

Geometry

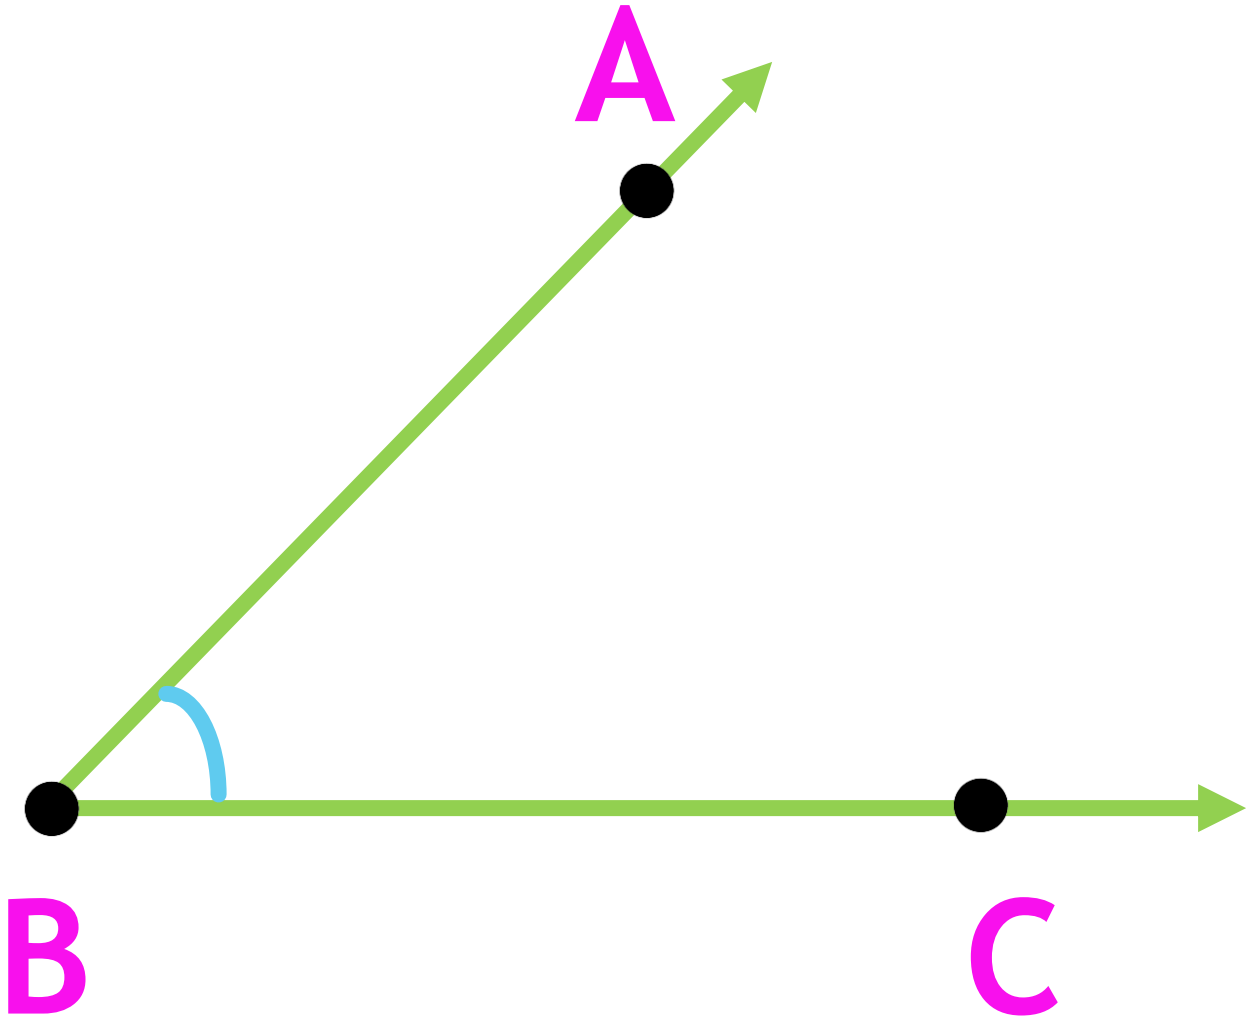

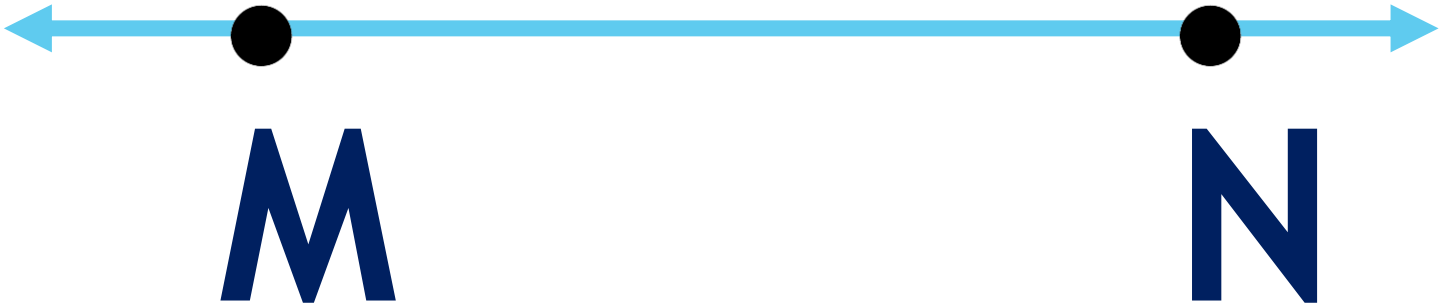

1. List out the types of Geometric figures :

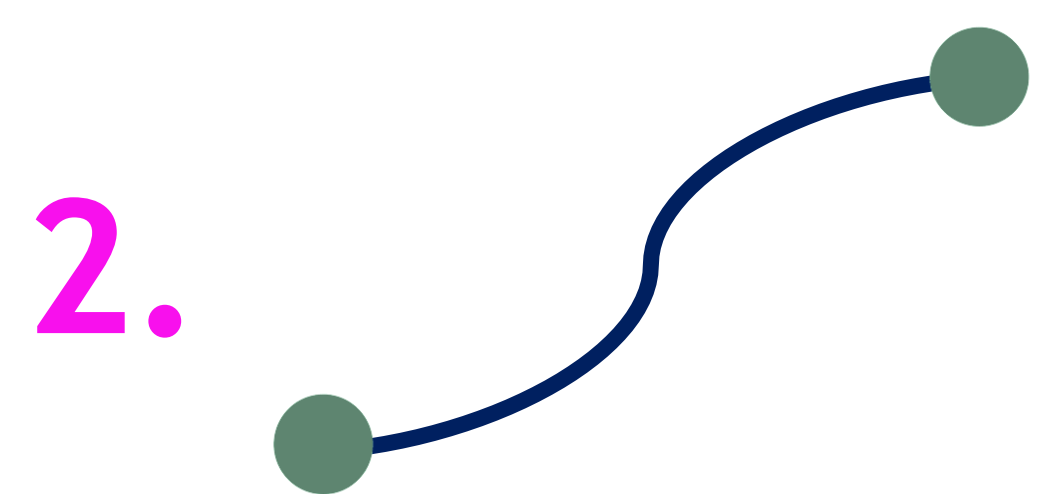

2. Write the name of following geometric figures

		
		

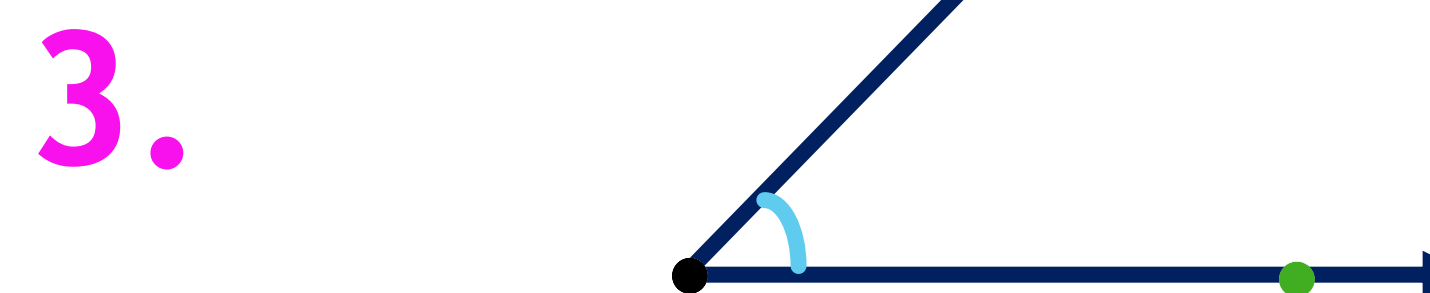

3. Choose the correct options

1. Which of the following is a line?

2. Which of the following is a ray?

3. Which of these figures is a line segment?

1.

2.

3.

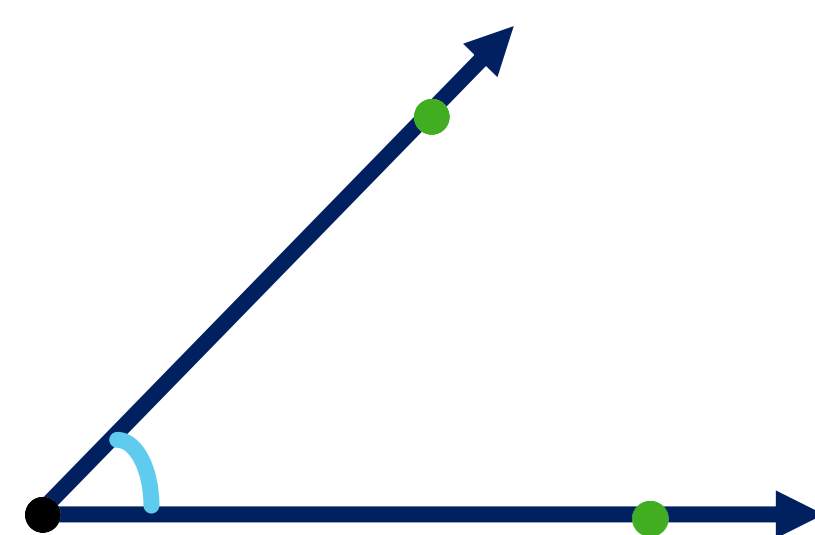

4.

4. Which of these figures is an angle?

1.

2.

3.

4.

5. Which of these figures is a point?

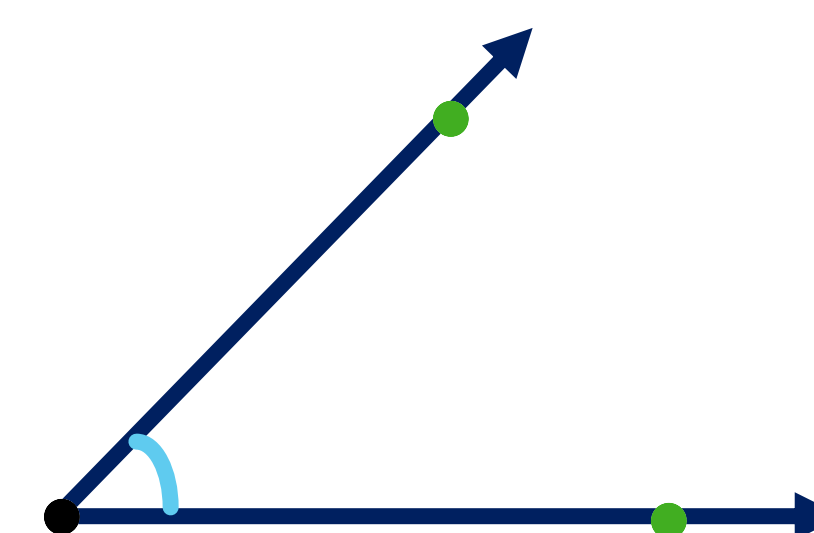

1.

2.

