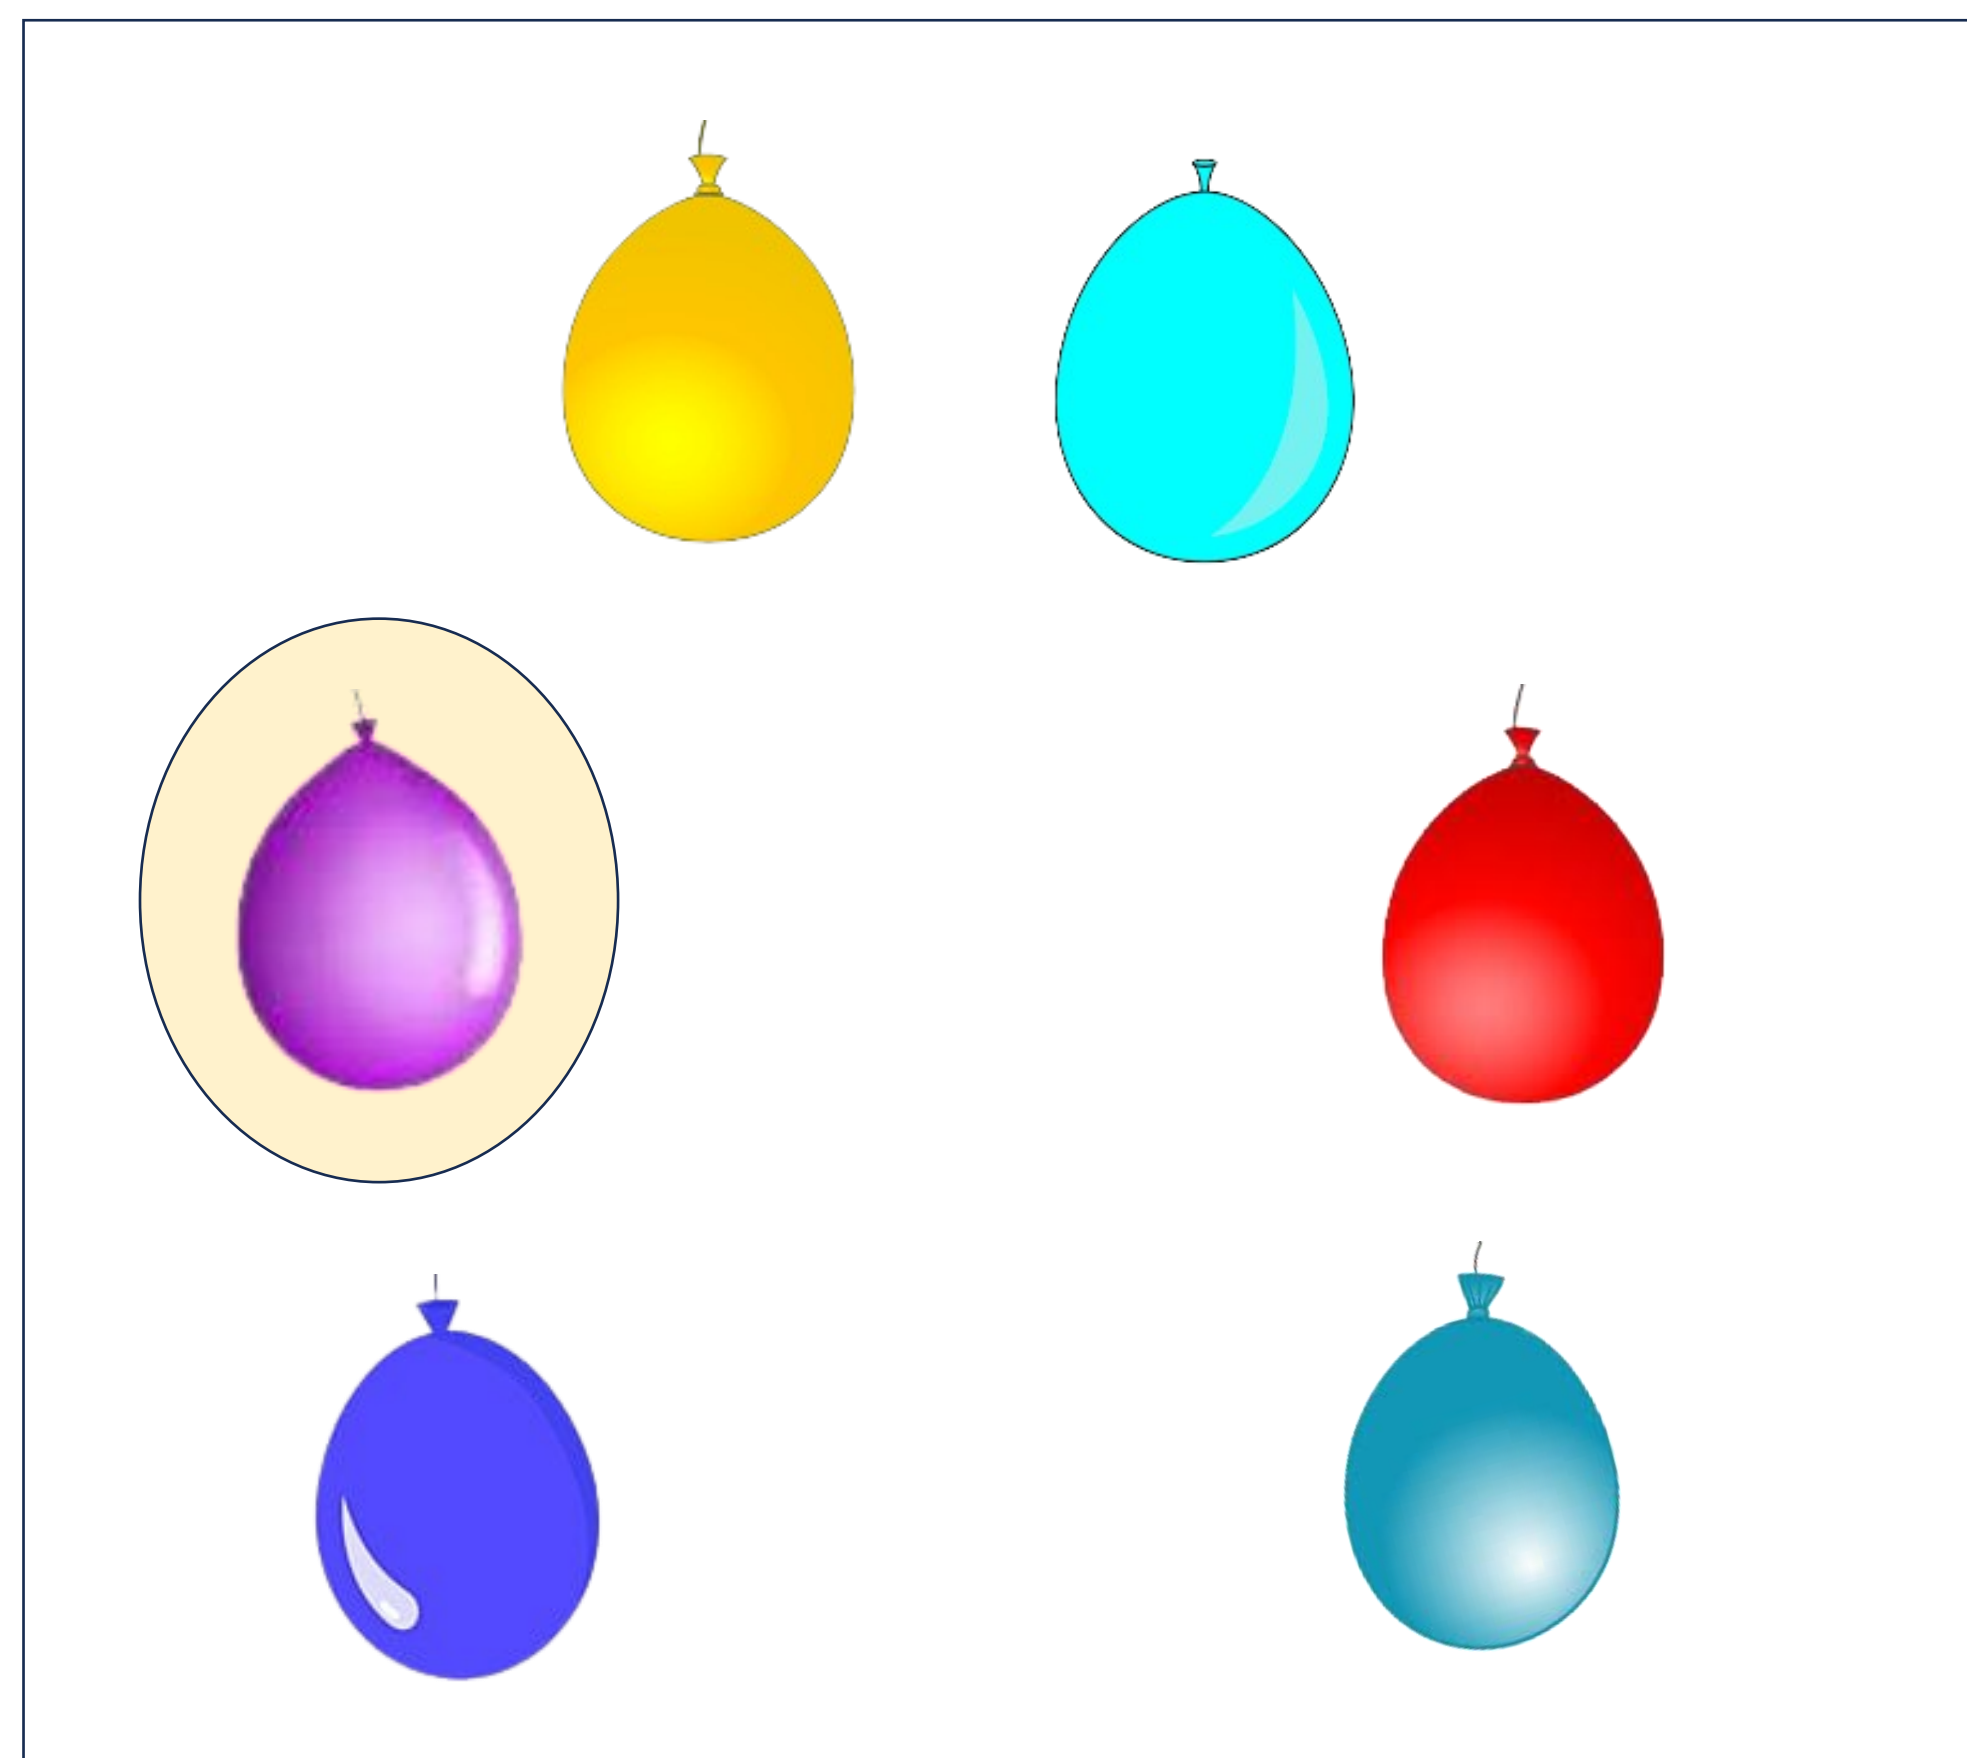

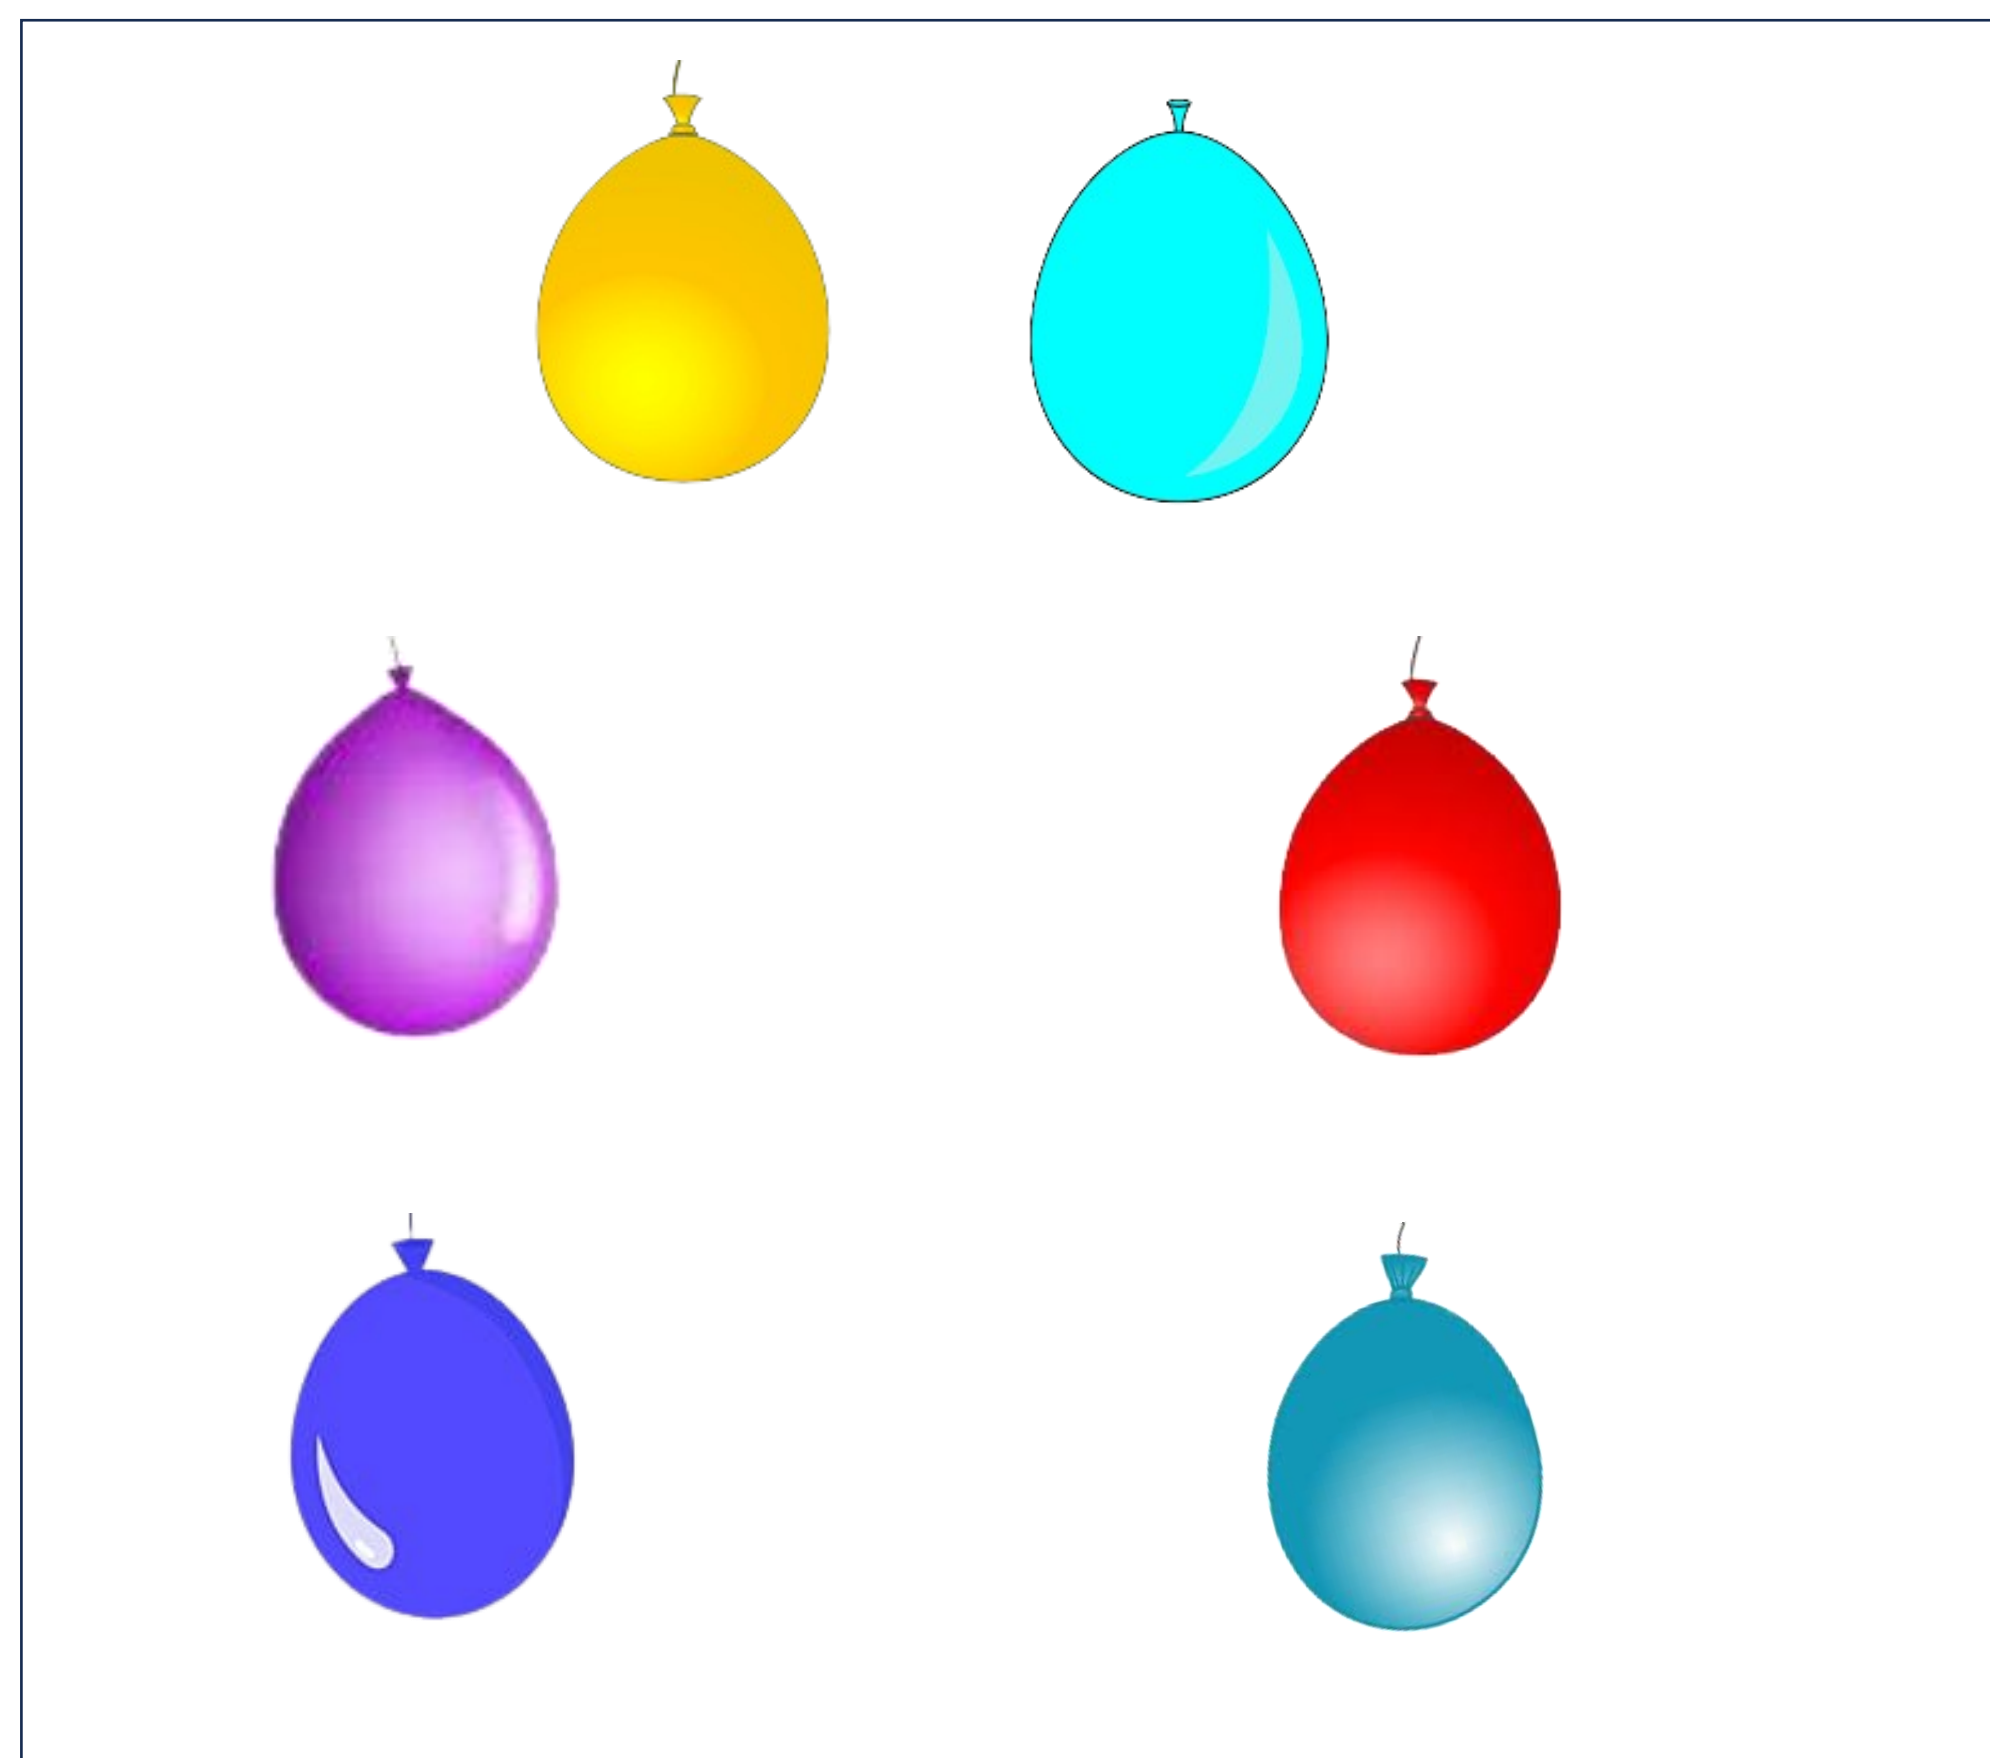

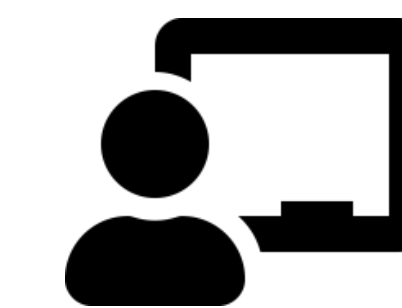

He shoot the orange balloon.

$$7 - 1 = 6$$

After shooting 1 balloon from 7 balloons, there are 6 balloons left.

He shoot the purple balloon.

