

Standard units of **measurements** –  
**Metric units of length**

# 1. Define Measurements of length

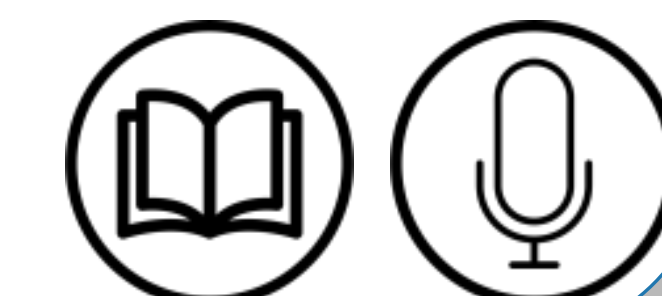

2. Types of units : \_\_\_\_\_

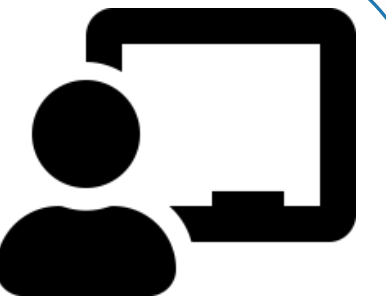

1. \_\_\_\_\_

2. \_\_\_\_\_

3. How many units are there in a Metric units of measuring length

\_\_\_\_\_ .