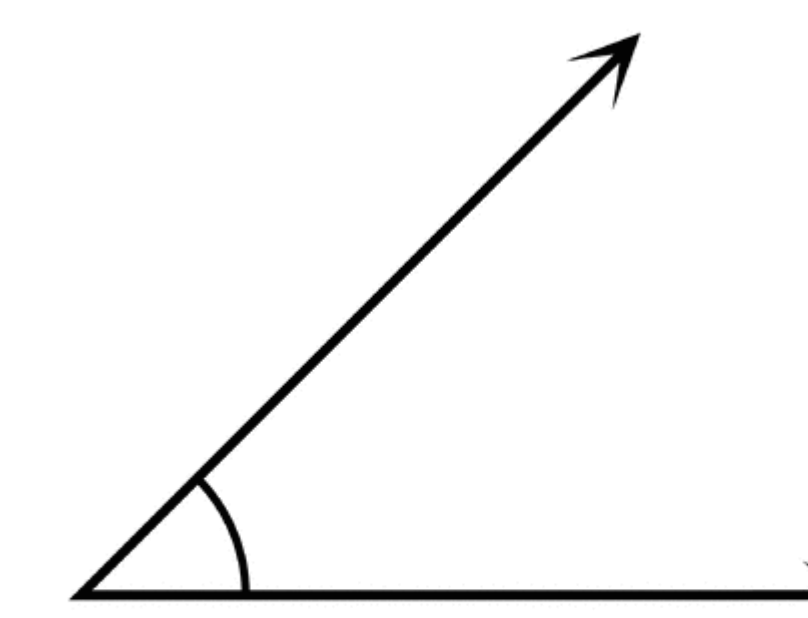

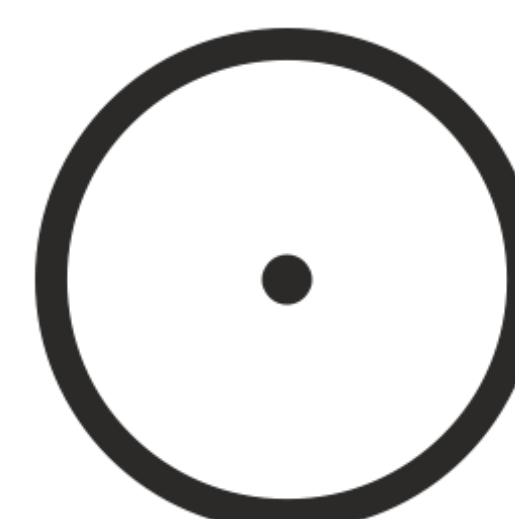

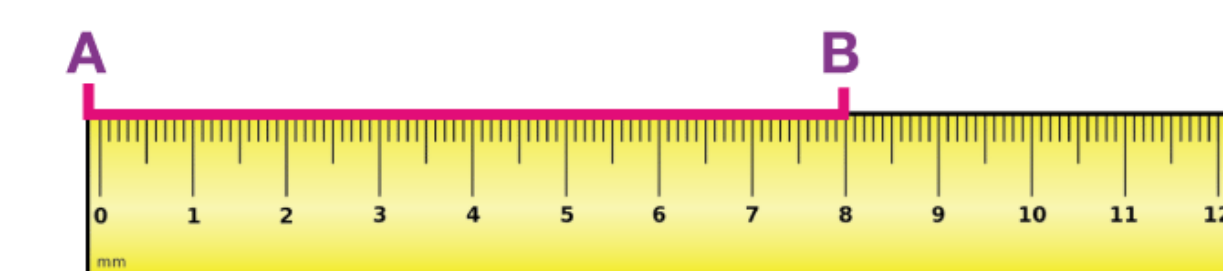

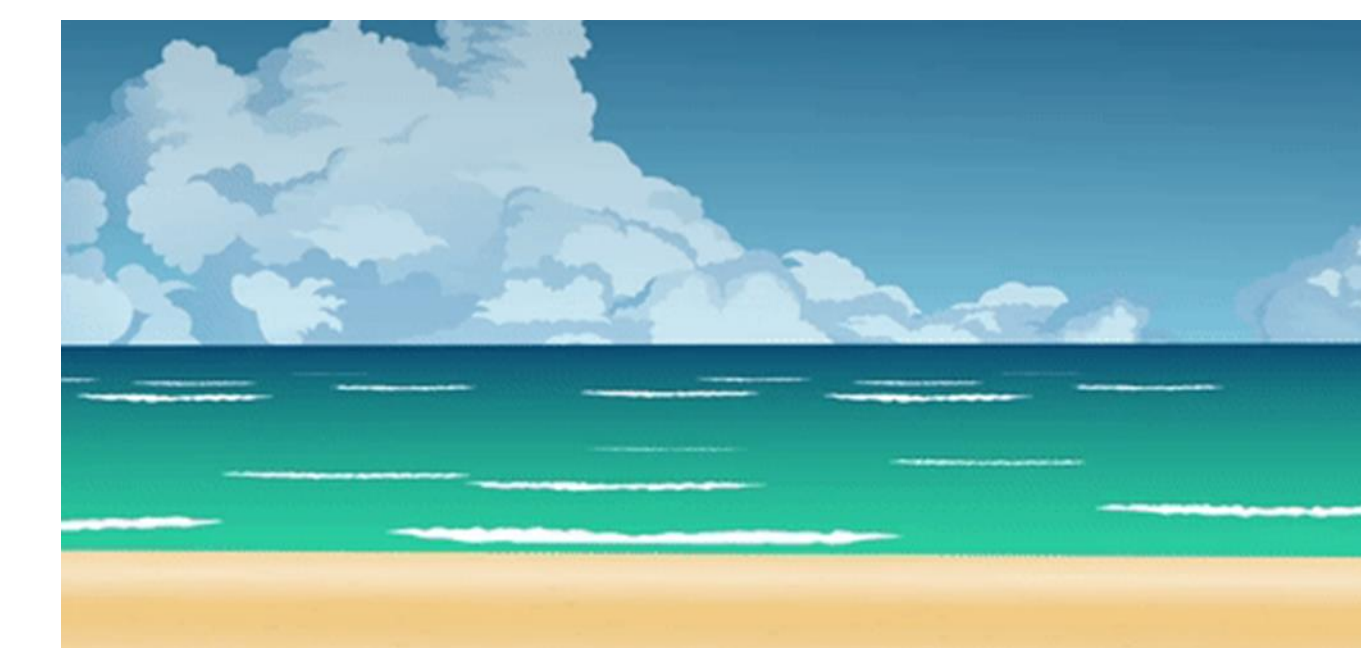

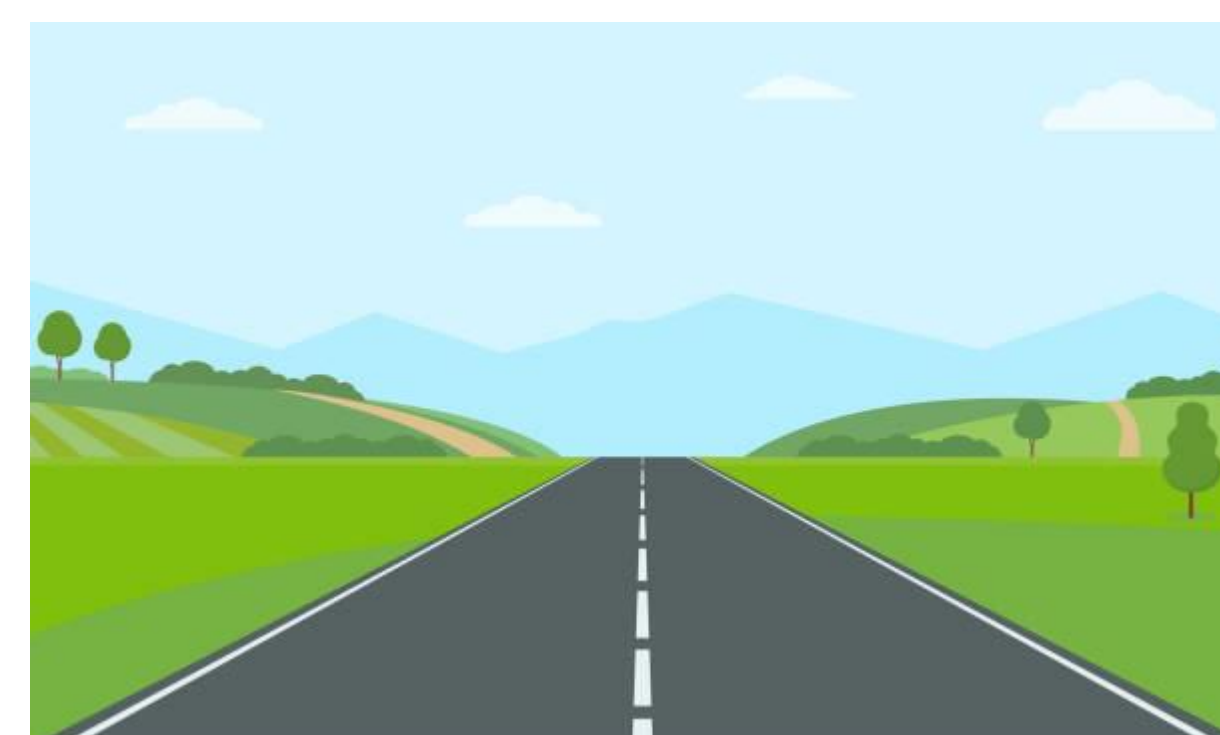

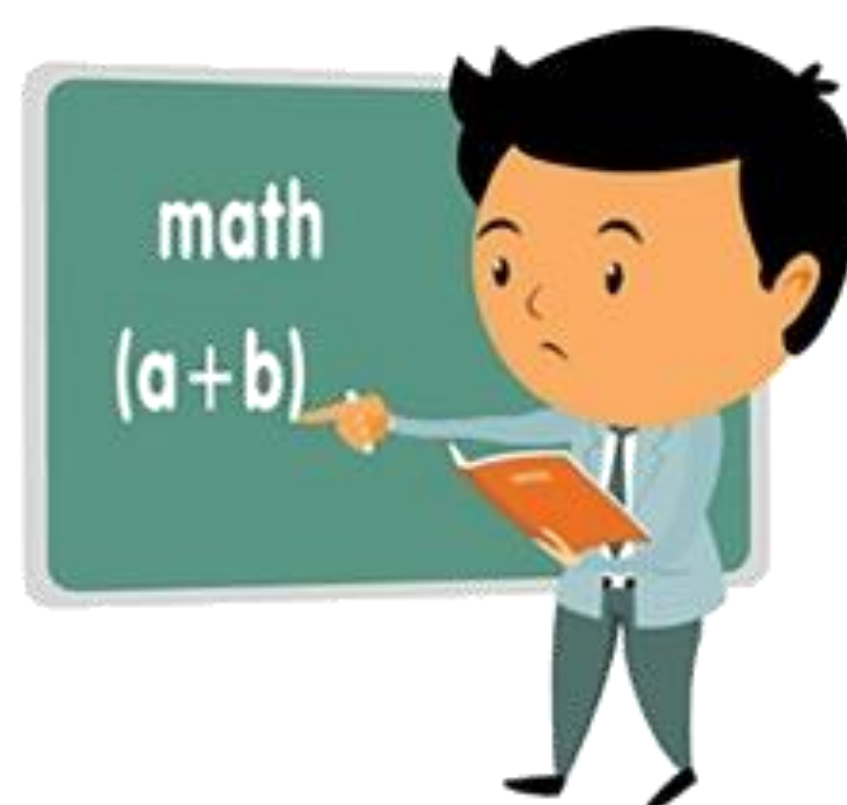

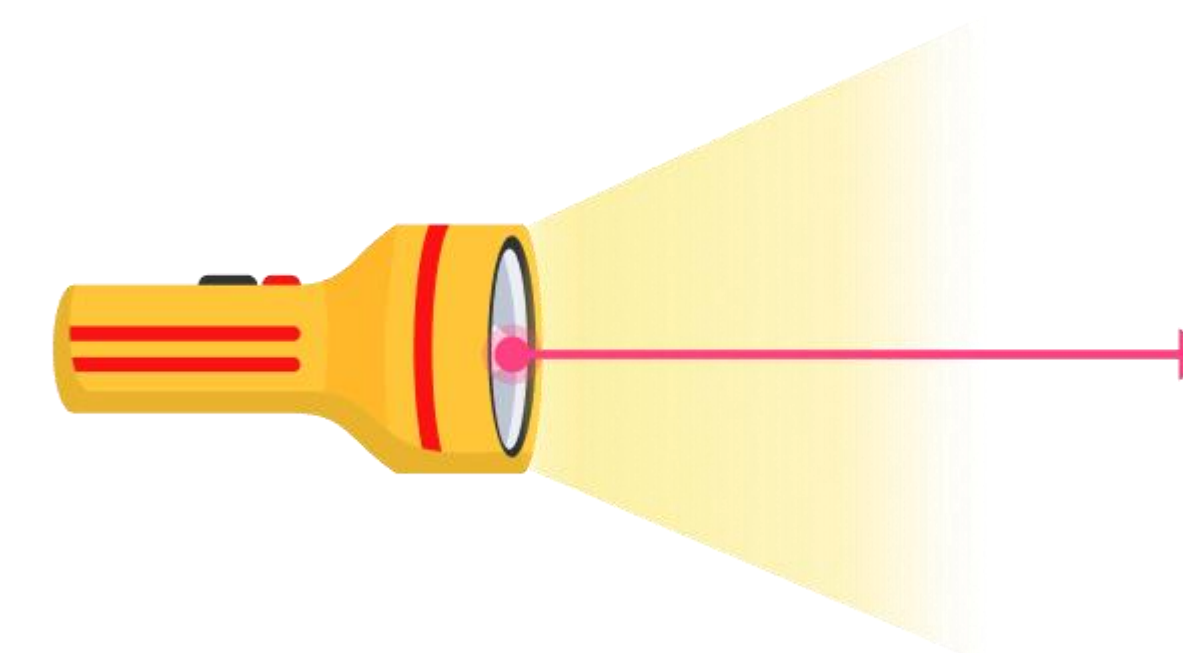

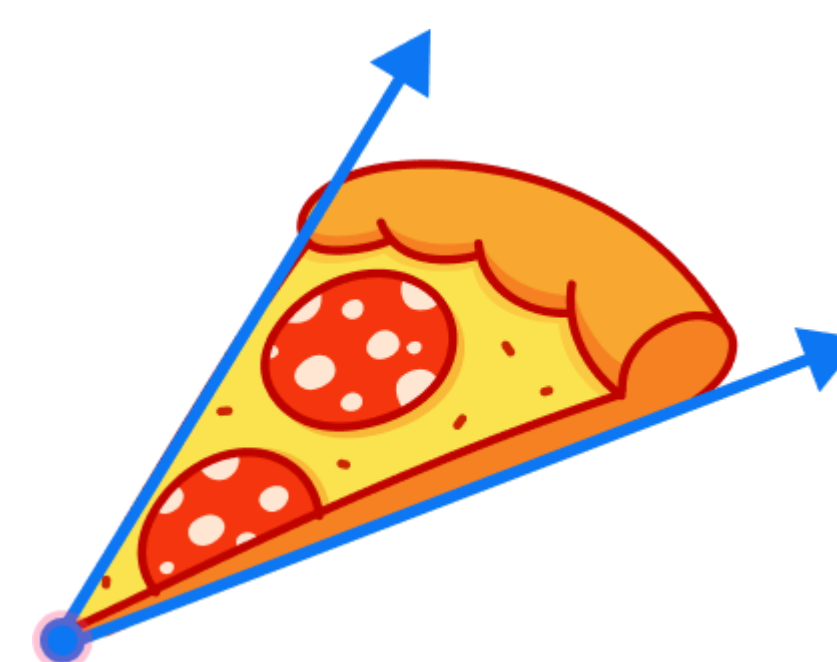

3.