$$6 - 1 = 5$$

**After shooting 1 balloon from 6 balloons, there are 5 balloons left.**
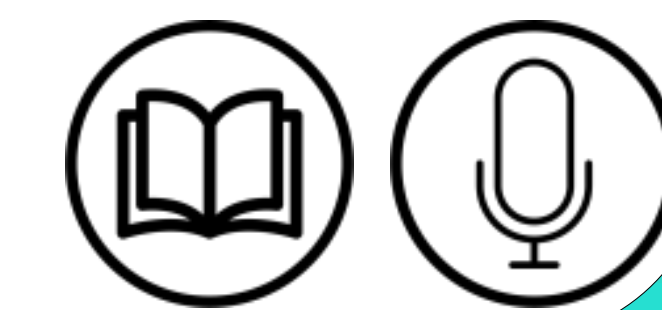

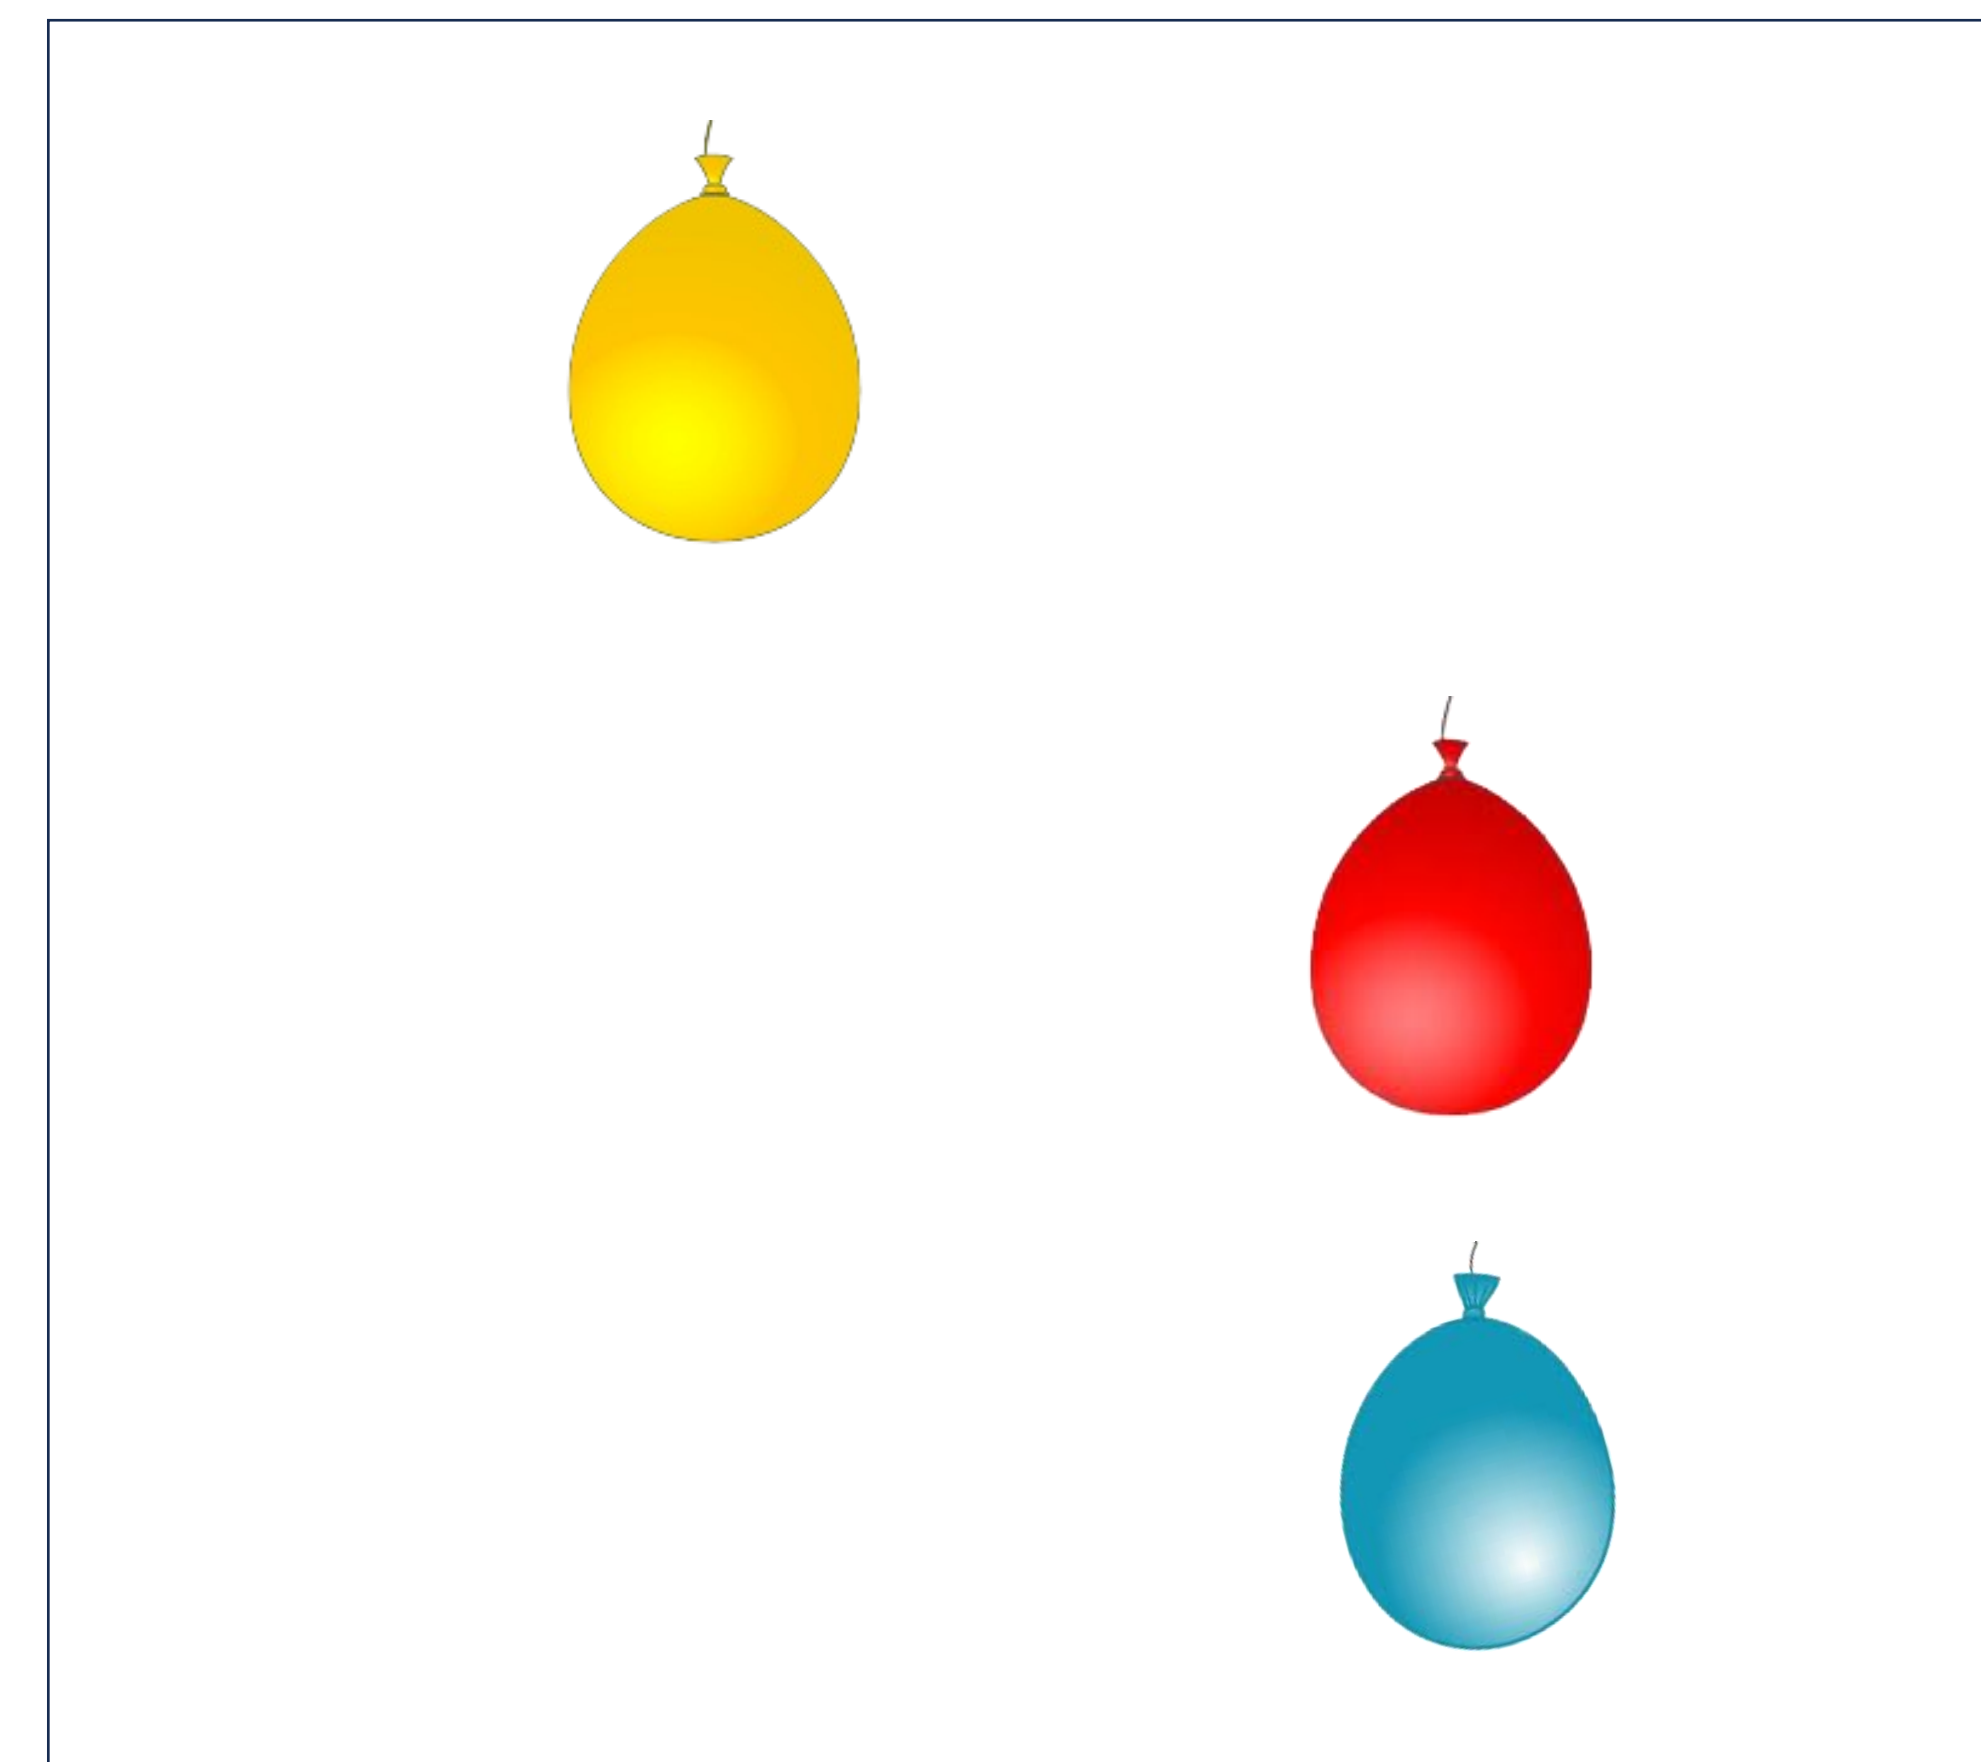

He shoot the Cyan balloon.