4. Choose the symbol of '**Kilometer**'

cm  mm  km  m

5. Choose the symbol of '**Centimeter**'

cm  mm  km  m

6. Choose the symbol of '**Millimeter**'

cm  mm  km  m

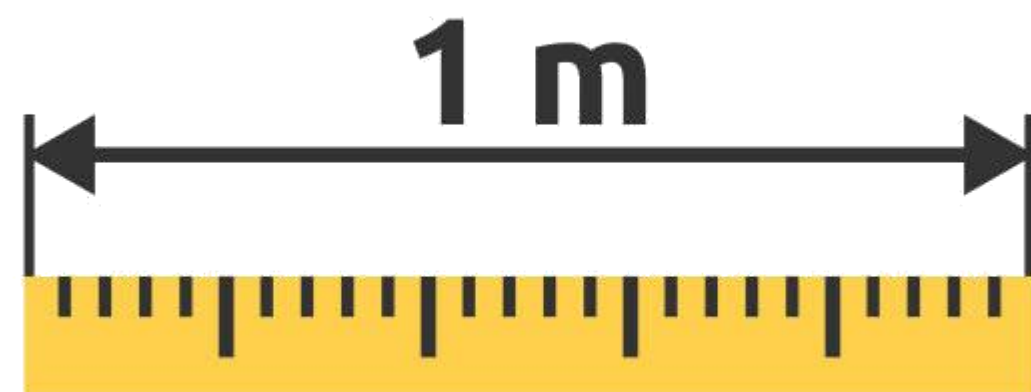

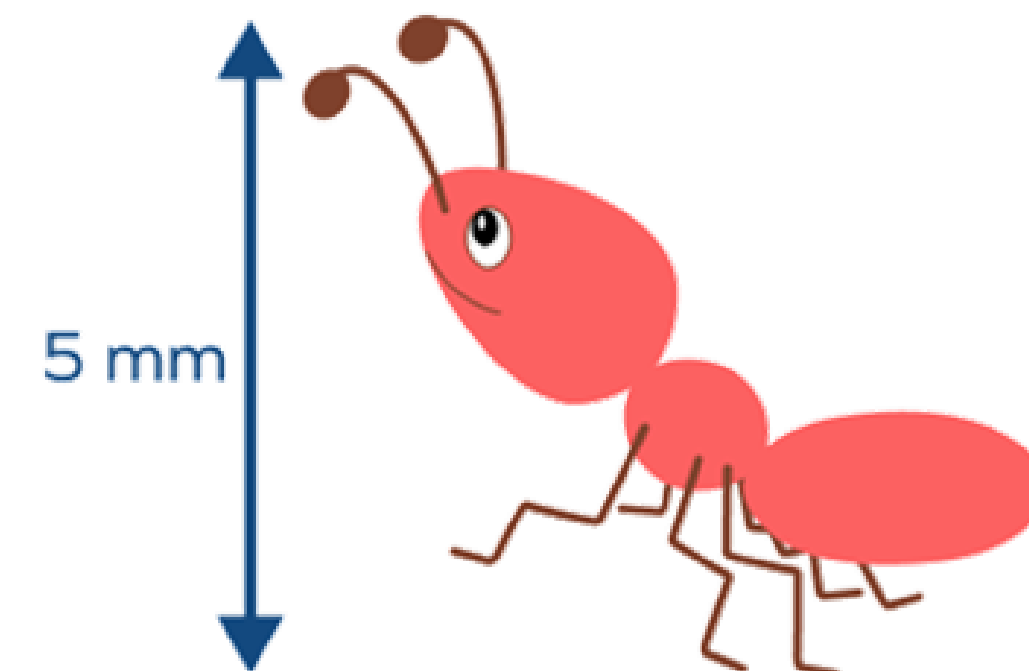