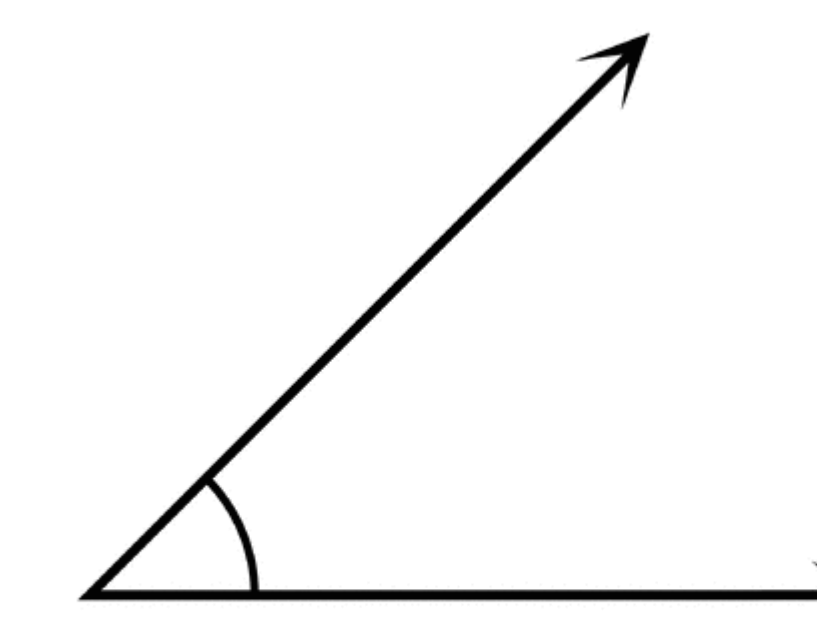

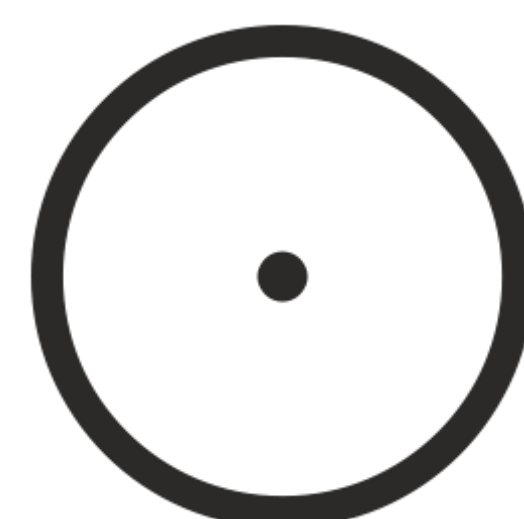

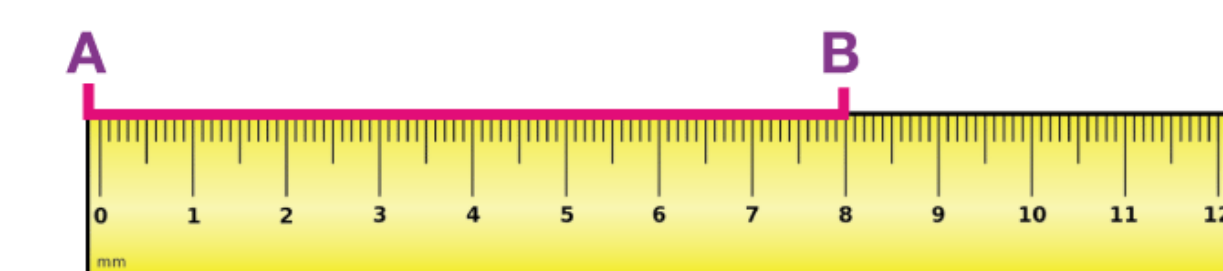

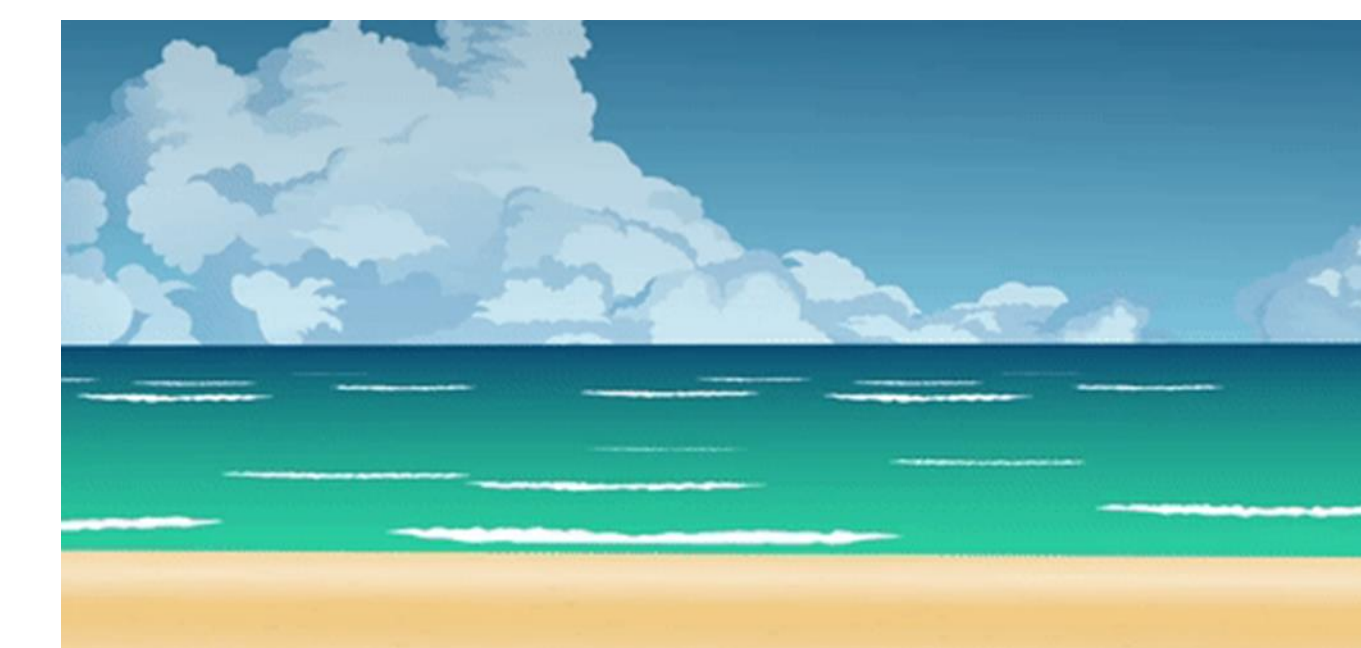

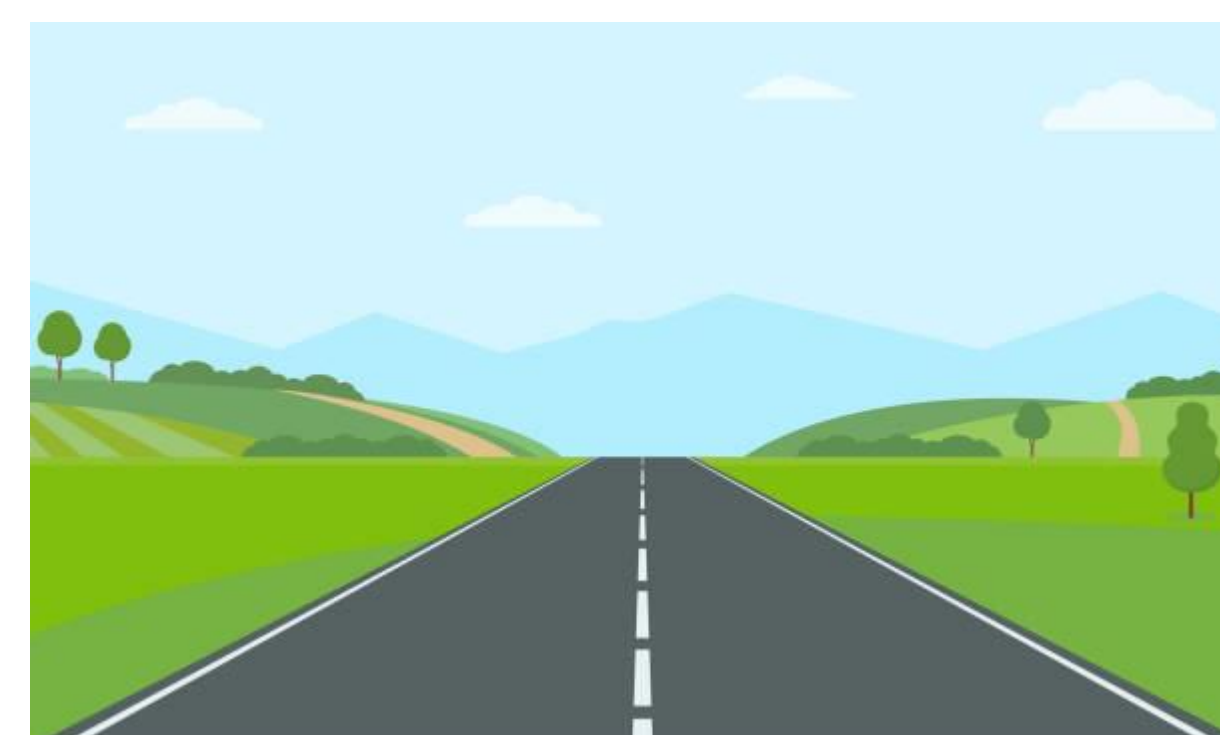

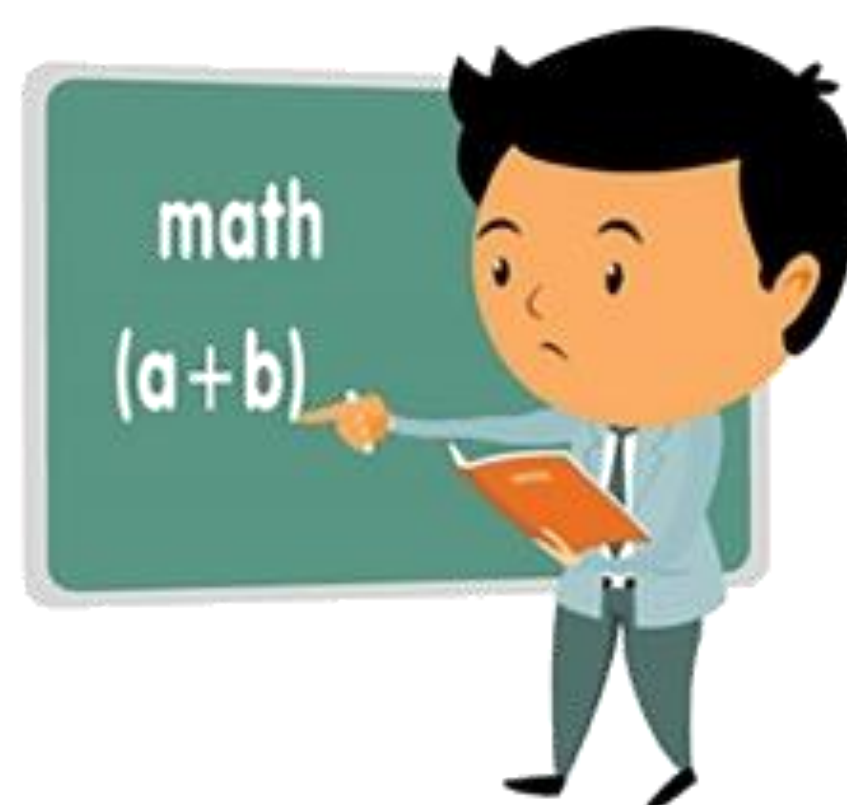

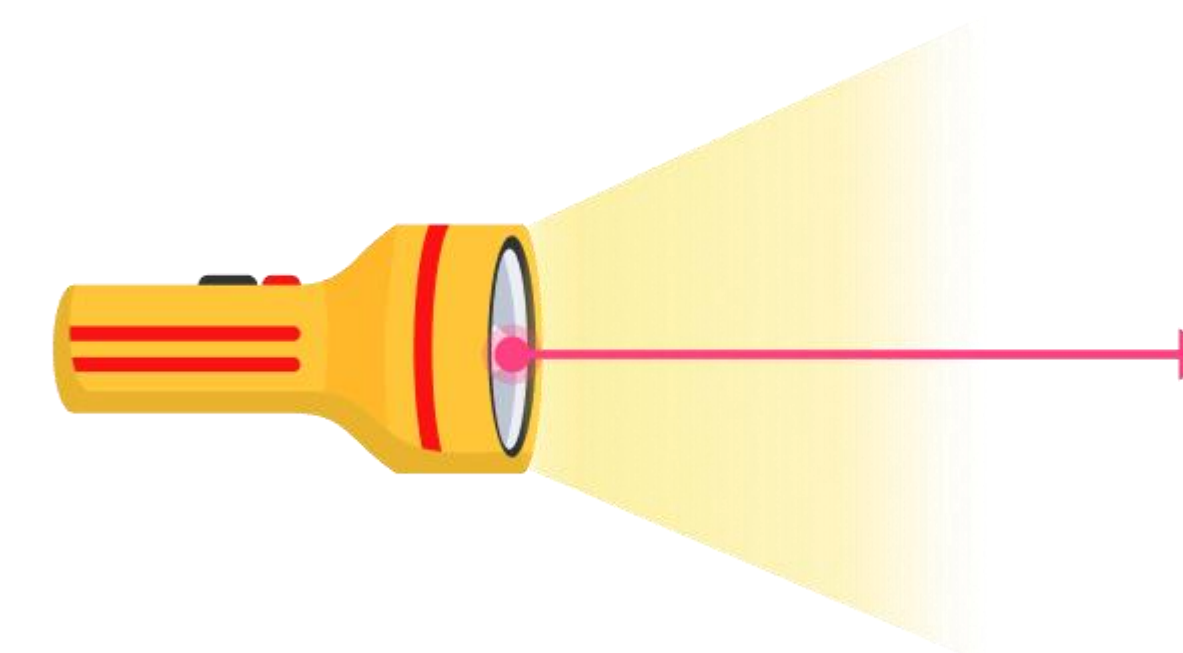

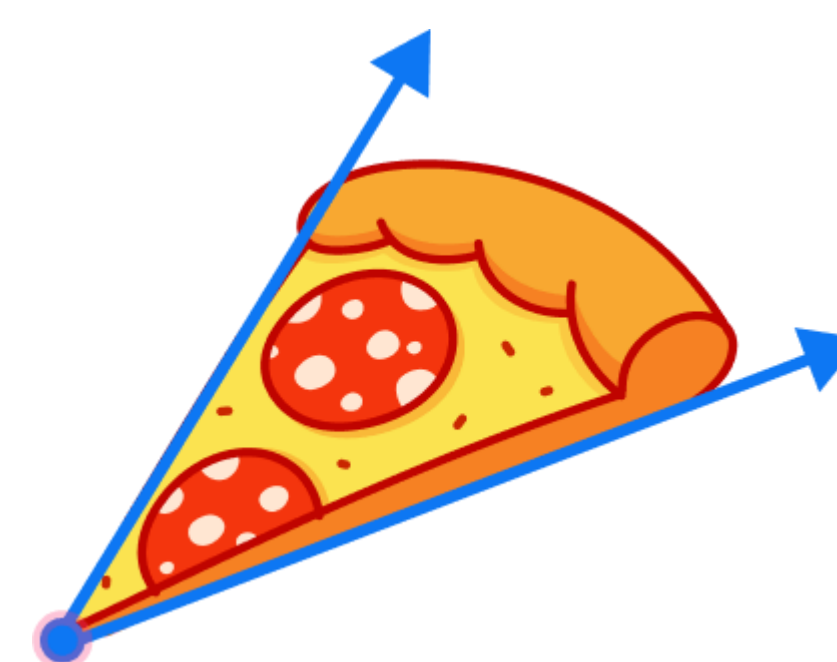

4.