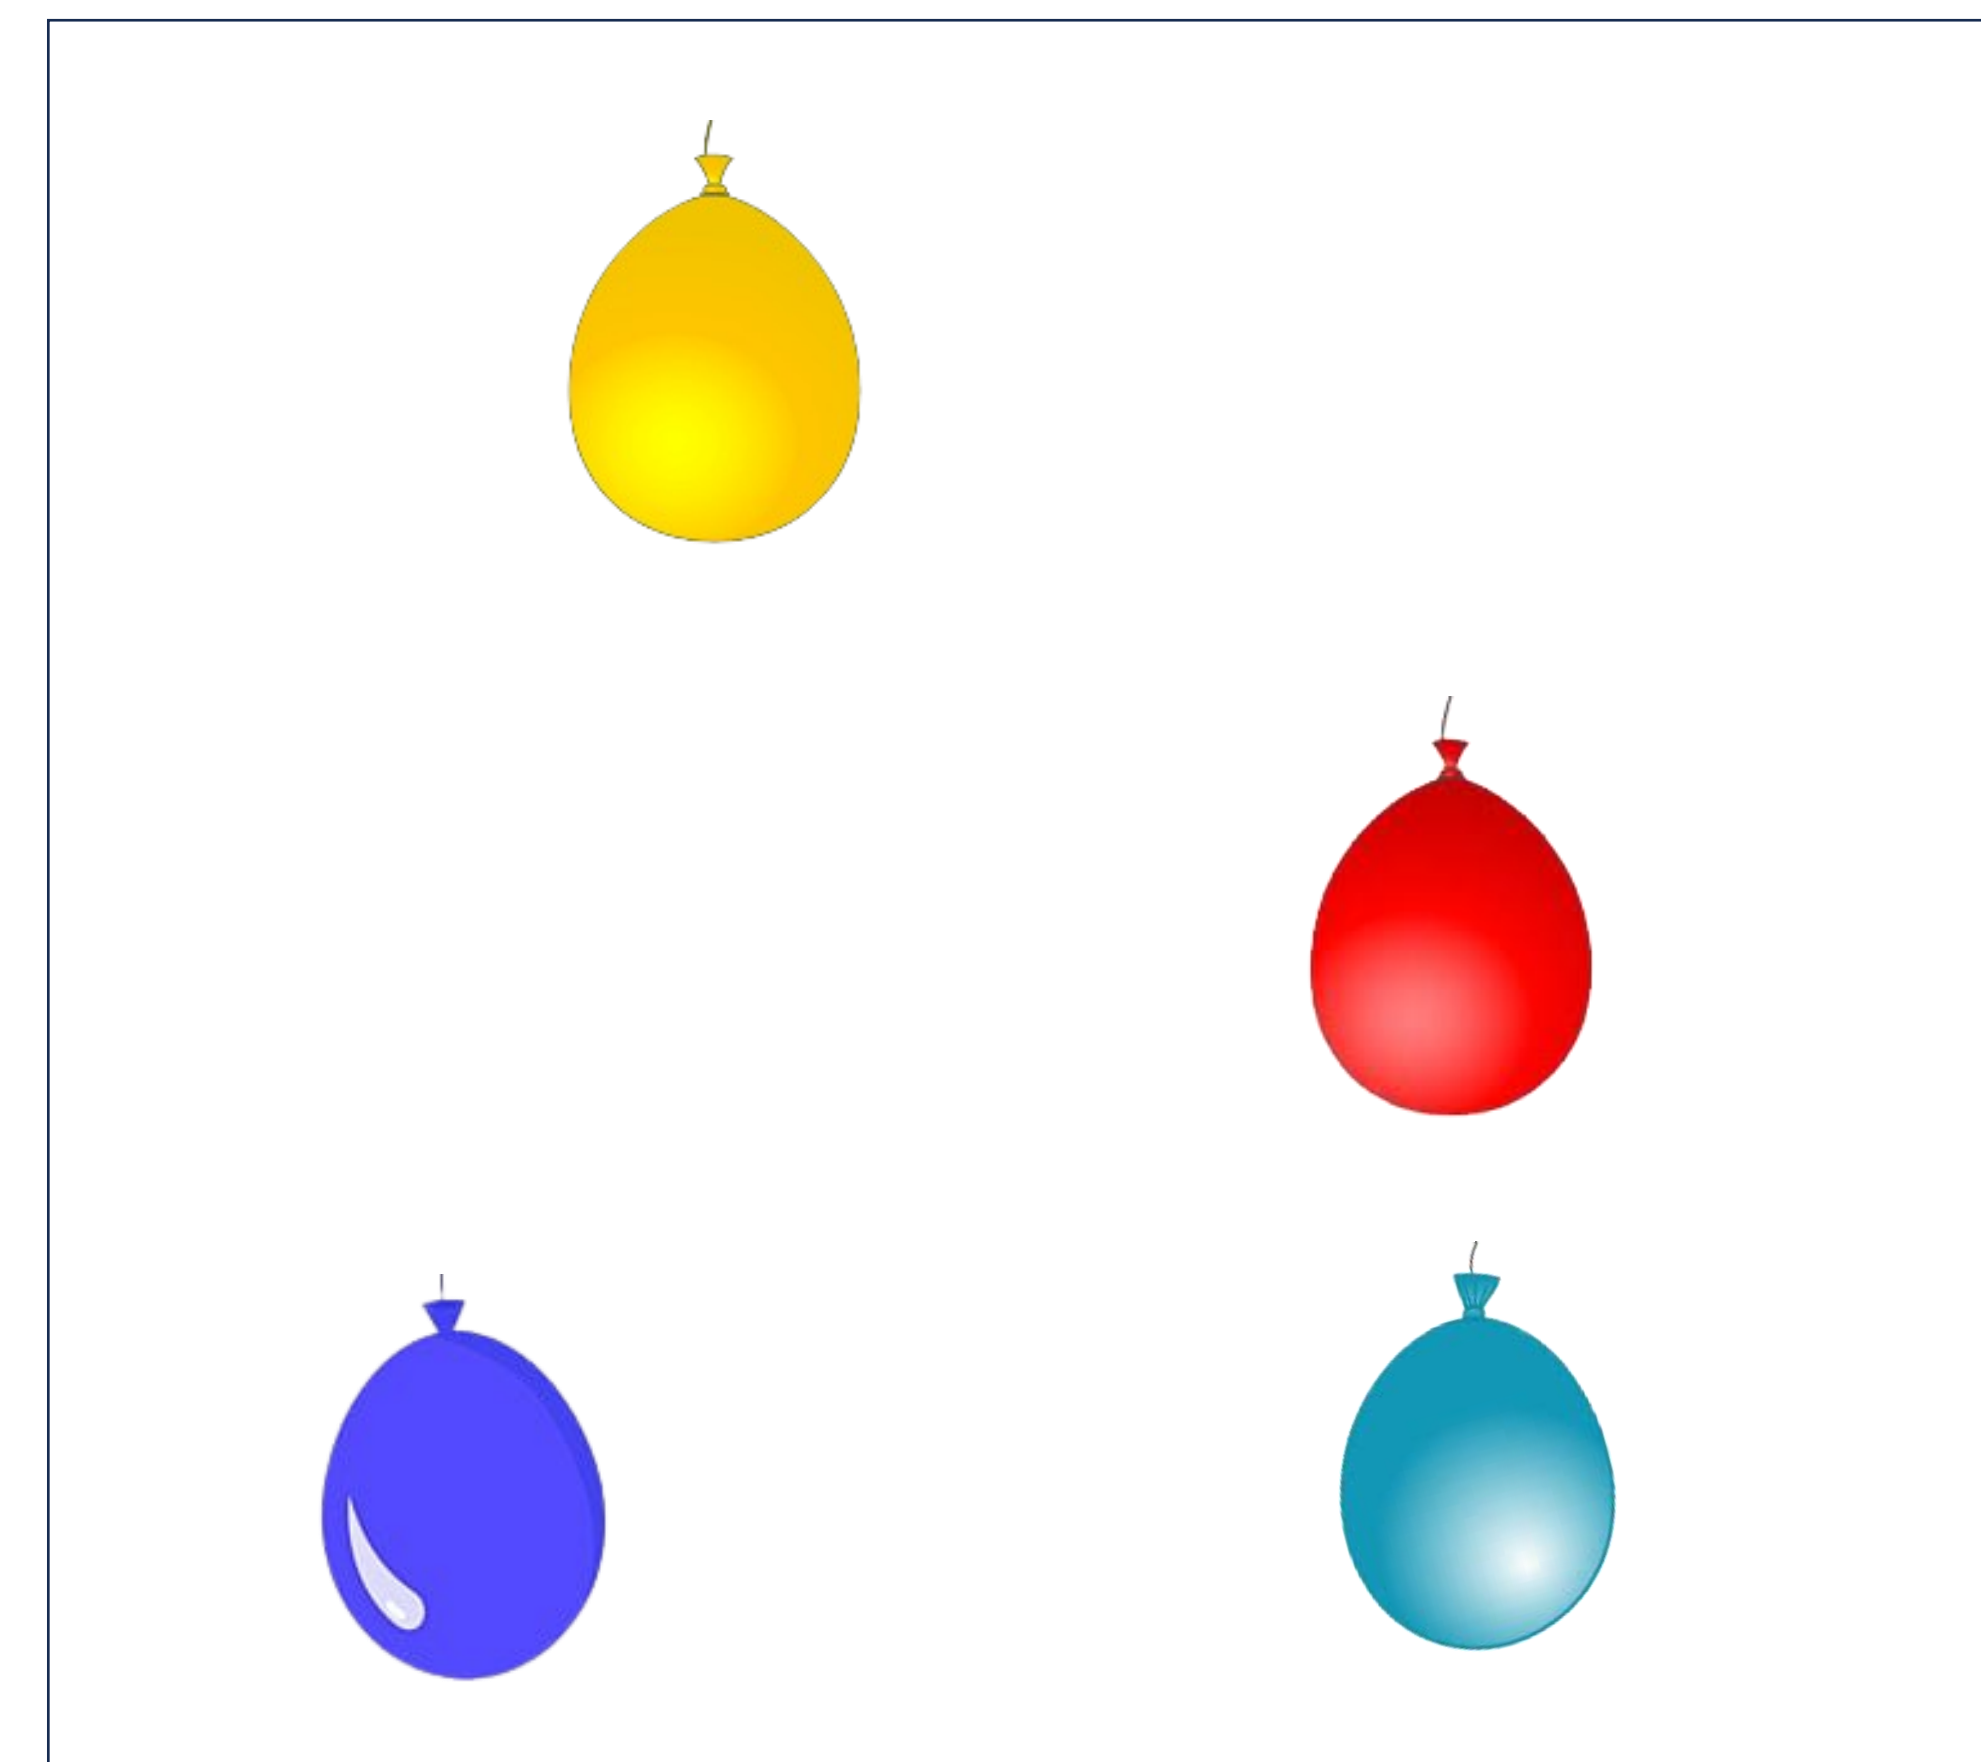

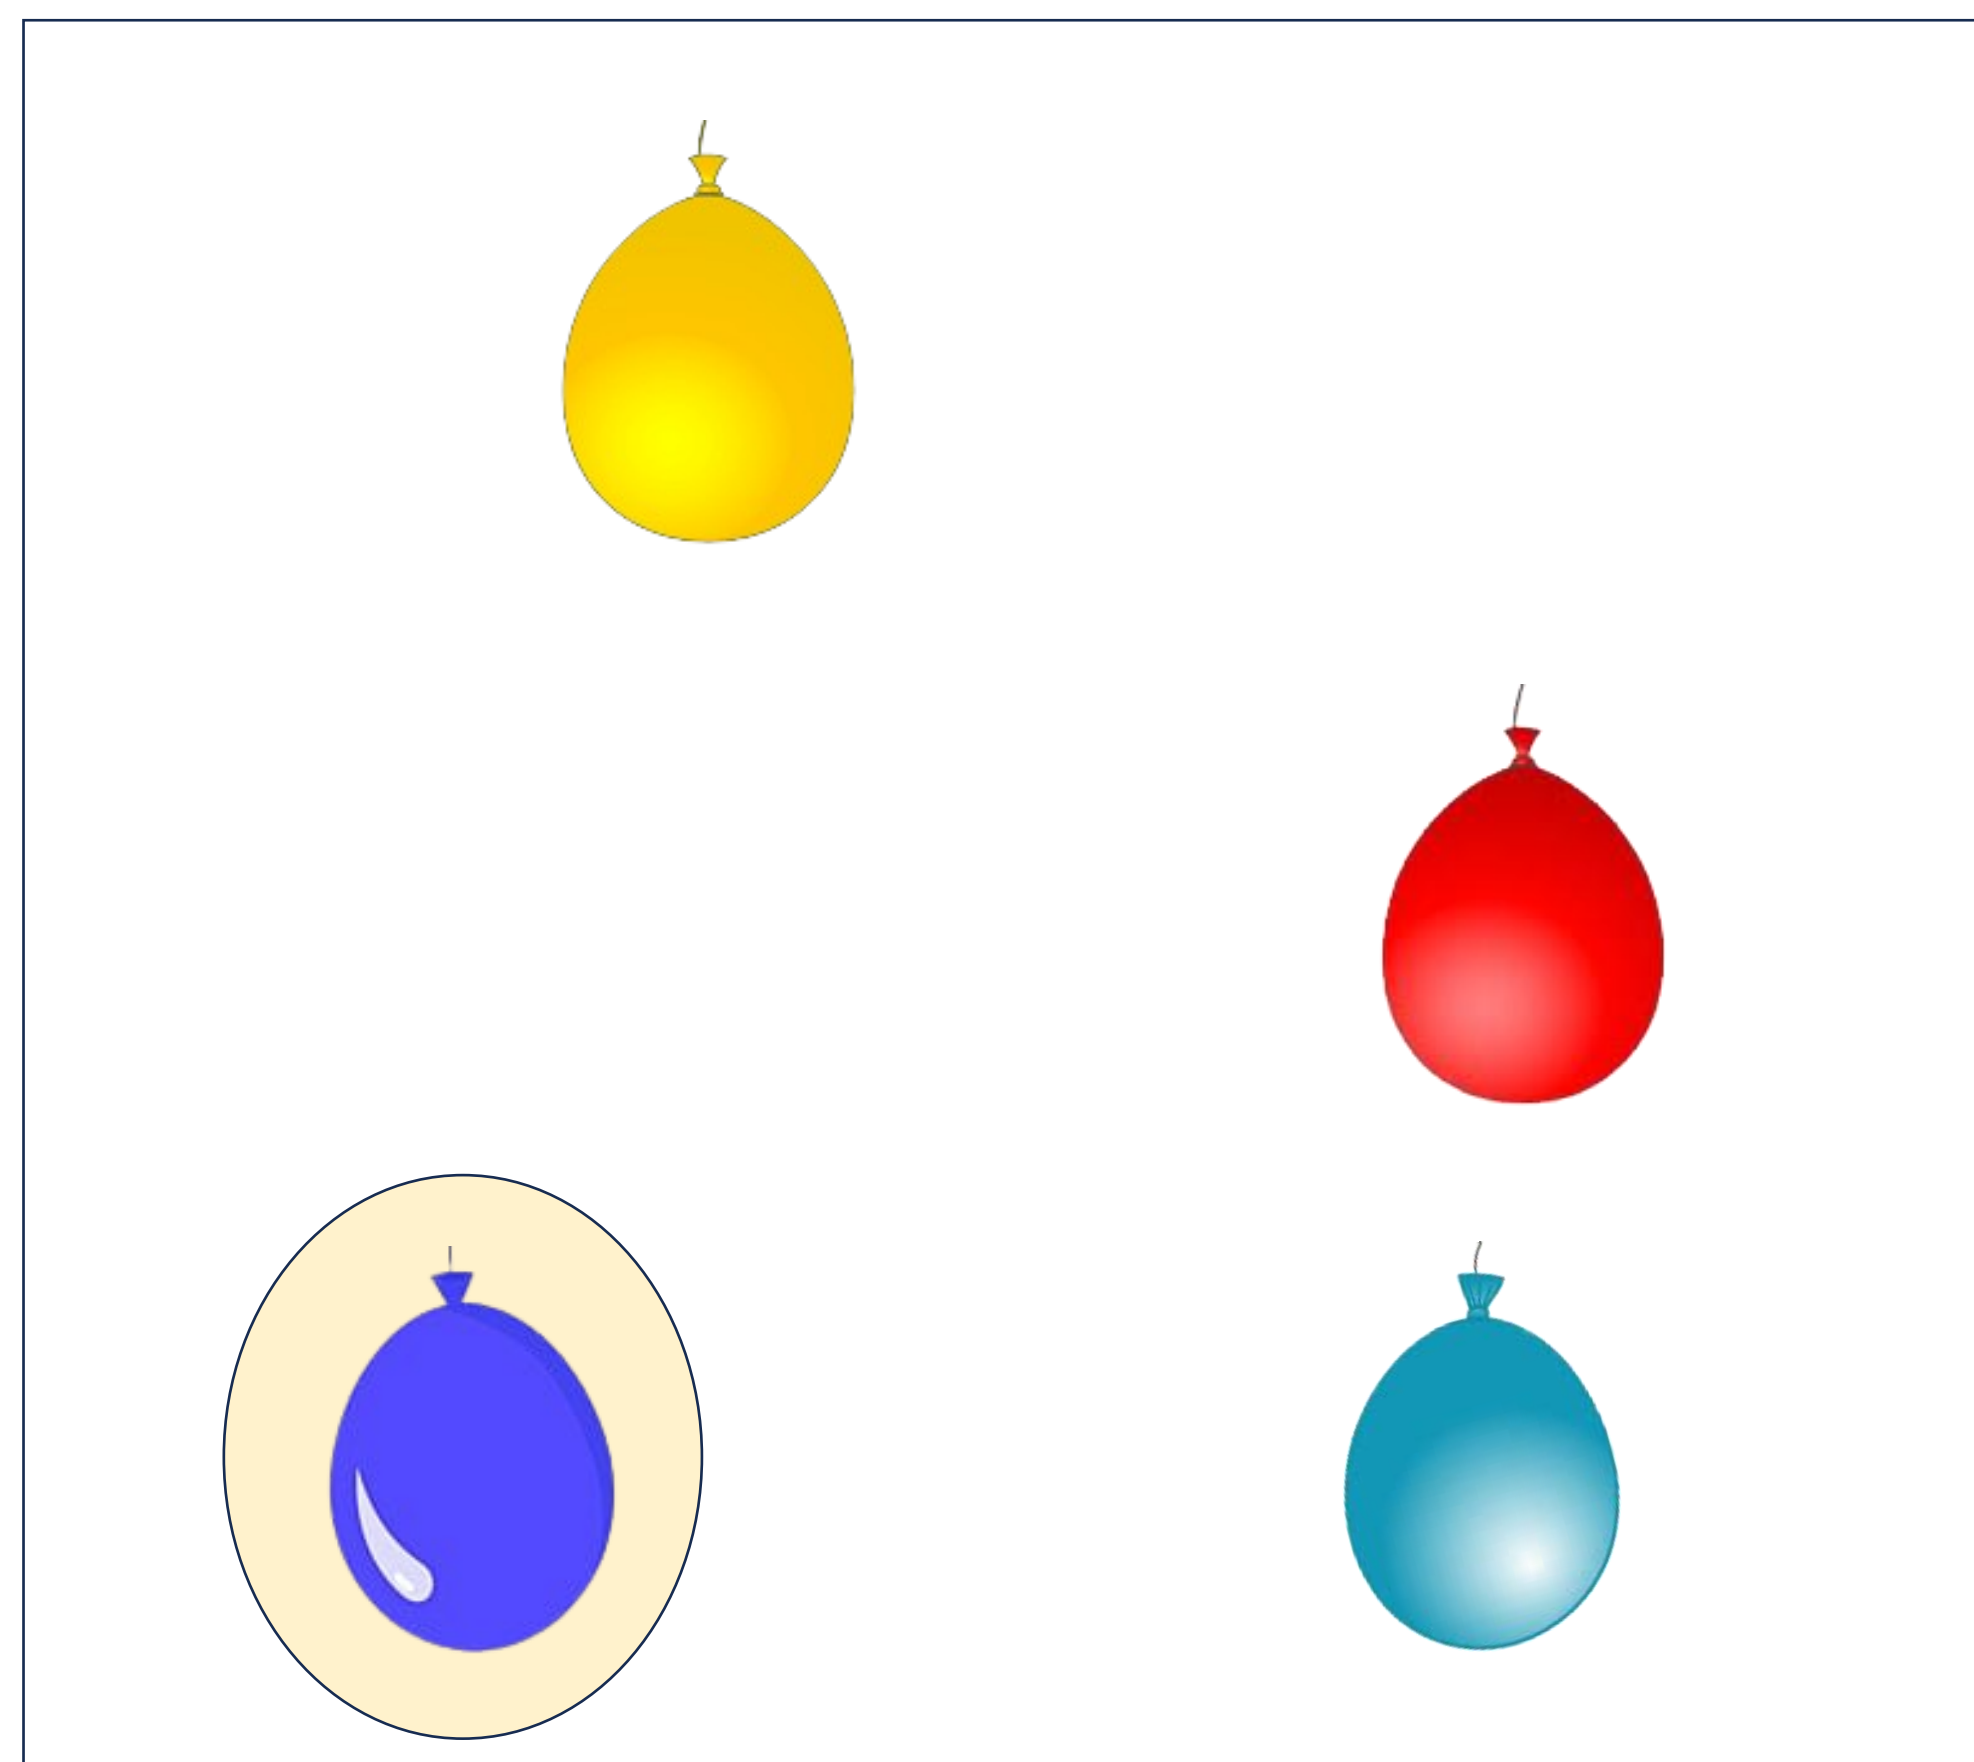