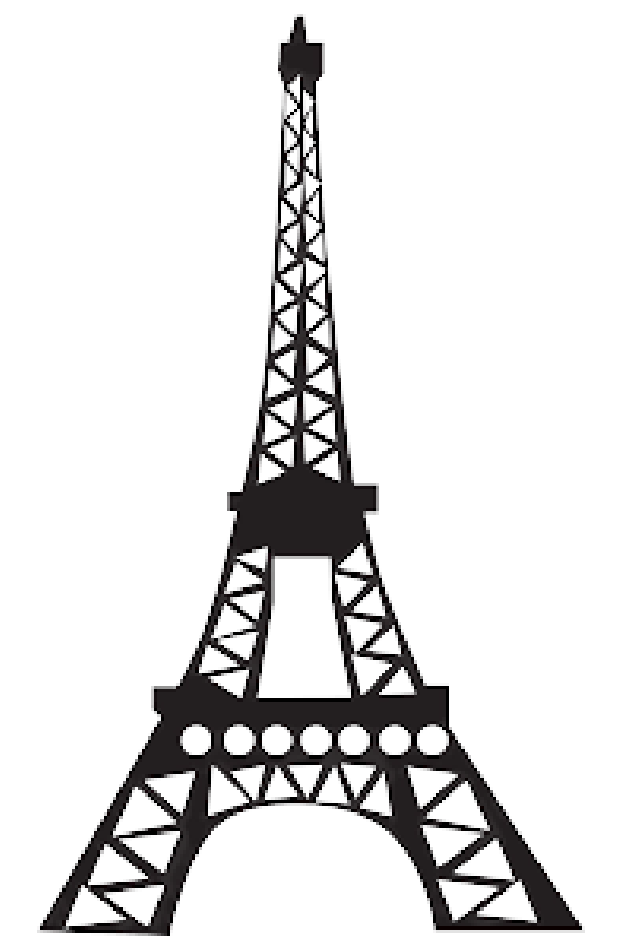

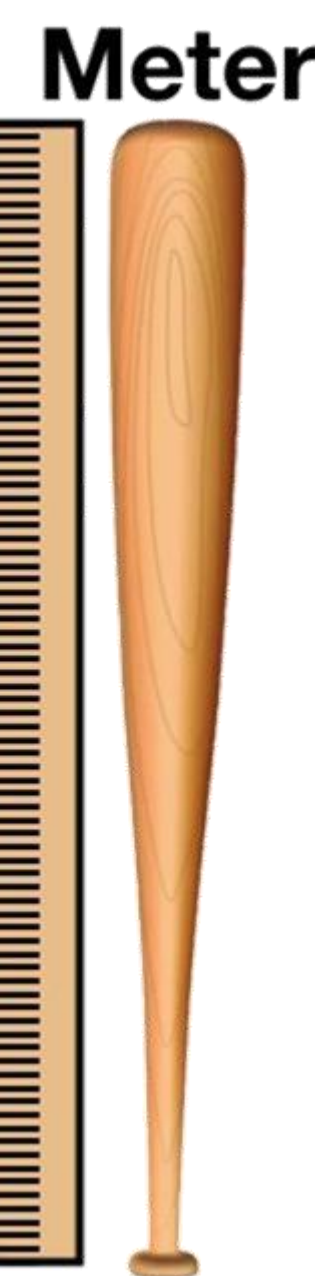

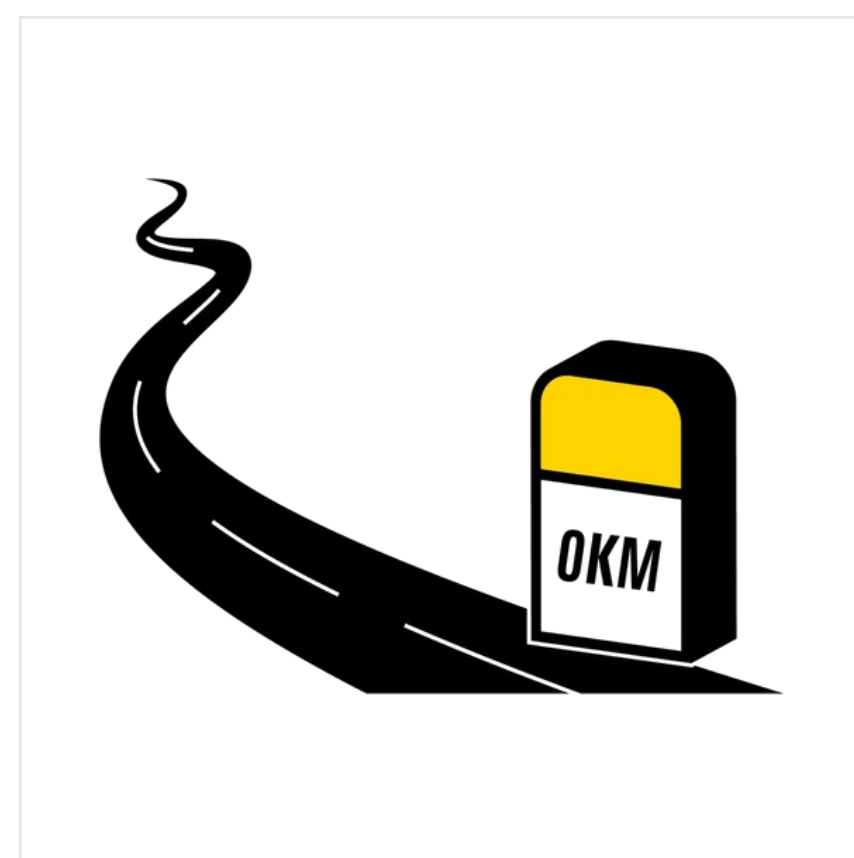