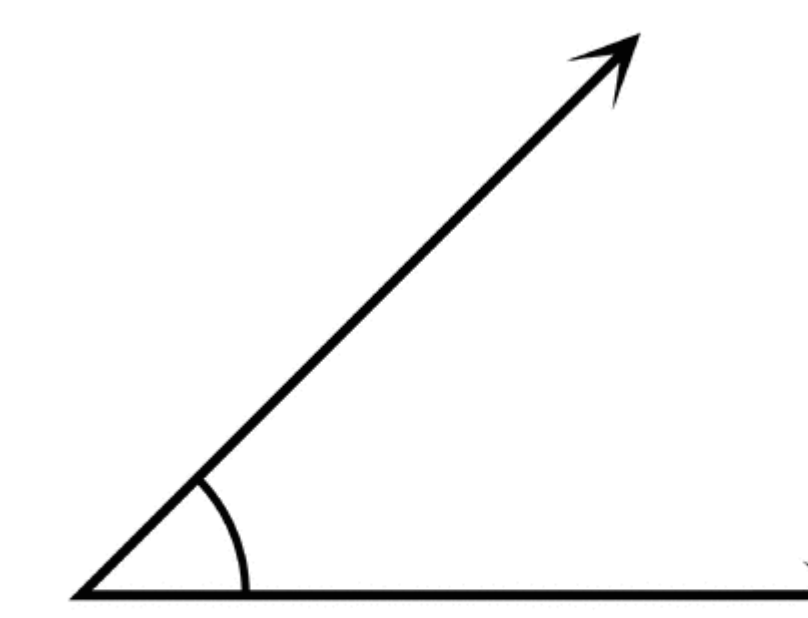

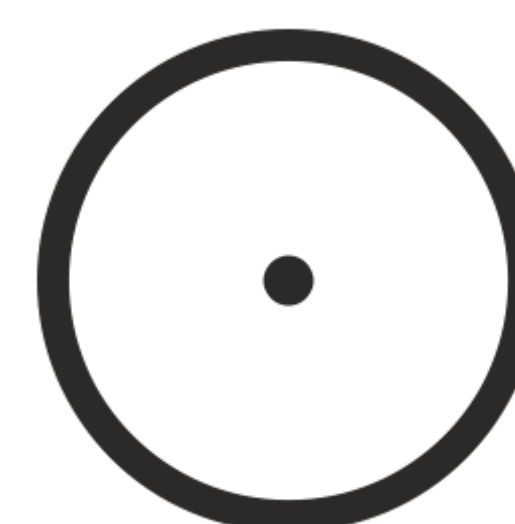

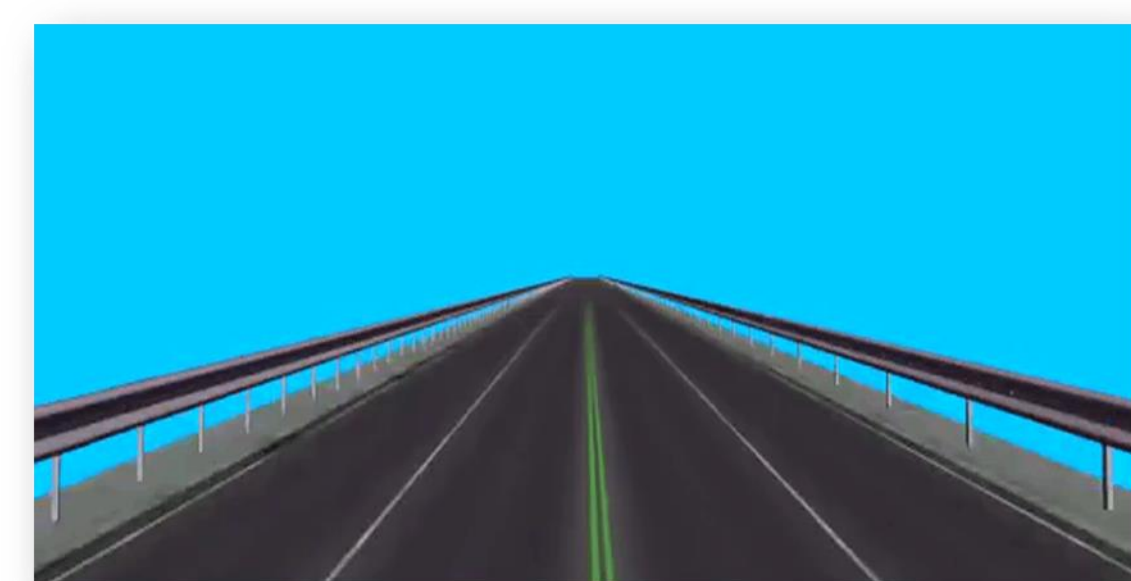

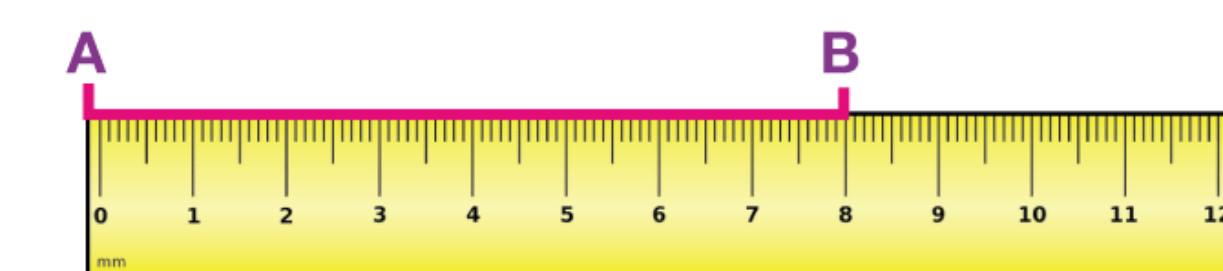

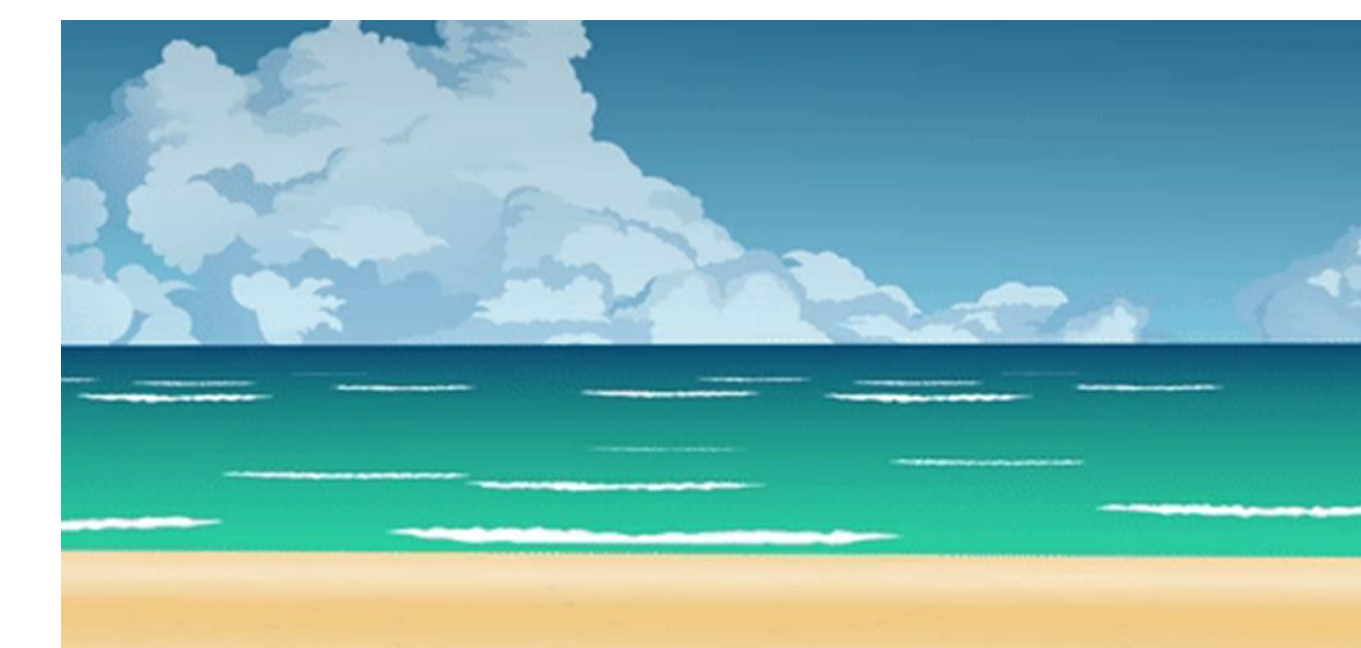

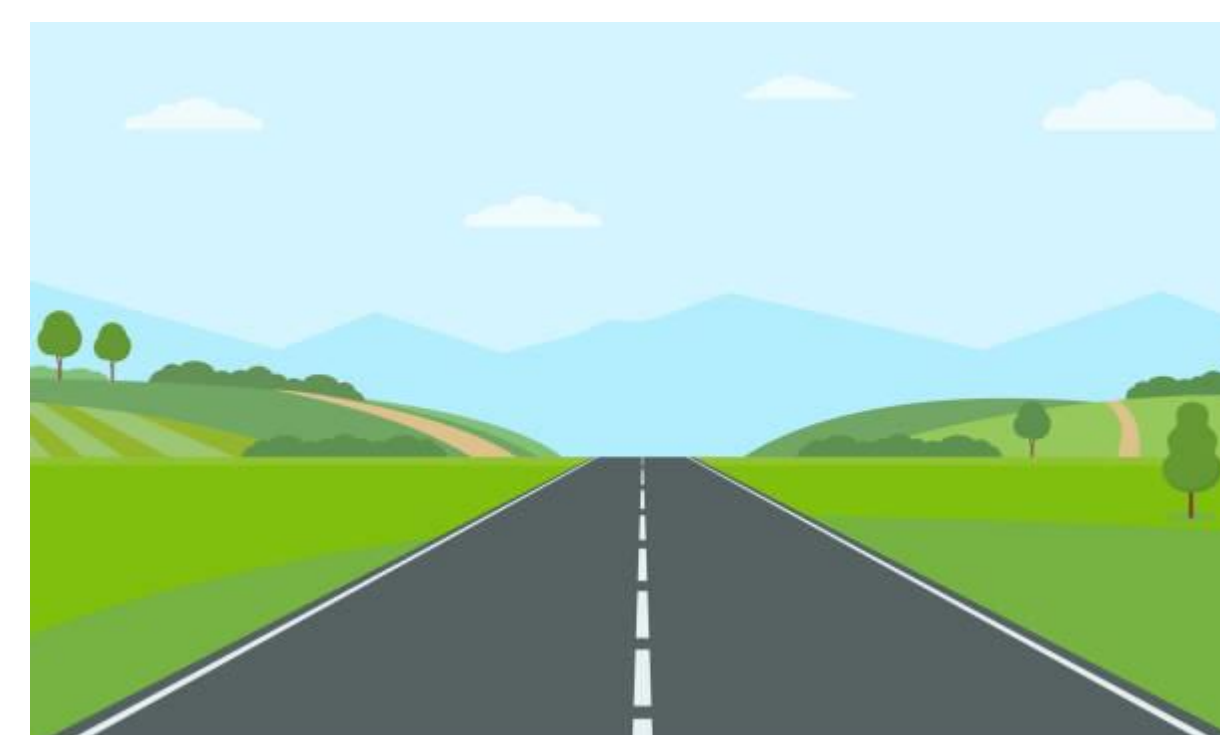

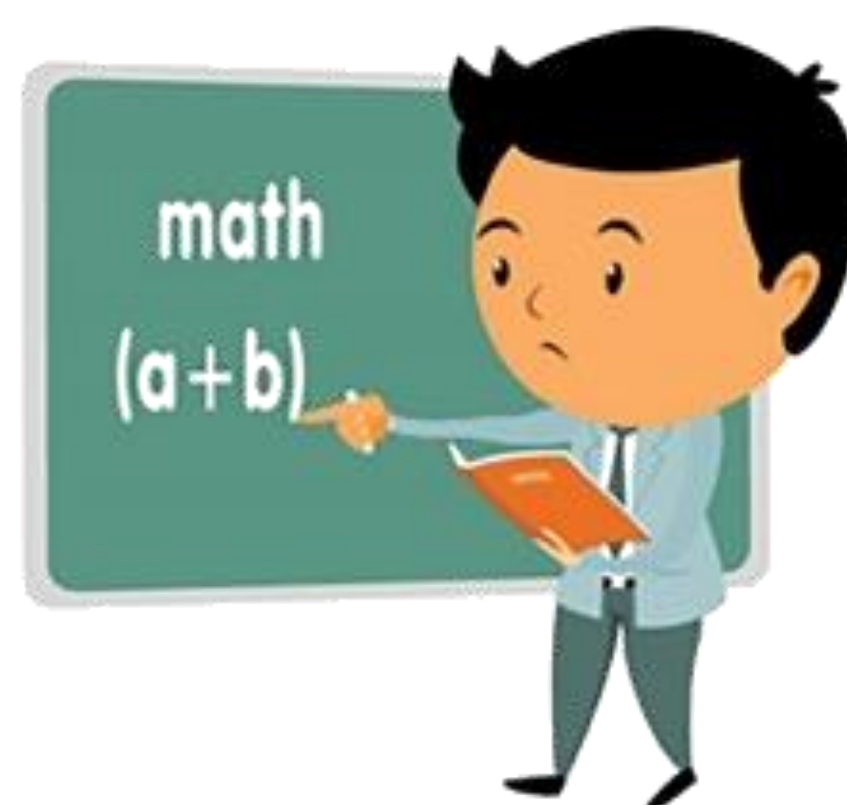