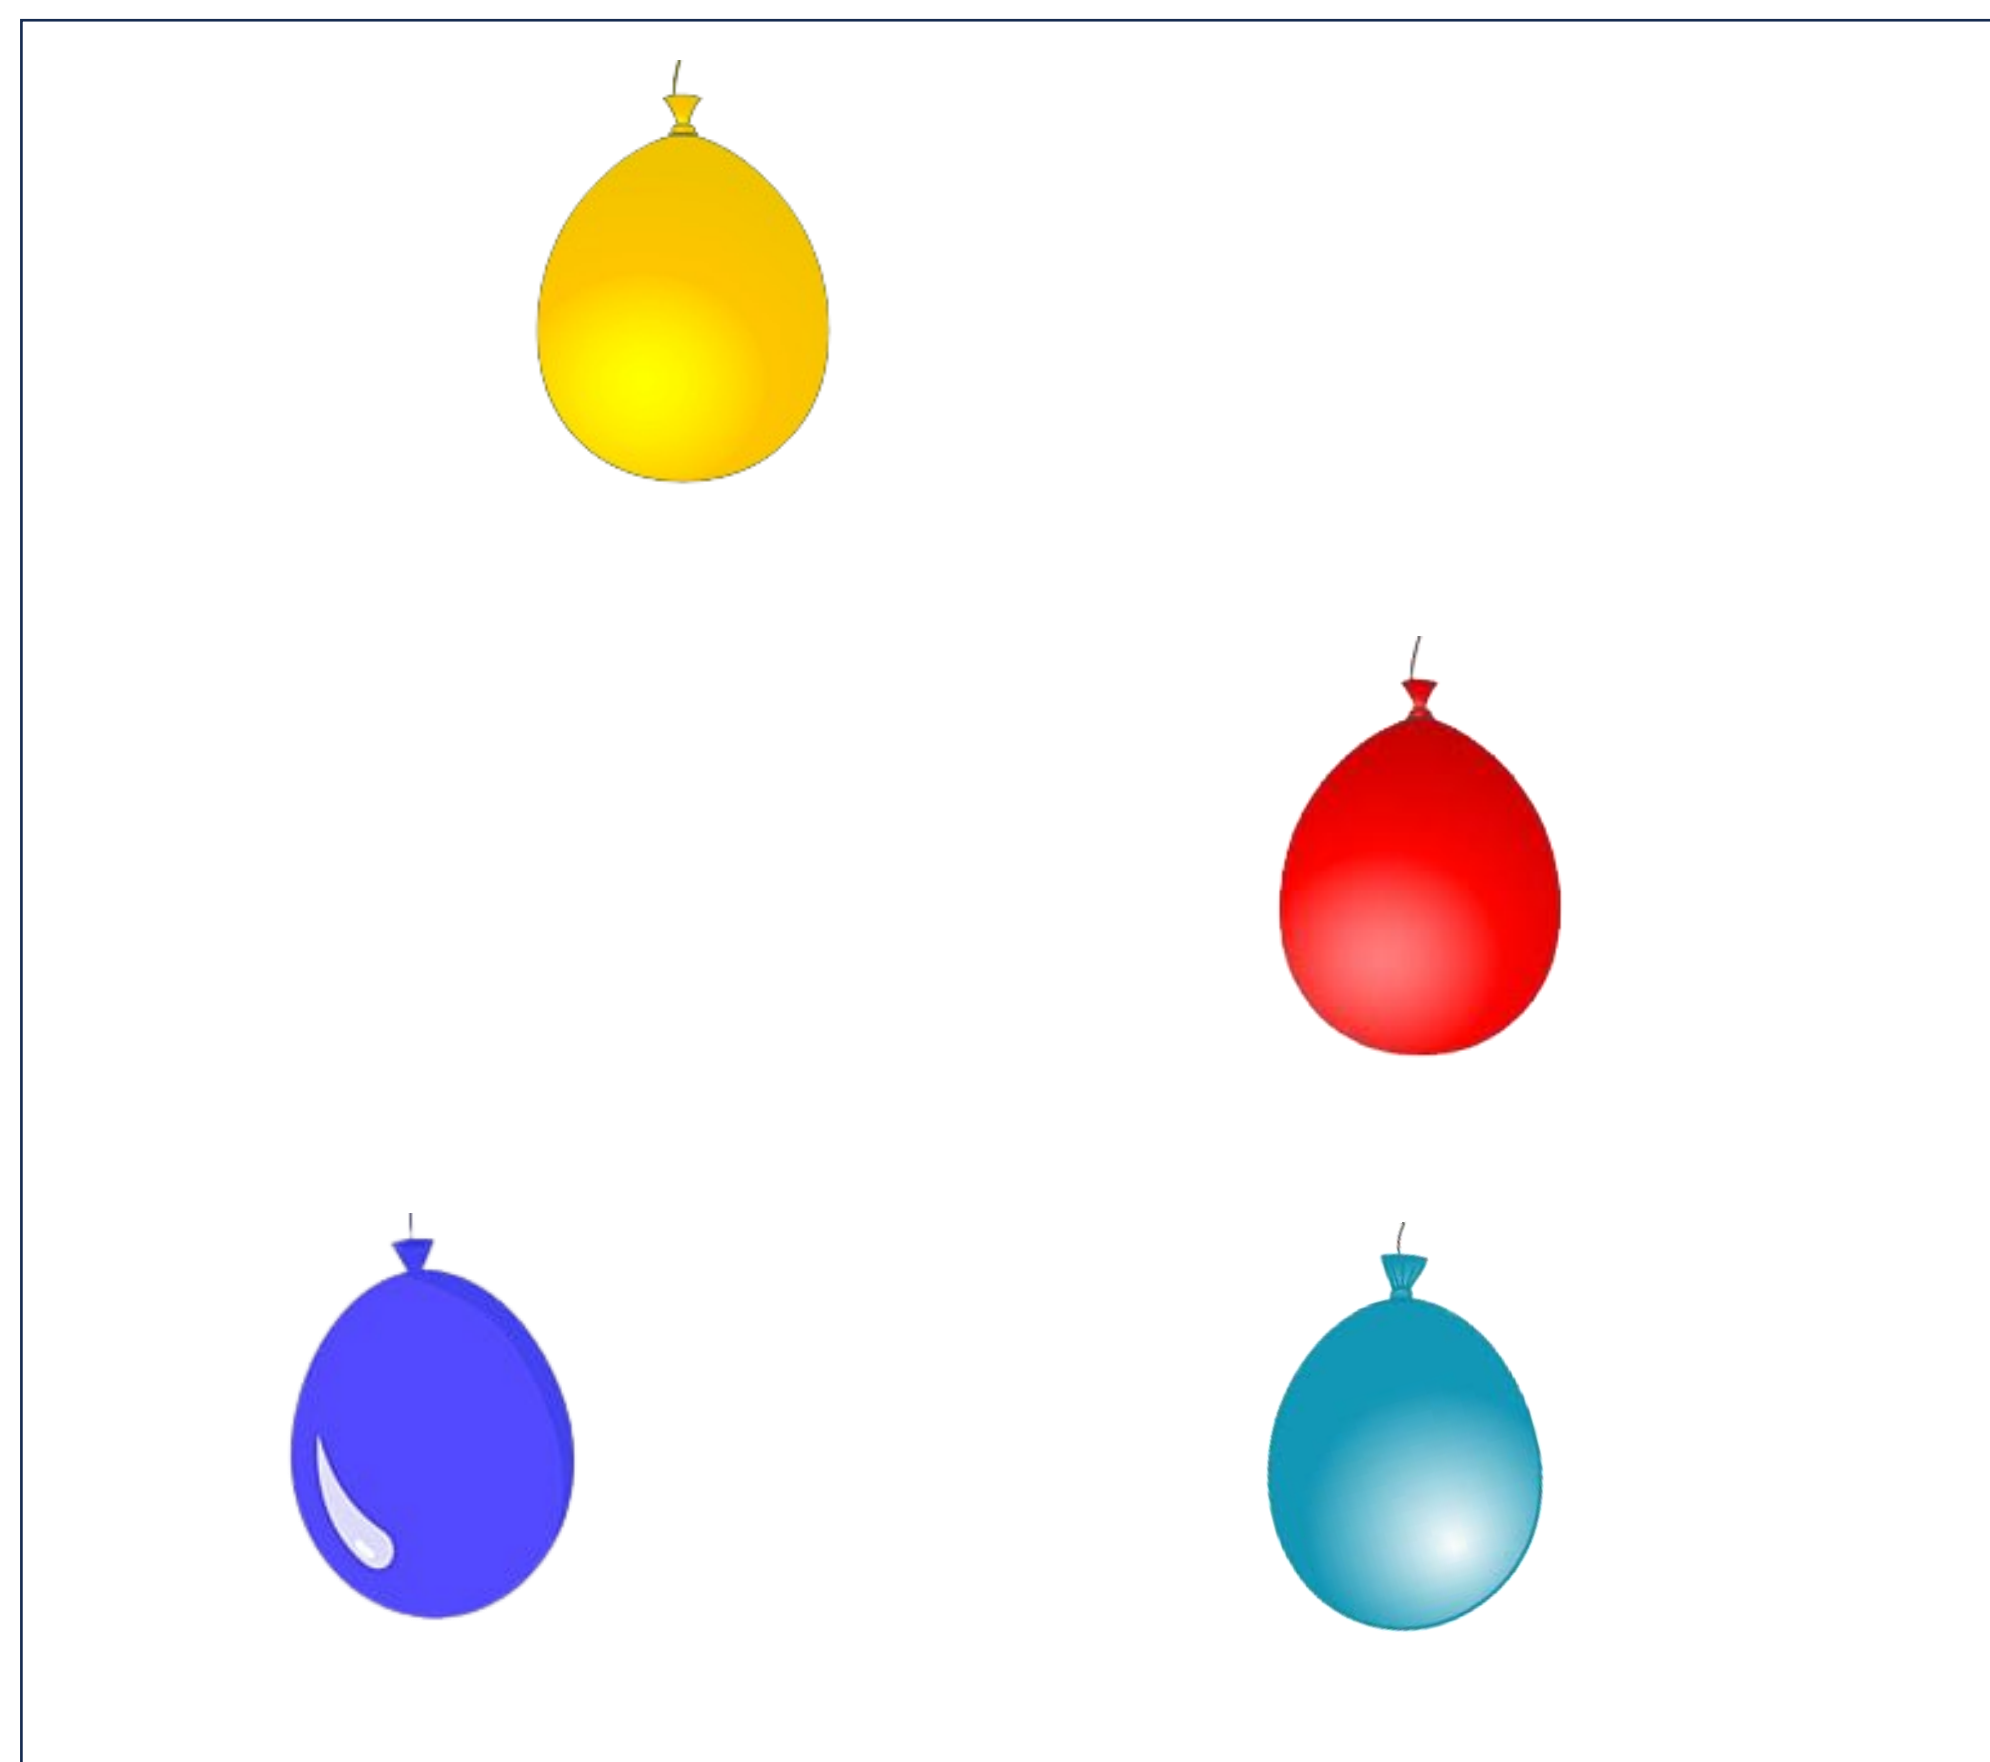

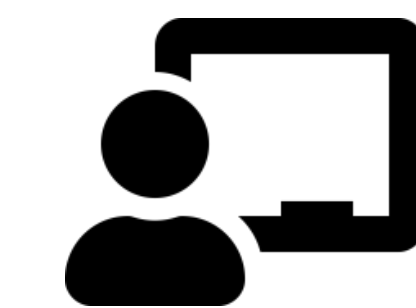

5   -   1   =   4

