

SUBTRACTION SENTENCE

Subtraction Sentence

Example 1:

Find the subtraction sentence.

$$\boxed{5} - \boxed{3} = \boxed{?}$$

Solution:

$5 - 3 =$

=

Therefore,

$$\boxed{5} - \boxed{3} = \boxed{2}$$

Example 2:

Find the subtraction sentence.

$$\boxed{4} - \boxed{2} = \boxed{?}$$

Solution:

$4 - 2 =$

=

Therefore,

$$\boxed{4} - \boxed{2} = \boxed{2}$$

Example 3:

Find the subtraction sentence.

$$\boxed{9} - \boxed{5} = \boxed{?}$$

Solution:

$9 - 5 =$

=

Therefore,

$$\boxed{9} - \boxed{5} = \boxed{4}$$

Example 4:

Find the subtraction sentence.

$$\boxed{8} - \boxed{3} = \boxed{?}$$

Solution:

$8 - 3 =$

 $=$ 

Therefore,

$$\boxed{8} - \boxed{3} = \boxed{5}$$

Example 5:

Find the subtraction sentence.

$$10 - ? = 7$$

Solution:

To find the subtrahend, move the difference to the left hand side.

Minuend - difference = subtrahend

$$10 - 7 = ?$$

$$10 - 7 =$$

=

Therefore,

$$10 - 3 = 7$$

Example 6:

Find the subtraction sentence.

$$6 - ? = 2$$

Solution:

To find the subtrahend, move the difference to the left hand side.

Minuend - difference = subtrahend

$$6 - 2 = ?$$

$$6 - 2 =$$

=

Therefore,

$$6 - 4 = 2$$

Example 7:

Find the subtraction sentence.

$$9 - ? = 3$$

Solution:

To find the subtrahend, move the difference to the left hand side.

Minuend - difference = subtrahend

$$9 - 3 = ?$$

$$9 - 3 =$$

=

Therefore,

$$9 - 6 = 3$$

Example 8:

Find the subtraction sentence.

$$4 - ? = 1$$

Solution:

To find the subtrahend, move the difference to the left hand side.

Minuend - difference = subtrahend

$$4 - 1 = ?$$

$$4 - 1 =$$

=

Therefore,

$$4 - 3 = 1$$

Example 9:

Find the subtraction sentence.

$$7 - ? = 2$$

Solution:

To find the subtrahend, move the difference to the left hand side.

Minuend - difference = subtrahend

$$7 - 2 = ?$$

$$7 - 2 =$$

$$=$$

Therefore,

$$7 - 5 = 2$$