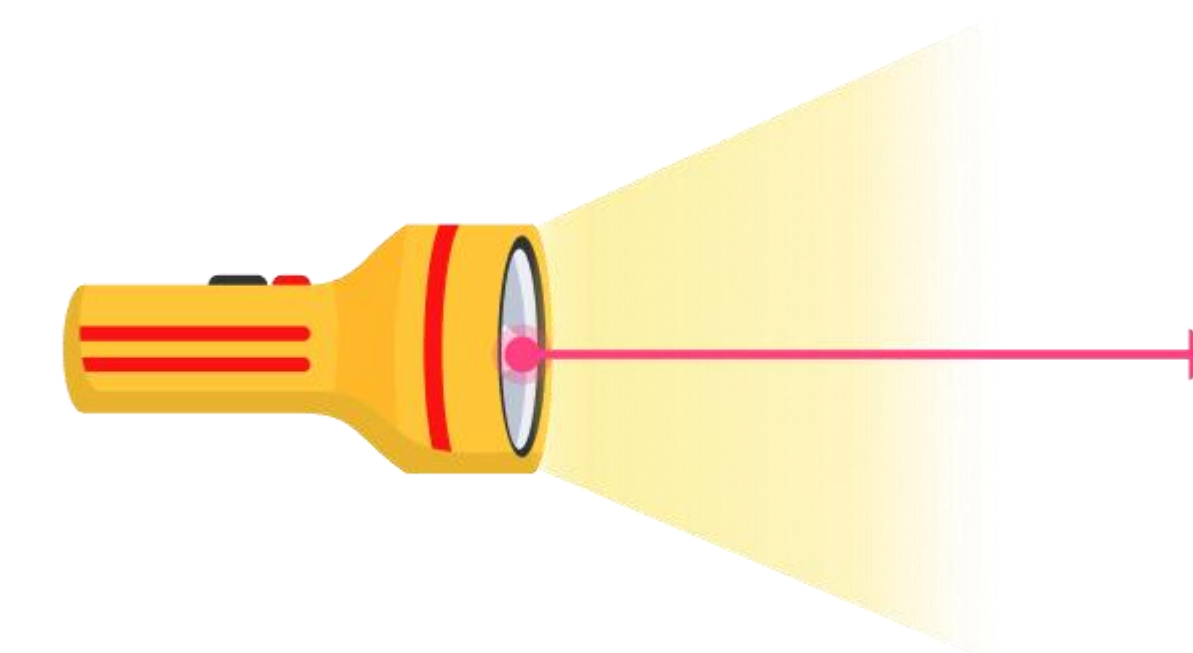

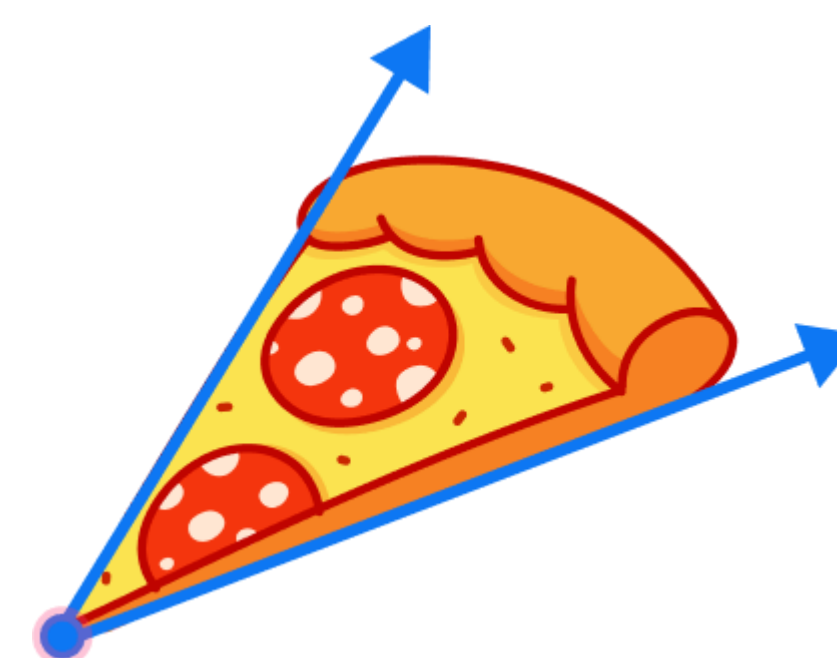

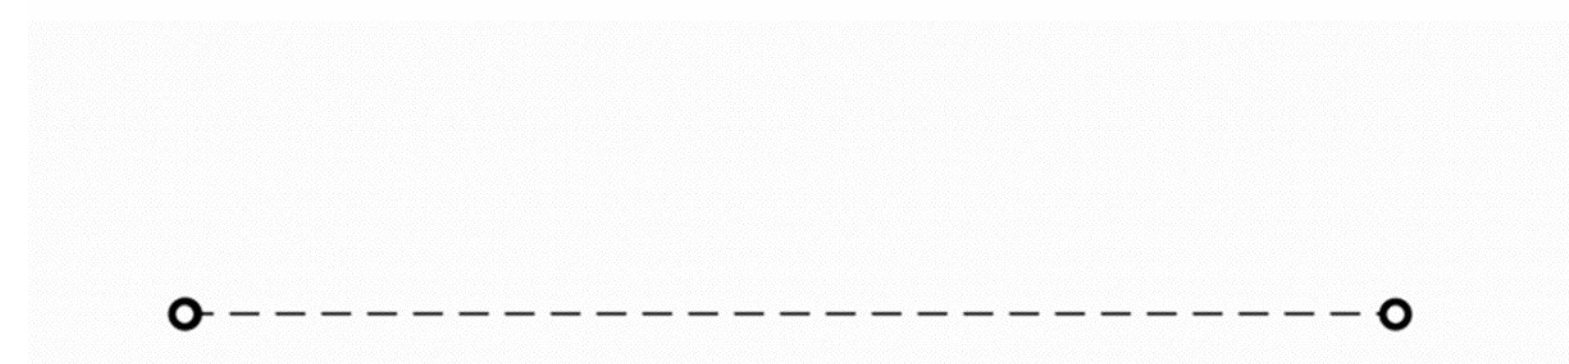

4. Circle the examples of **Line** :

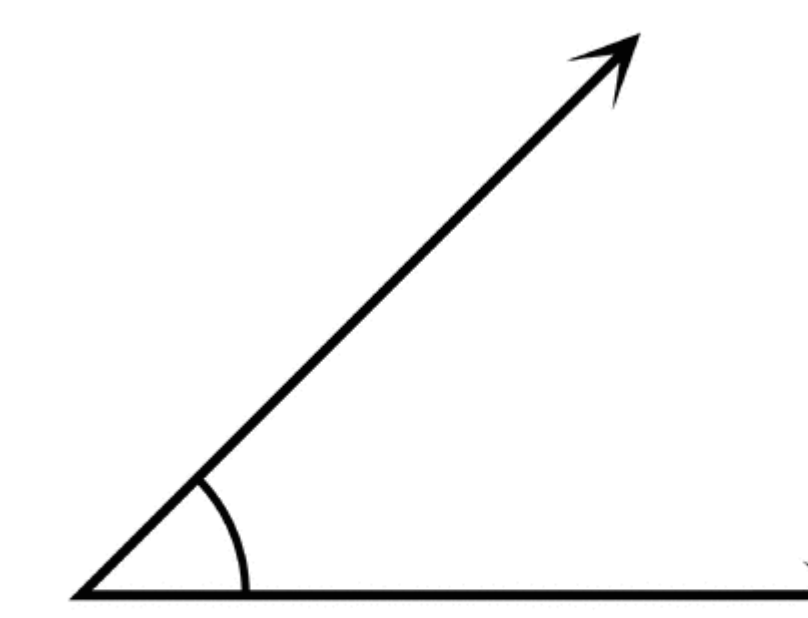

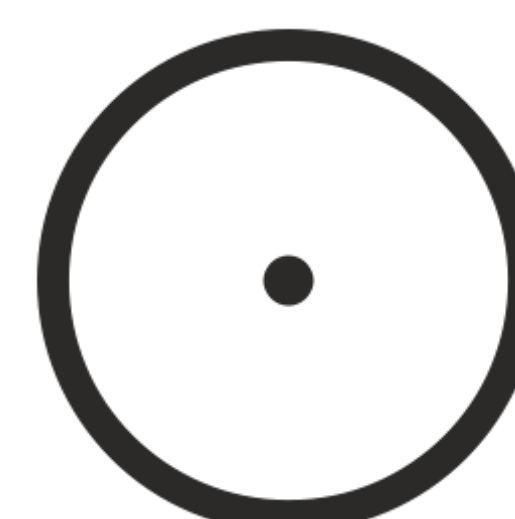

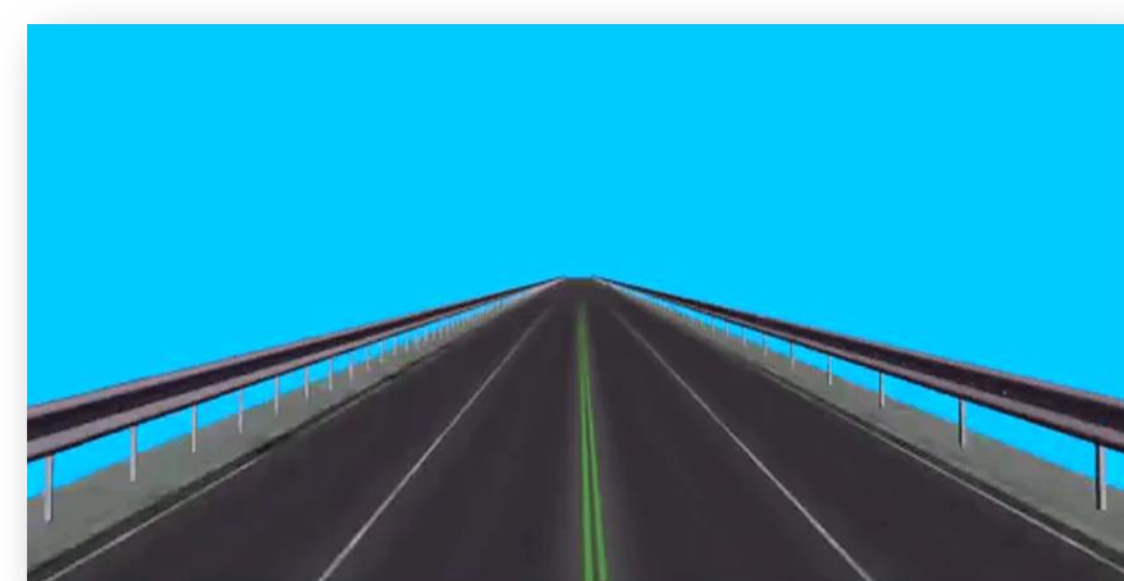

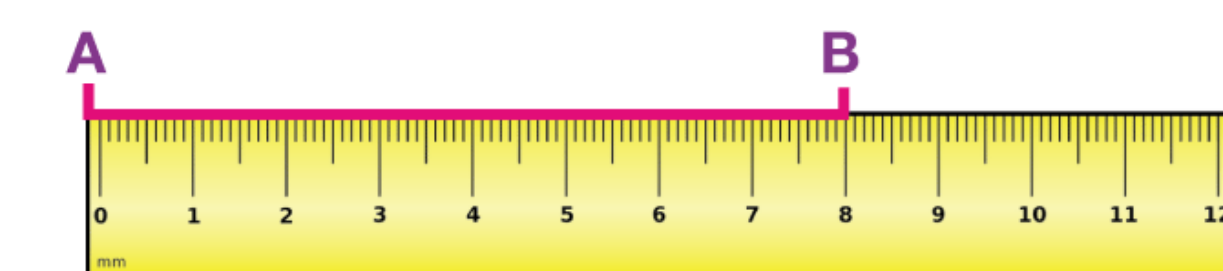