**After shooting 1 balloon from 5 balloons, there are 4 balloons left.**
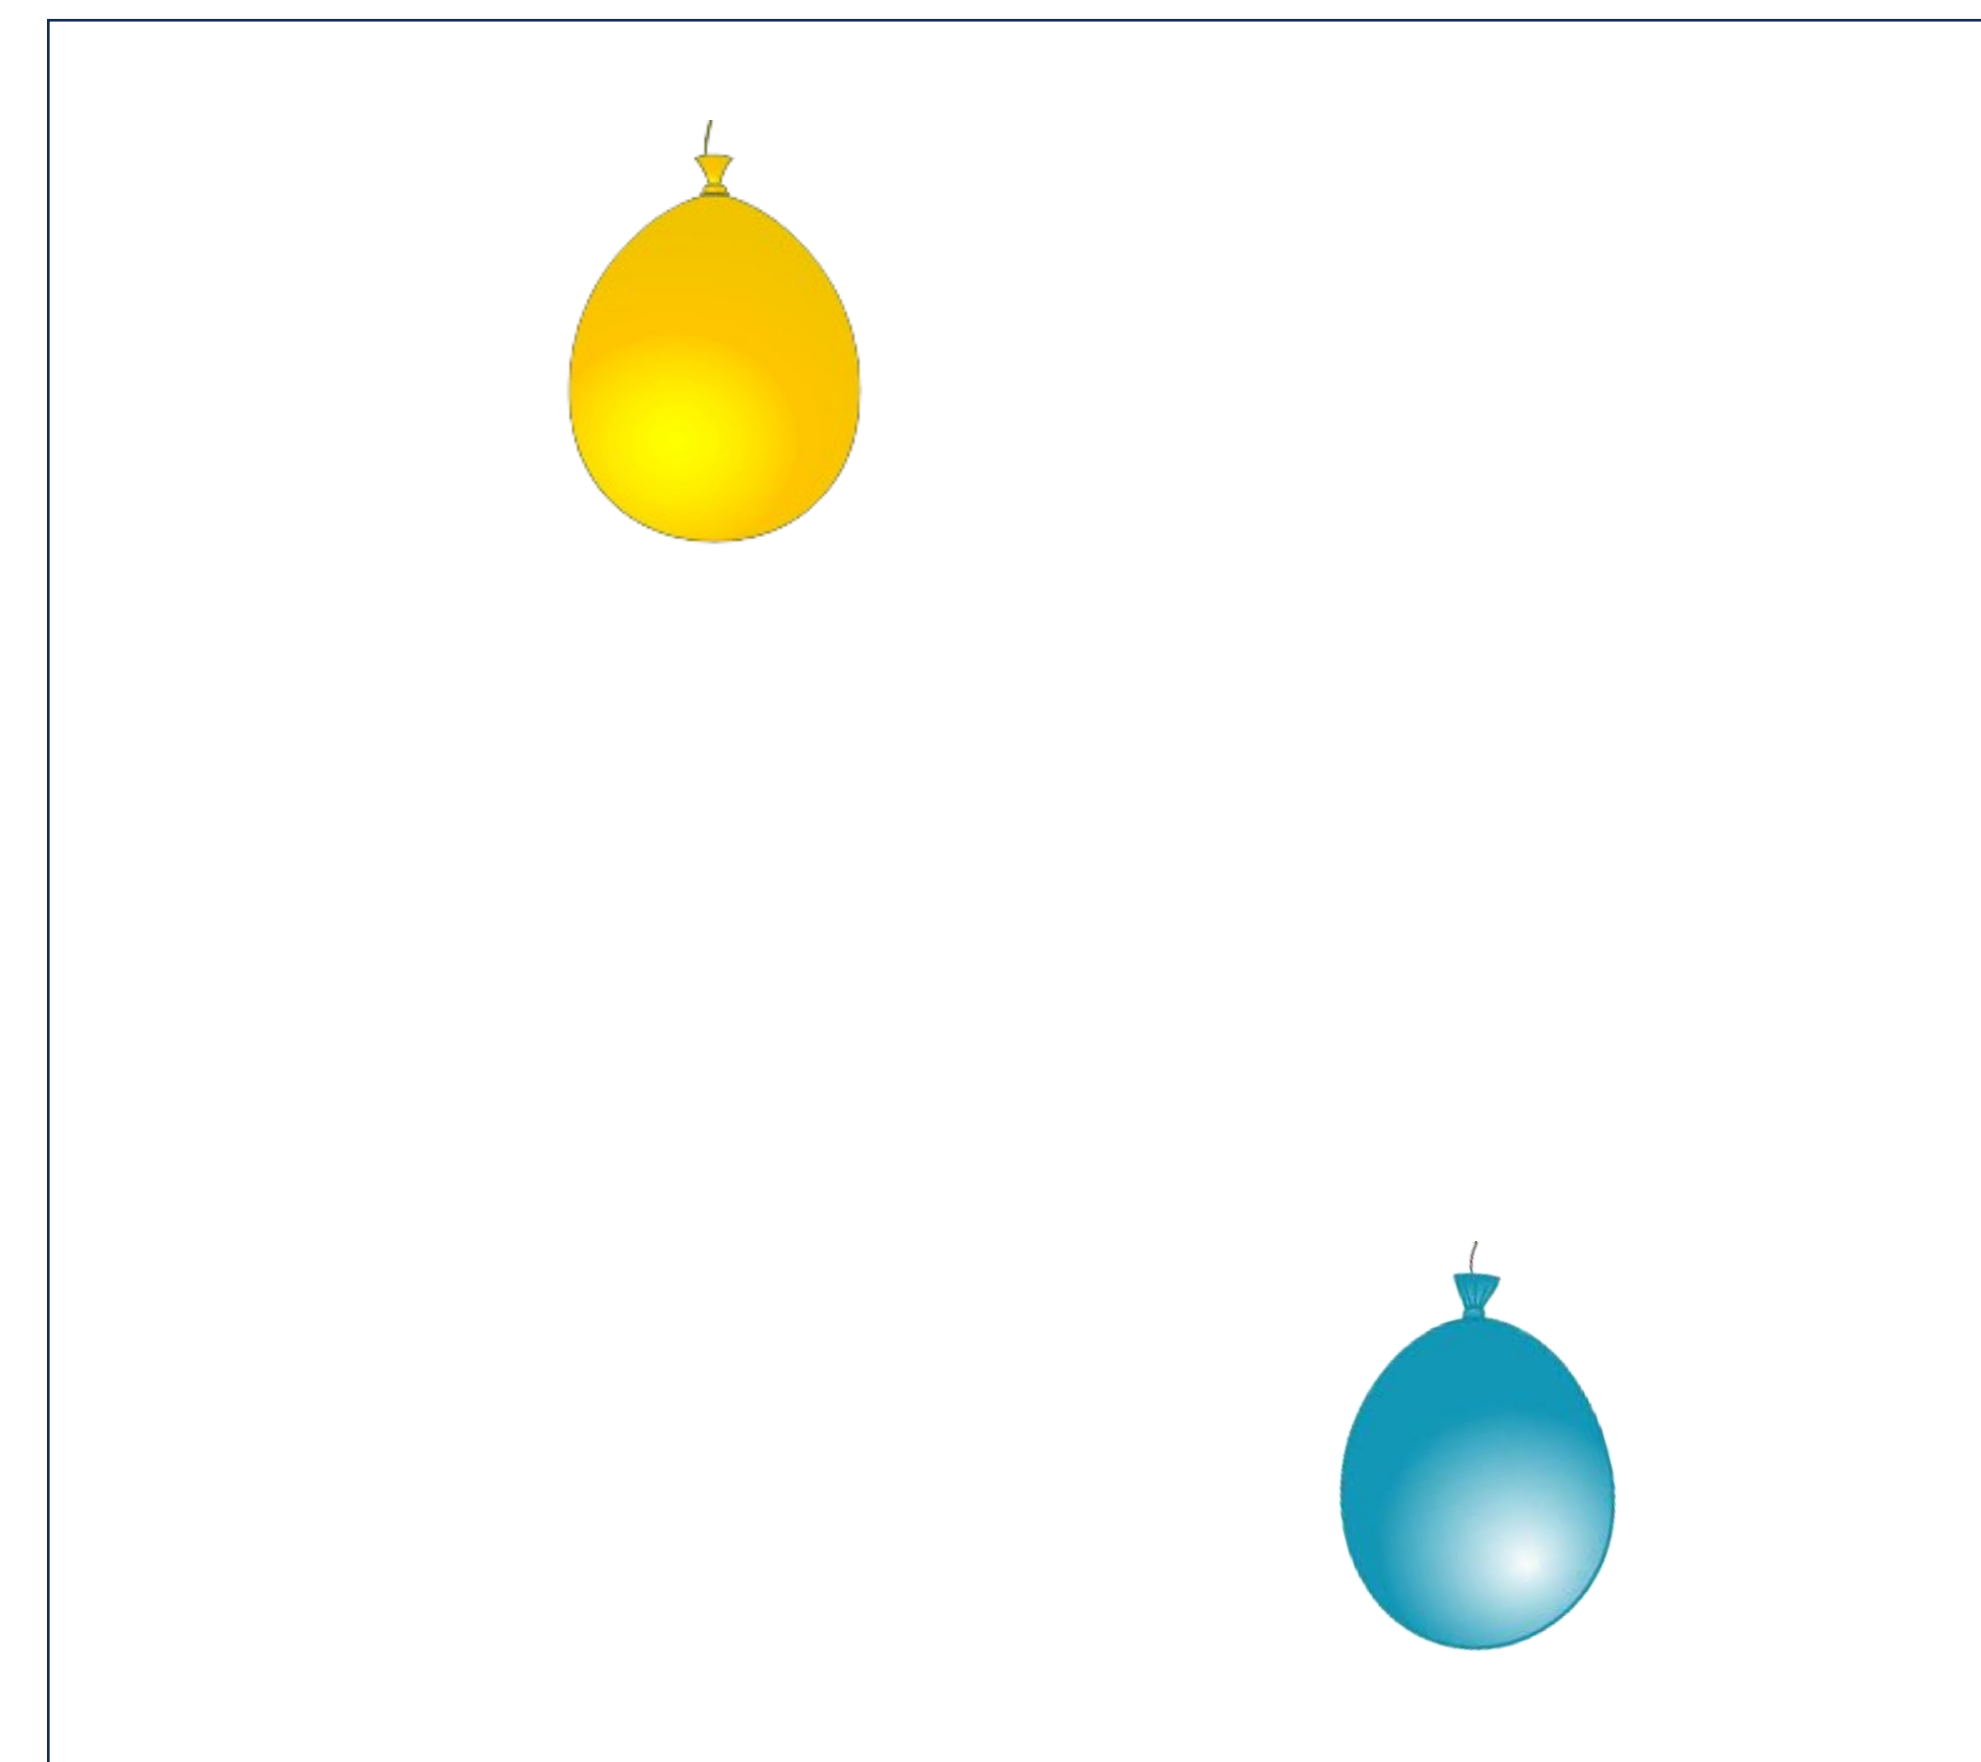