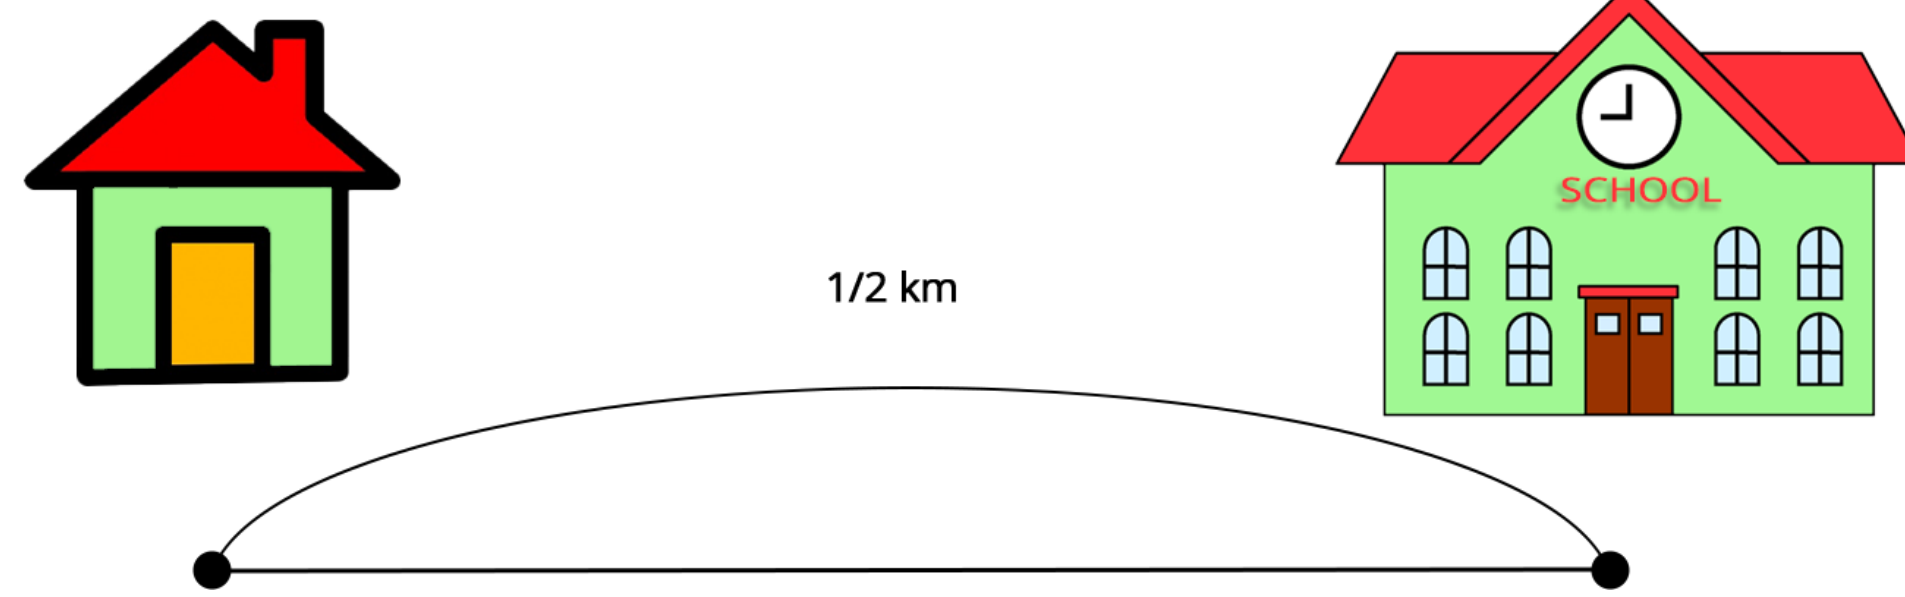

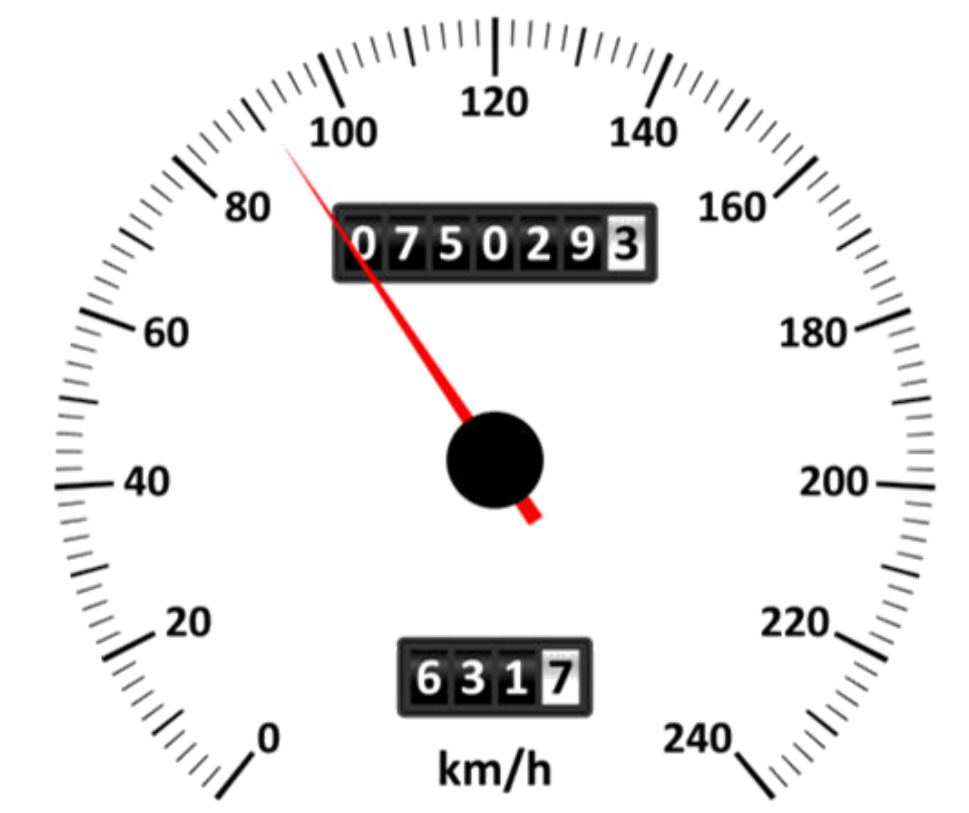

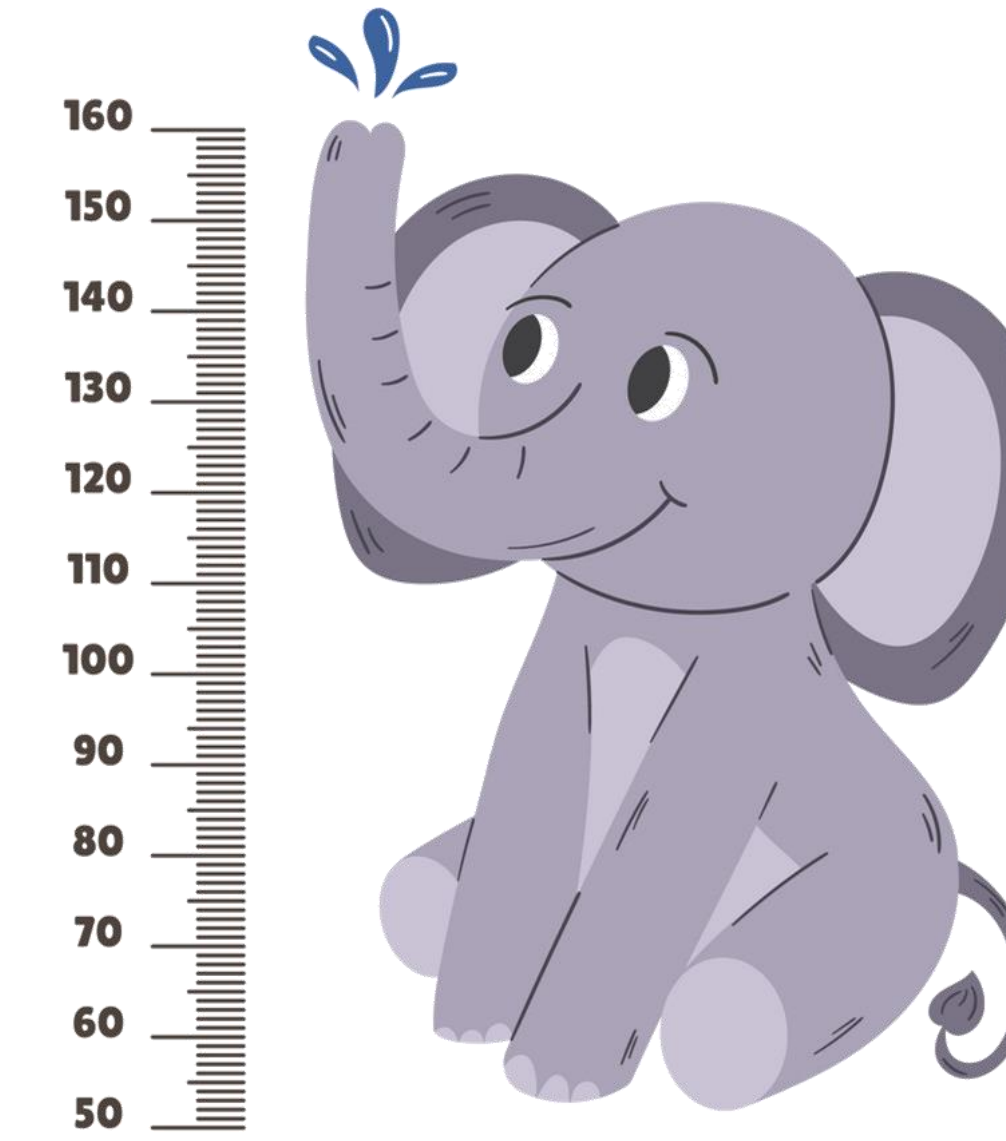