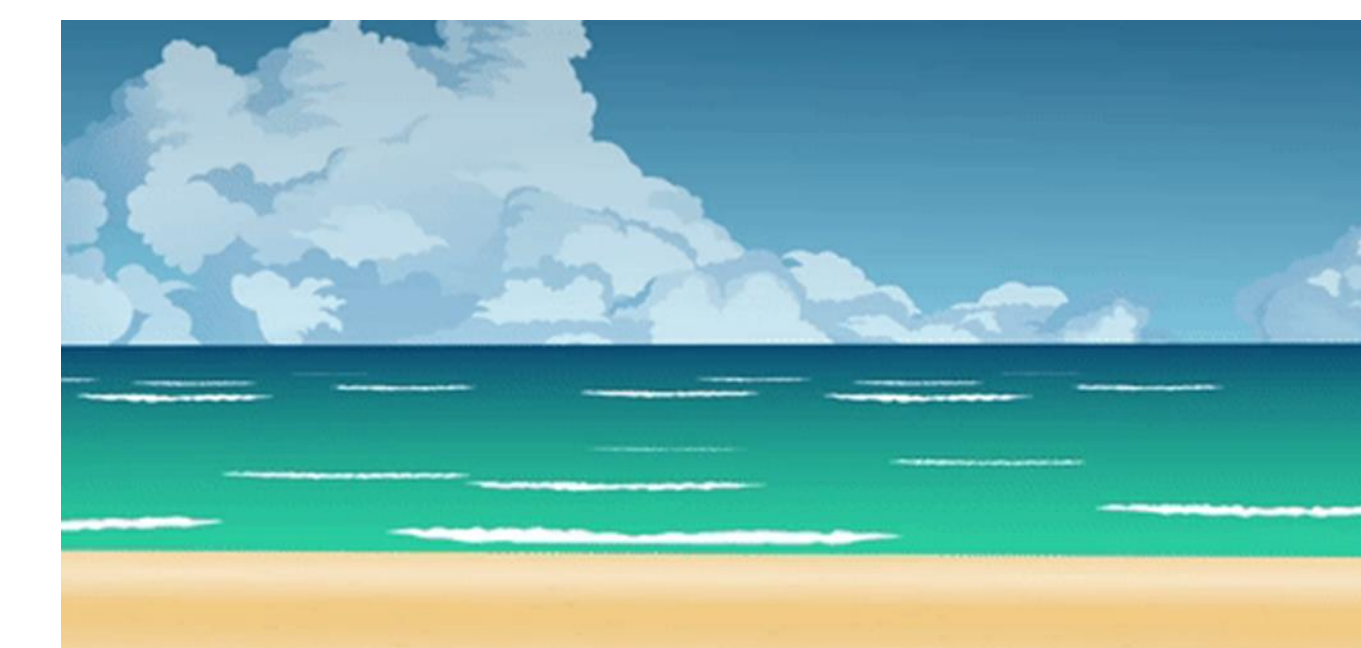

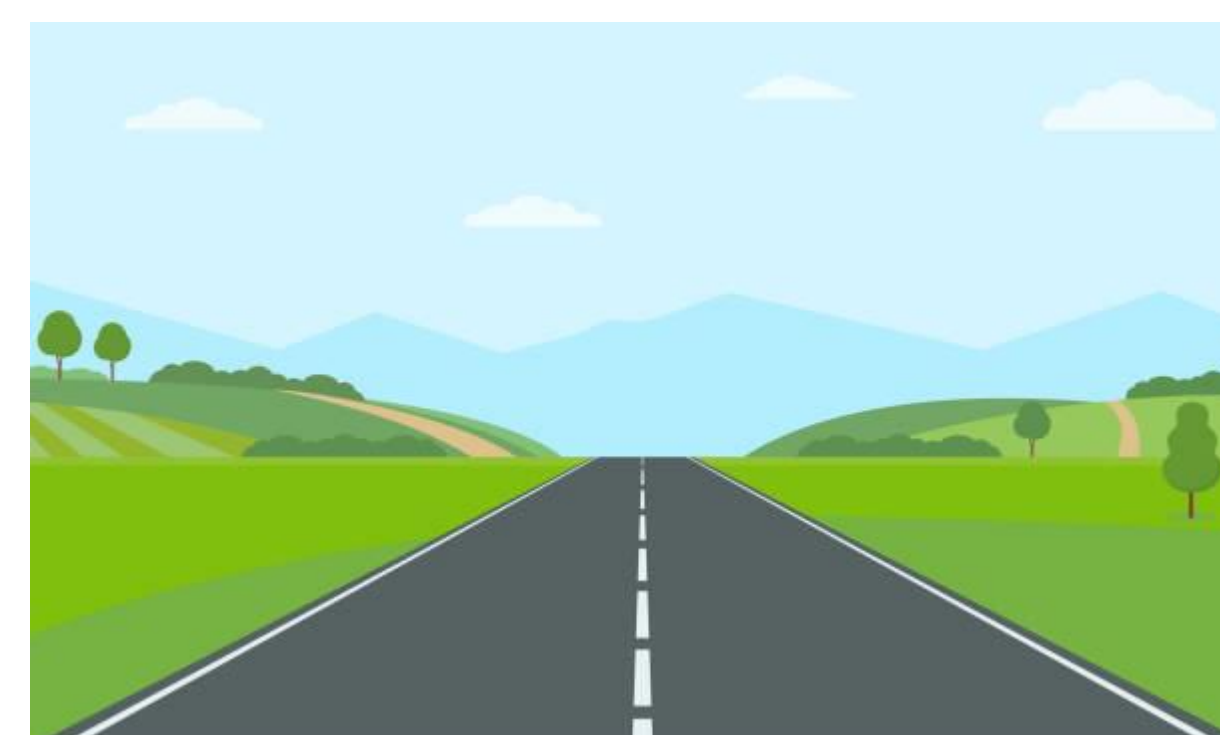

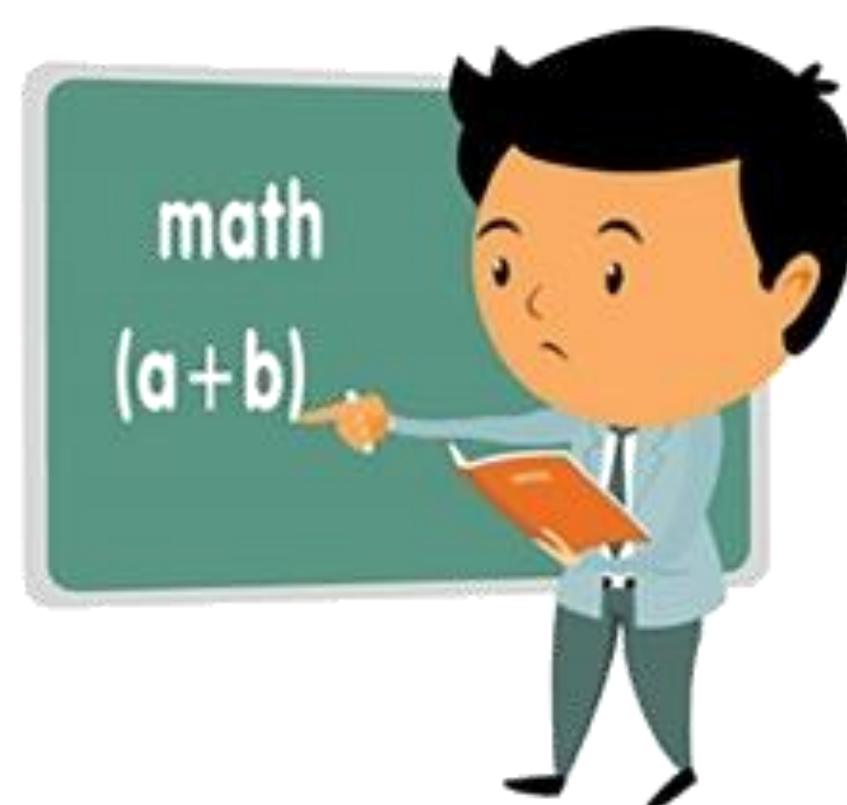

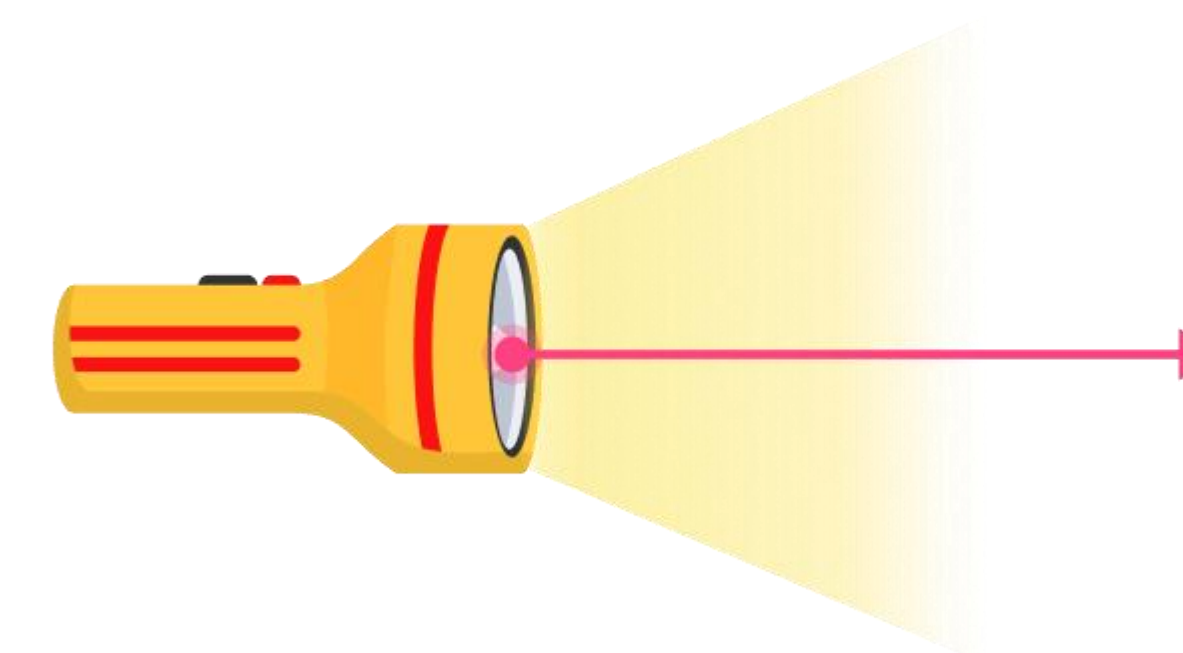

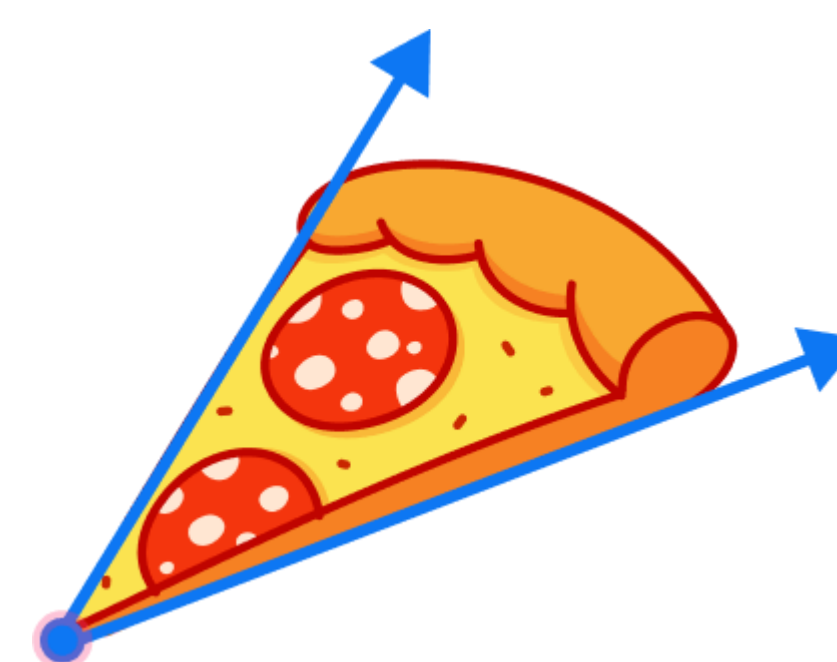

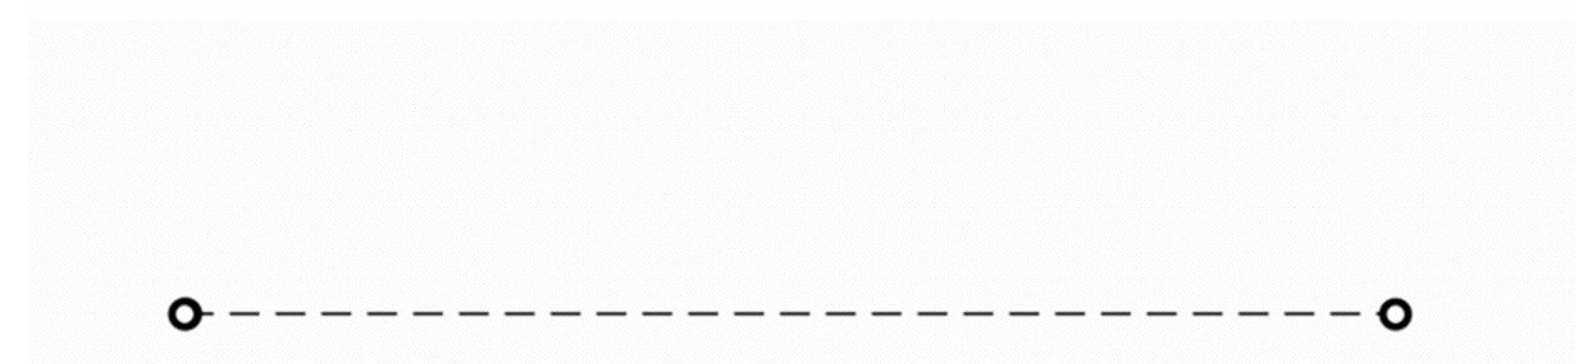

5. Circle the examples of Angle :