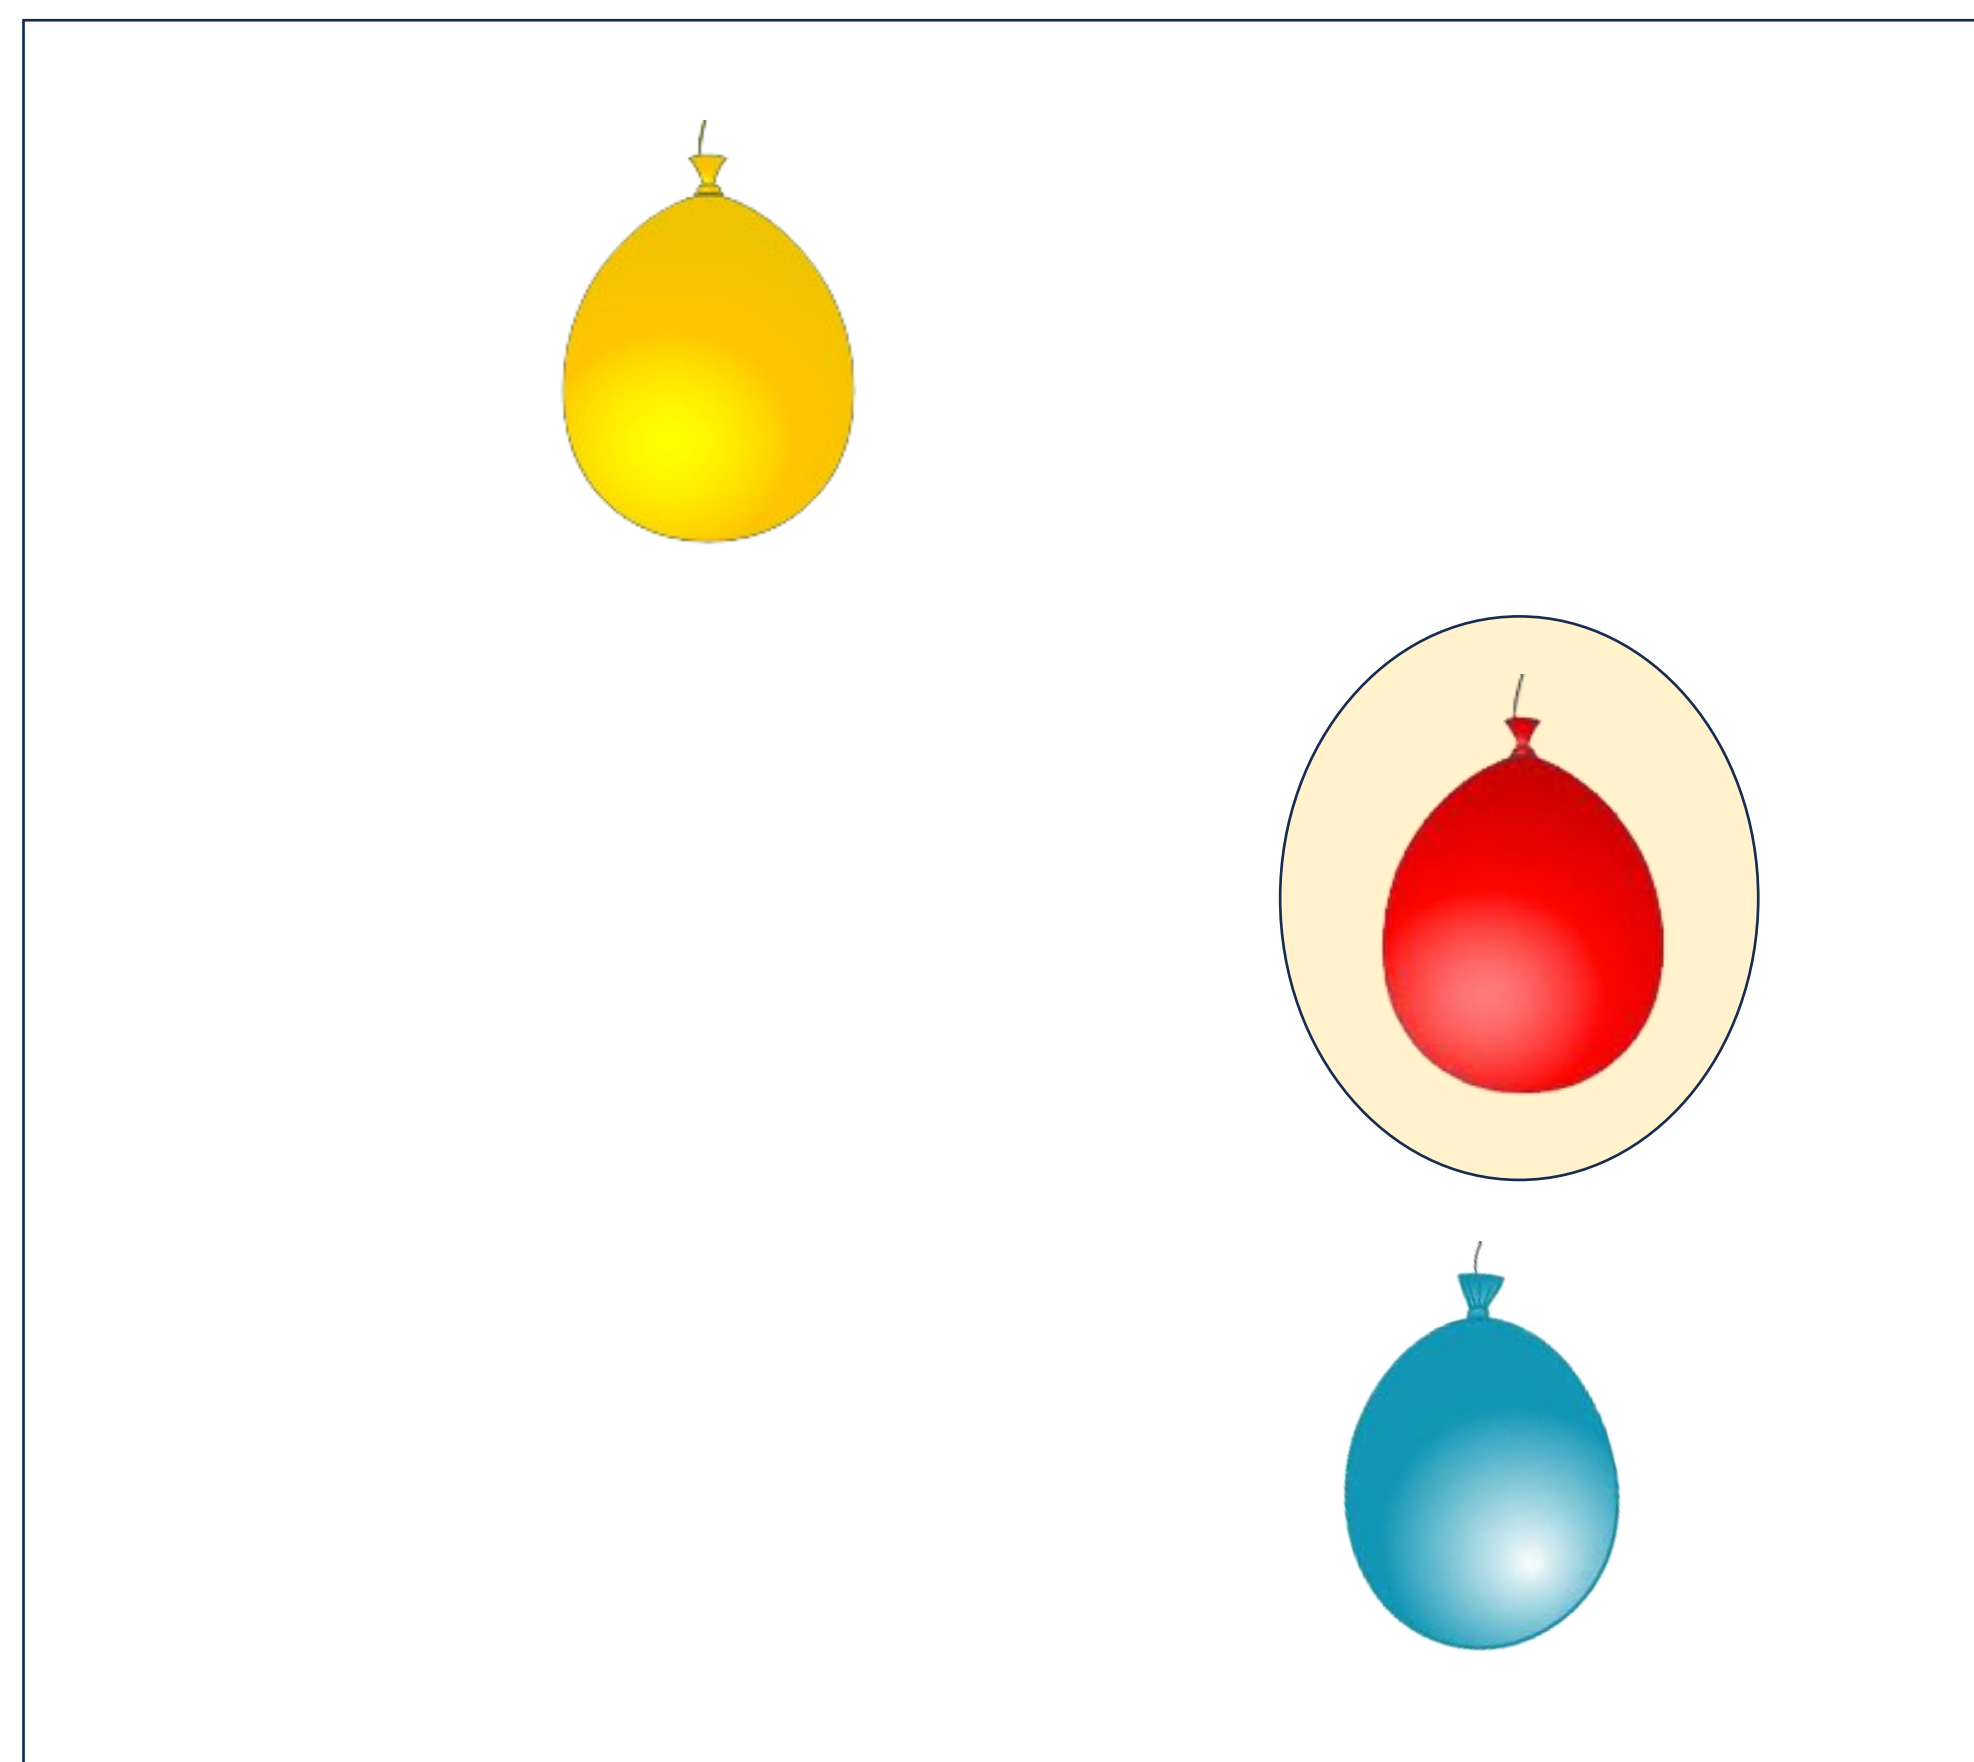

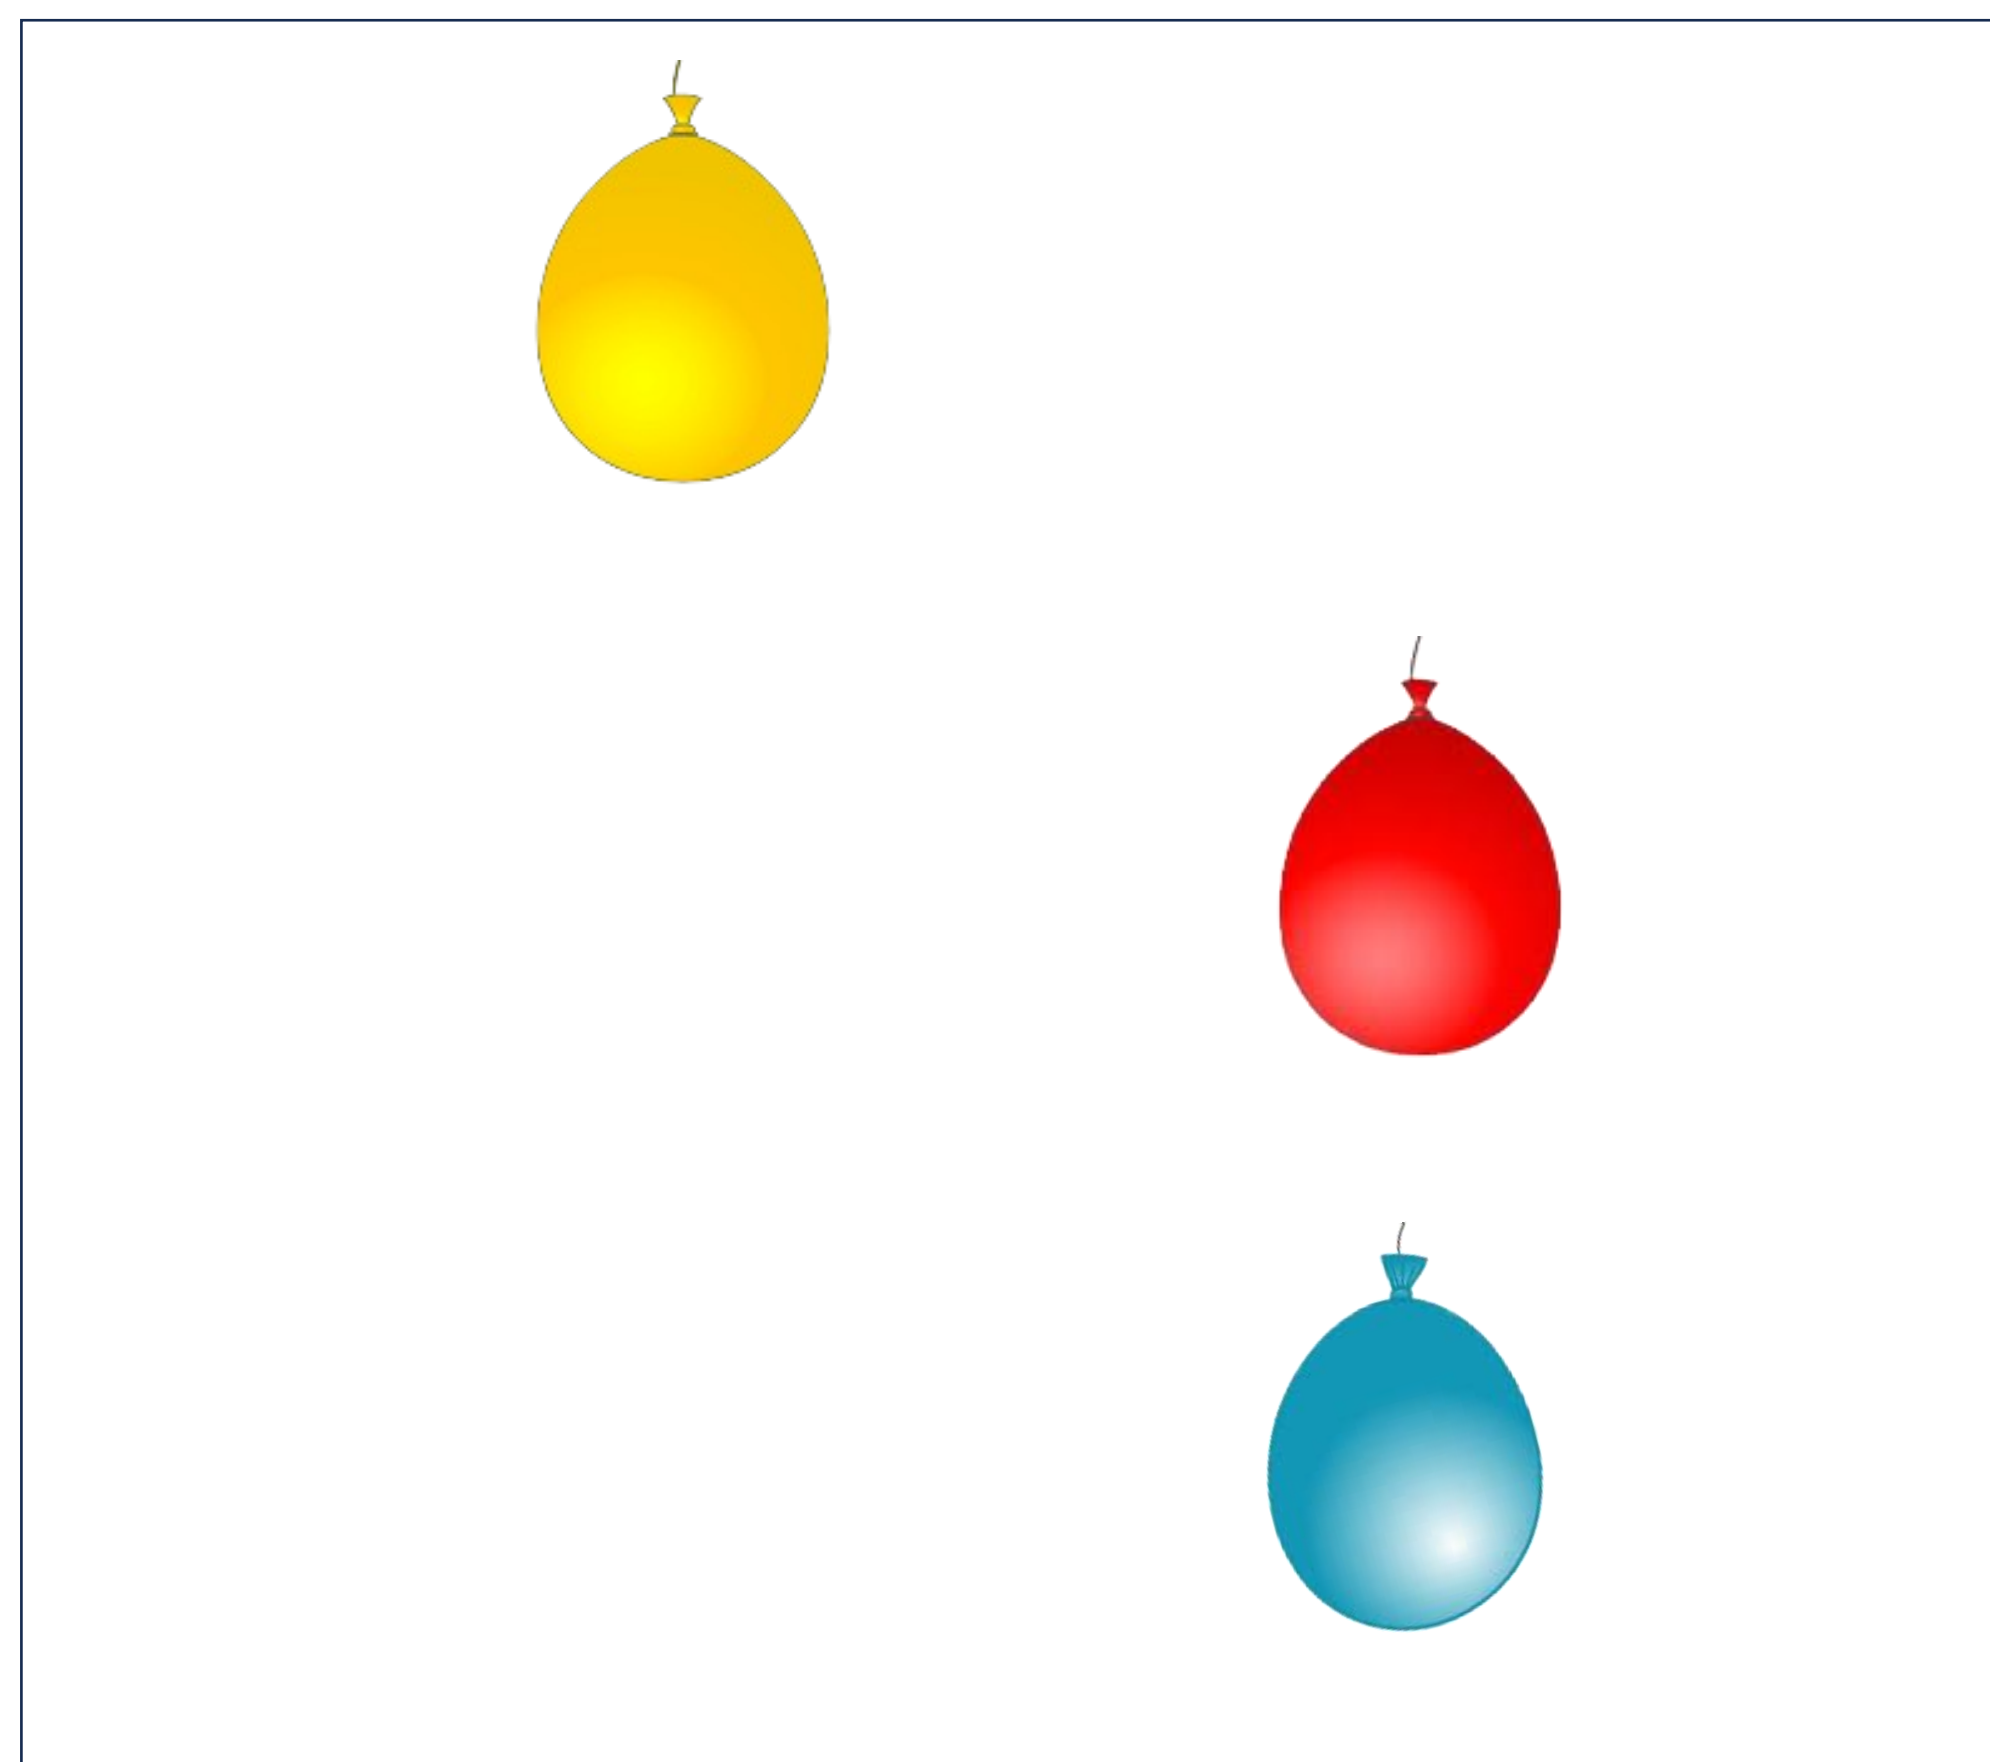

He shoot the Indigo balloon.

$$4 - 1 = 3$$

After shooting 1 balloon from 4 balloons, there are 3 balloons left.