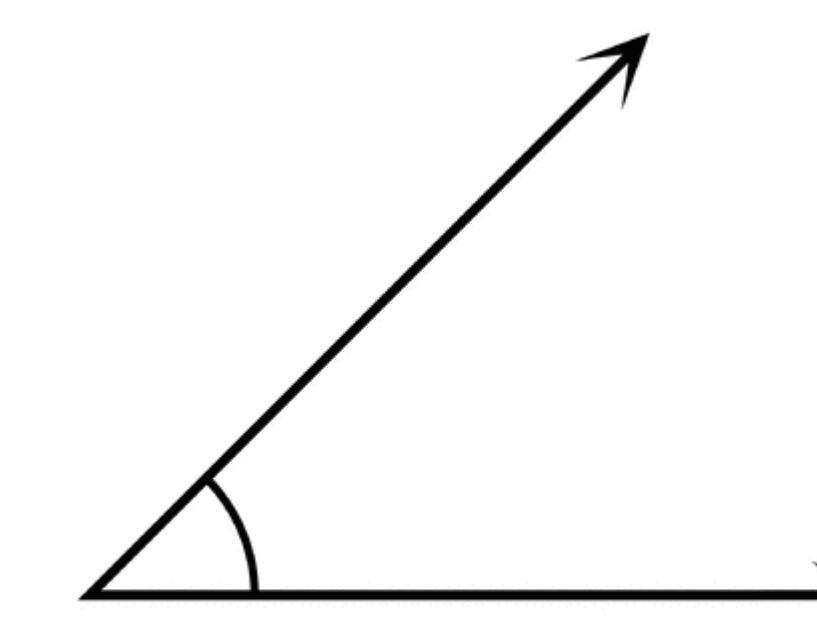

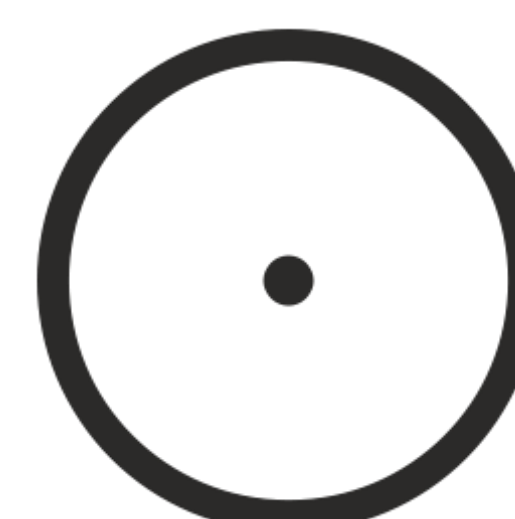

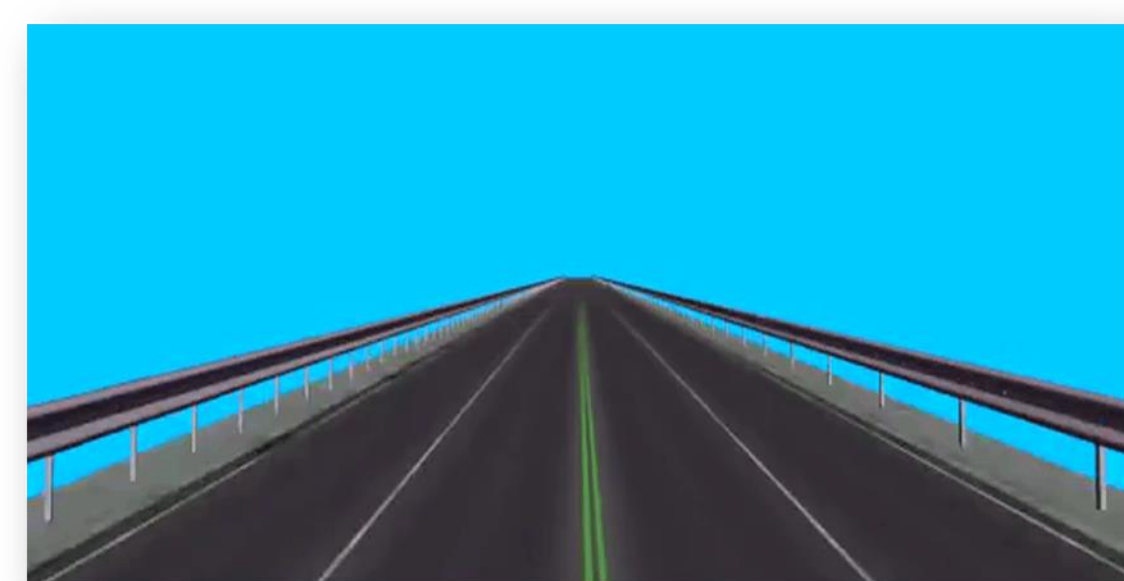

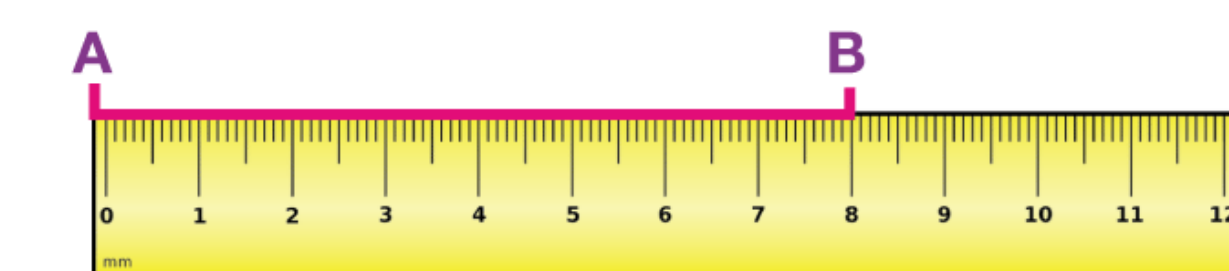

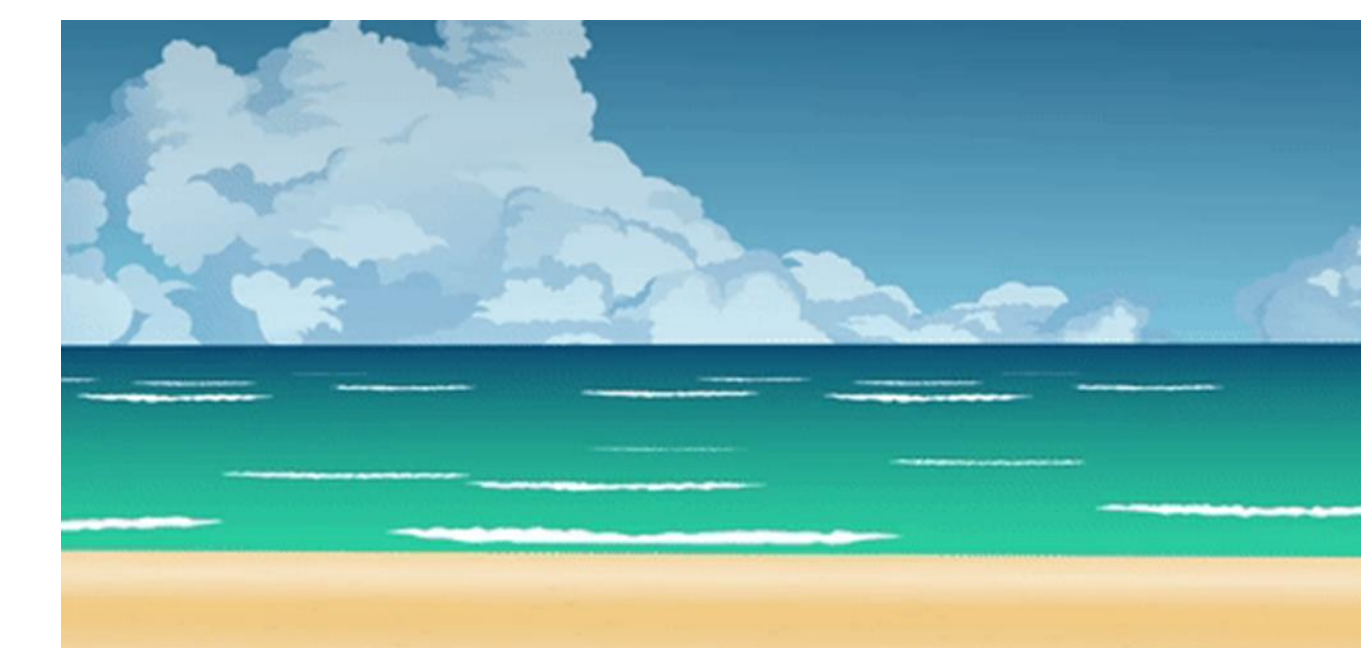

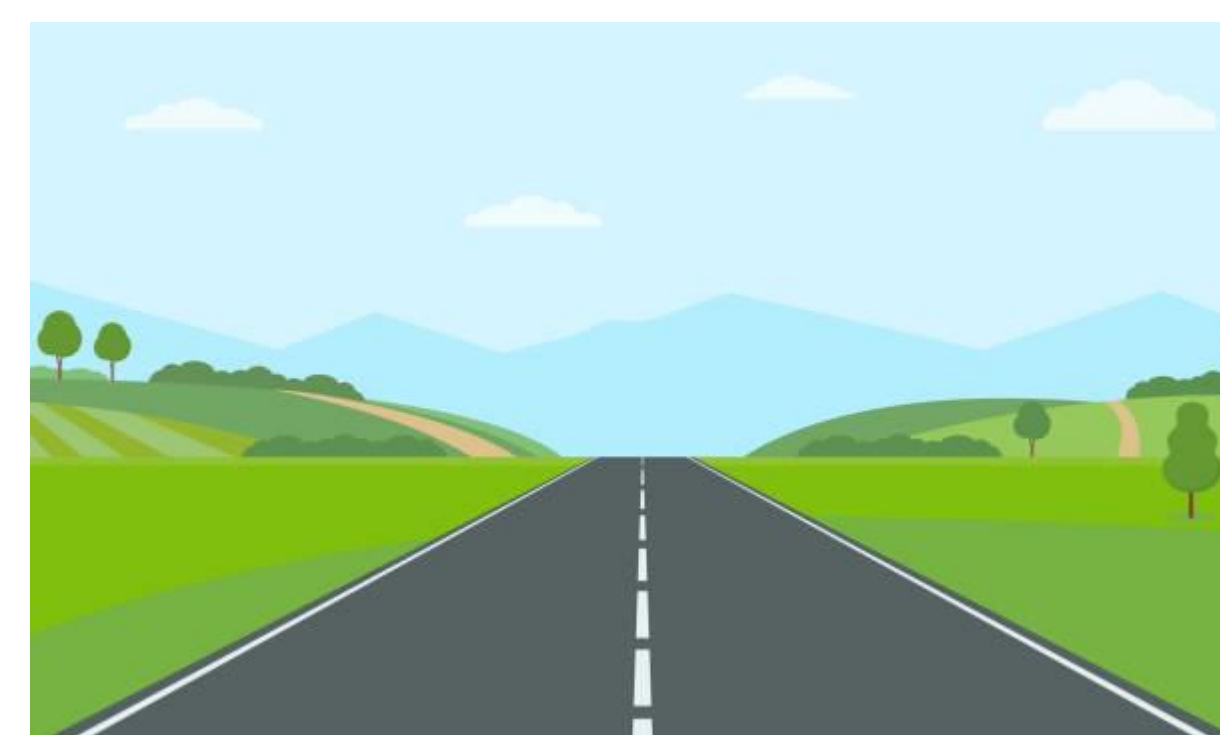

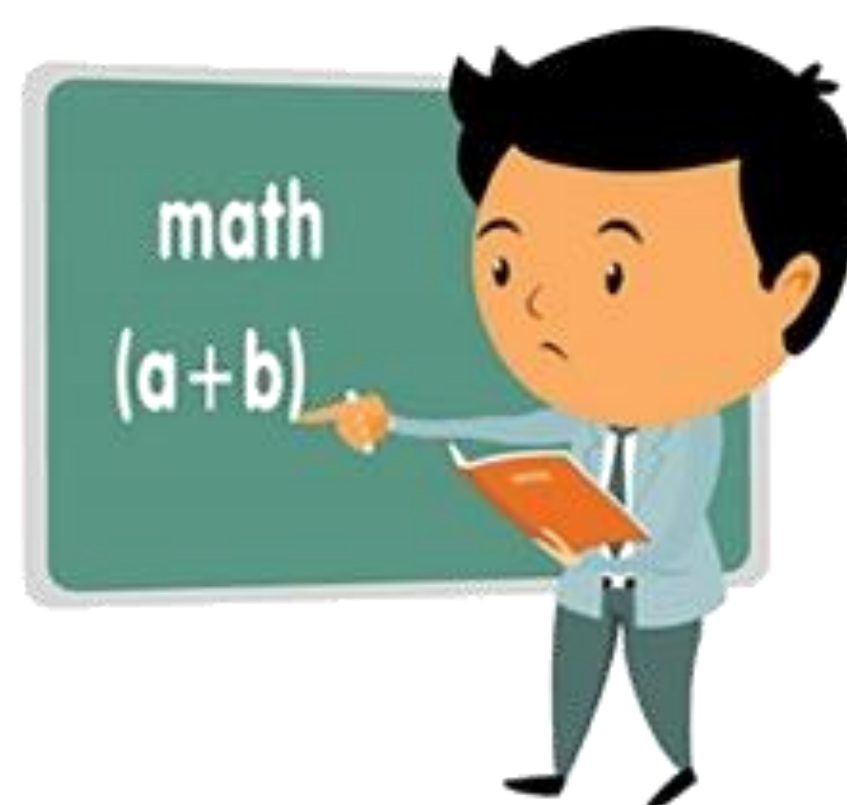