He shoot the red balloon.

| 3 | - | 1 | = | 2 |

**After shooting 1 balloon from 3 balloons, there are 2 balloons left.**
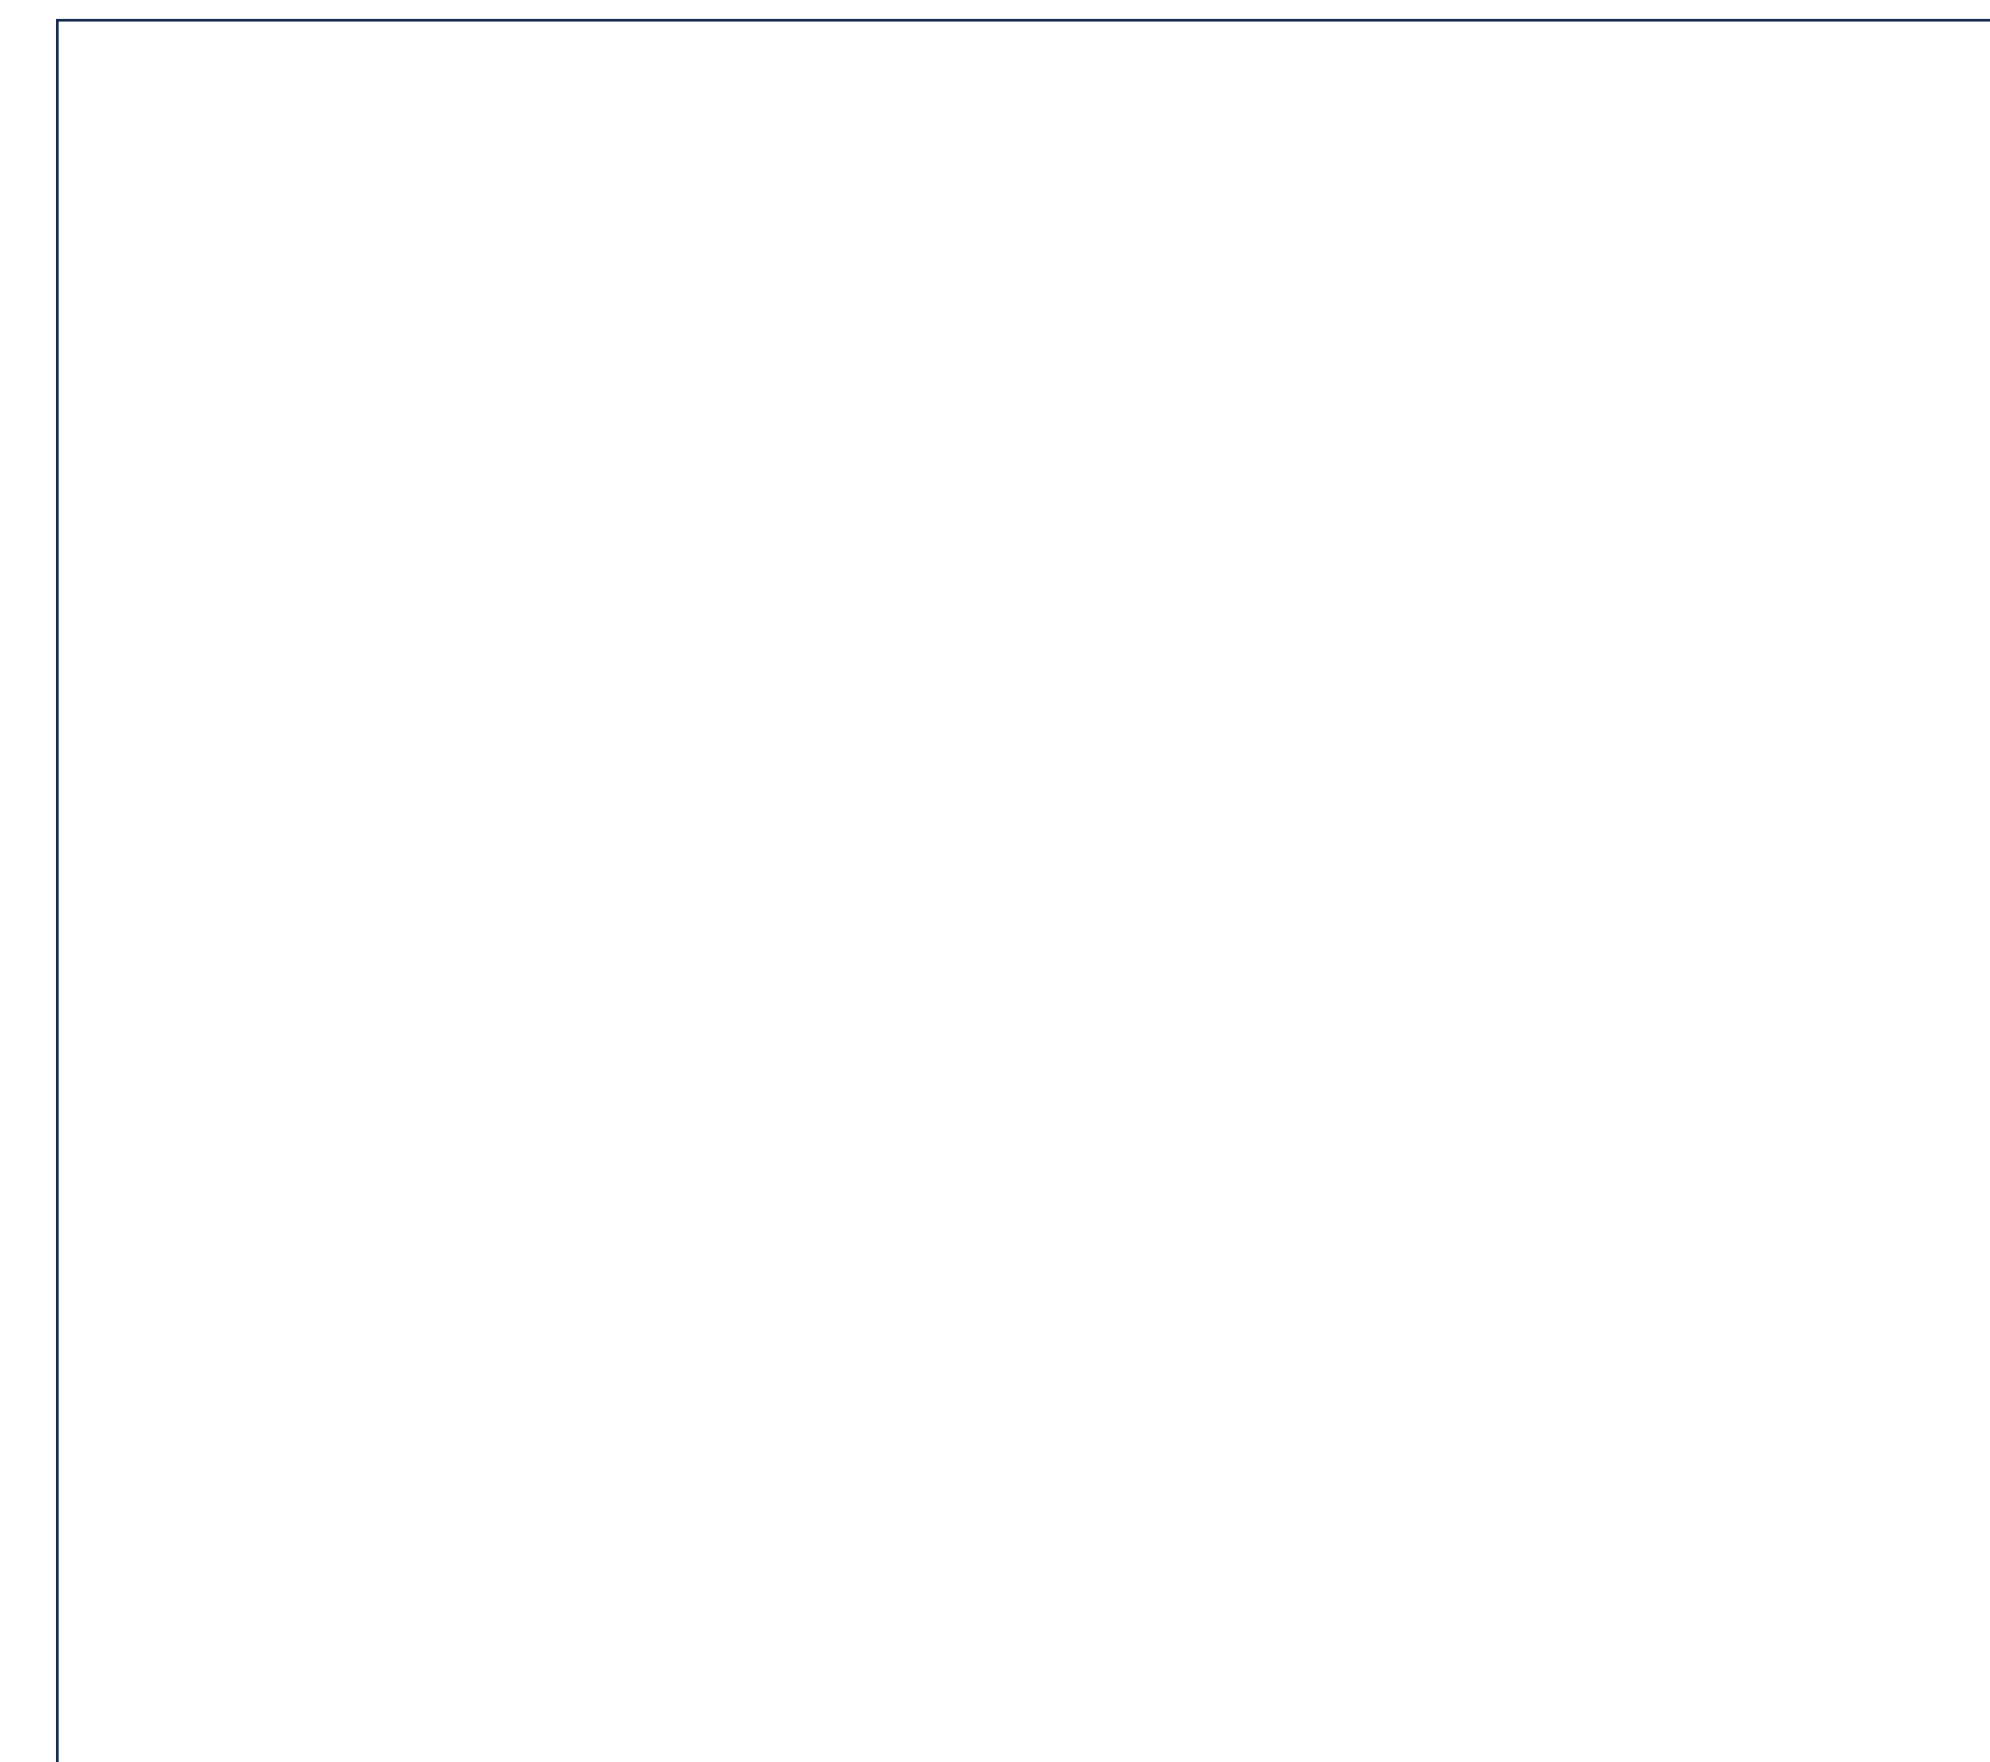

# He shoot the yellow balloon. 🎈

2   -   **1**   =   **1**

After shooting 1 balloon from 2 balloons, there are 1 balloons left.
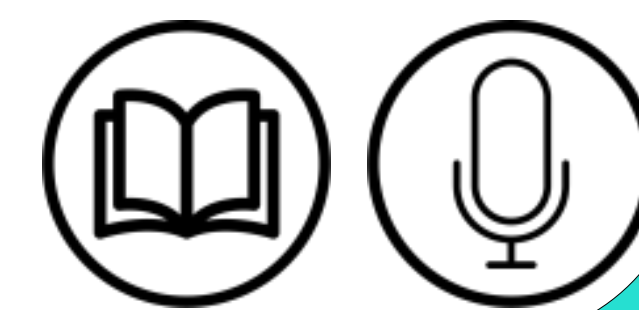

He shoot the blue balloon.

1 - **1** = **0**

After shooting 1 balloon from 1 balloon, there is 0 balloon left. That means no balloon.