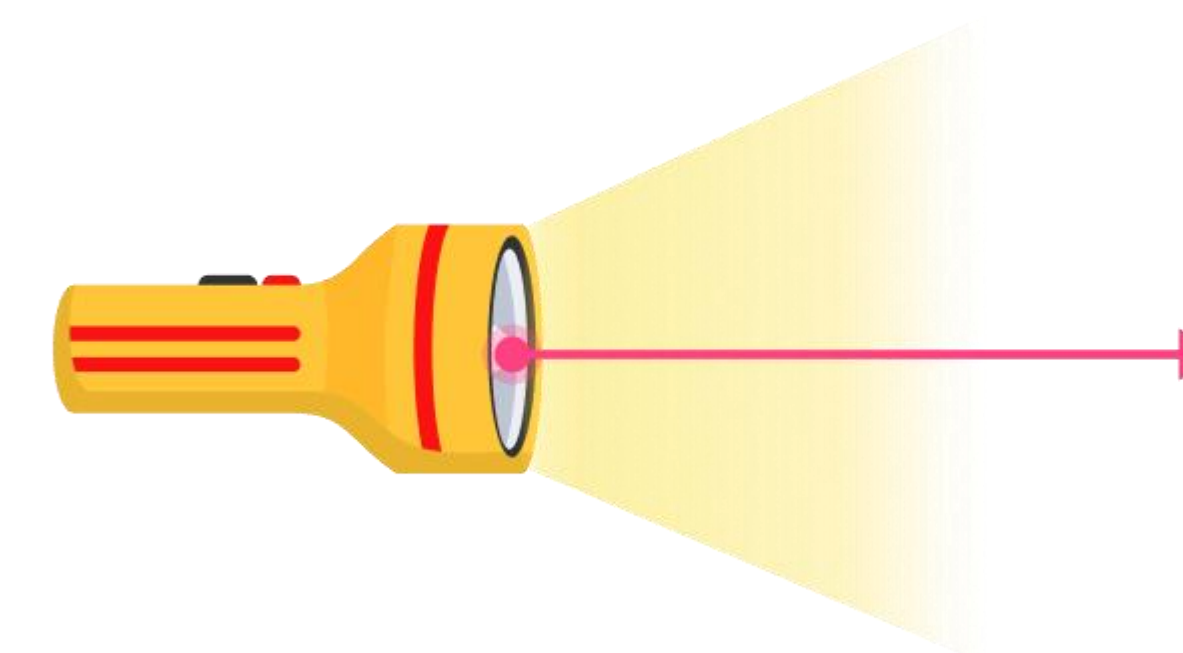

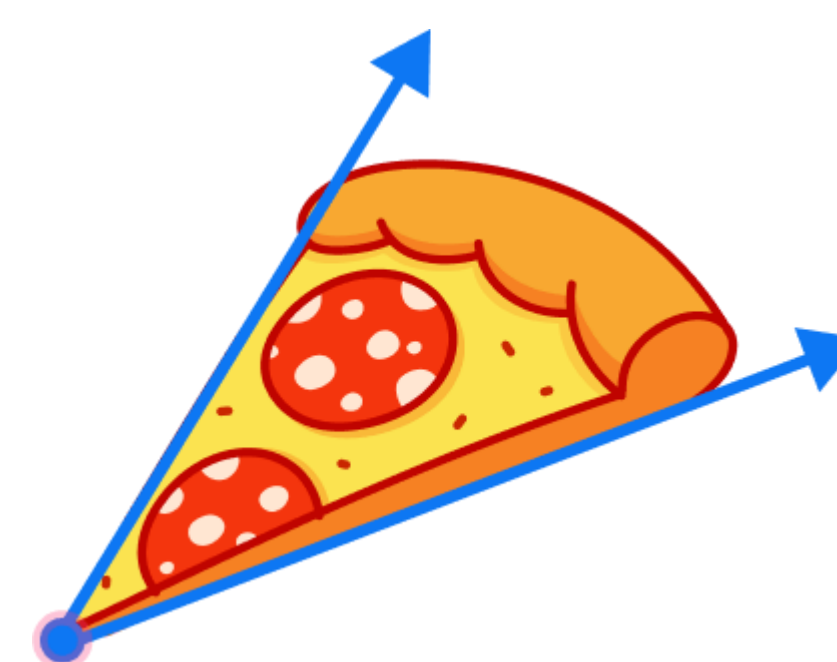

6. Circle the examples of Ray :

7. Circle the examples of **Point** :

8. Circle the examples of **Line Segment** :

9. Write down the **symbols** for a given geometric terms:

- Point

- Line

- Line Segment

- Ray

- Angle