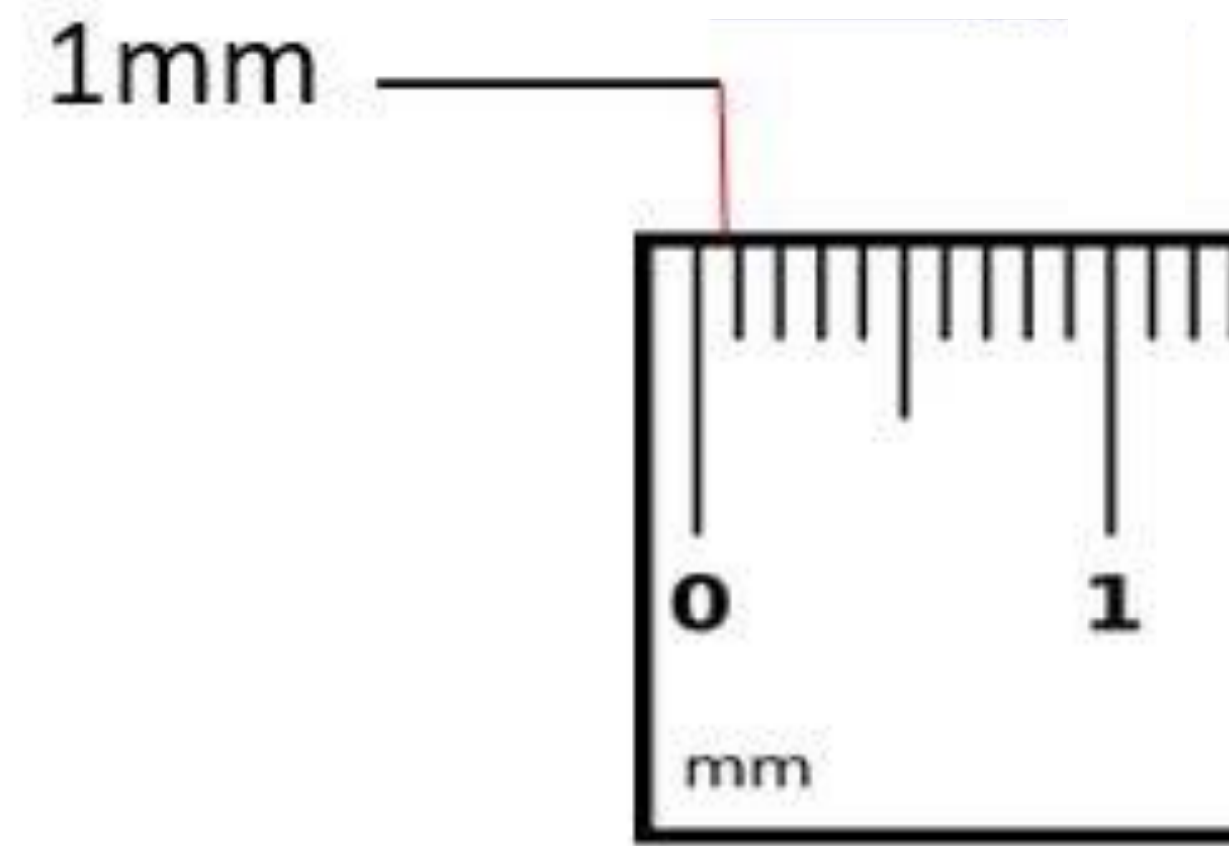

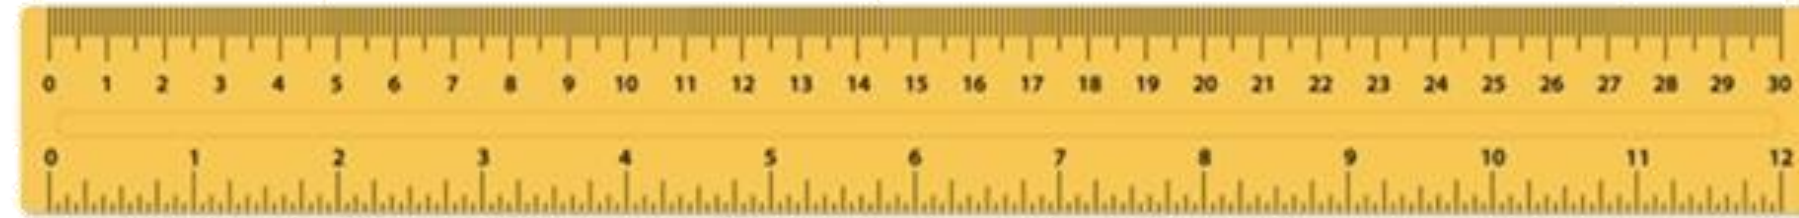

7. Choose the symbol of '**Meter**'

cm  mm  km  m

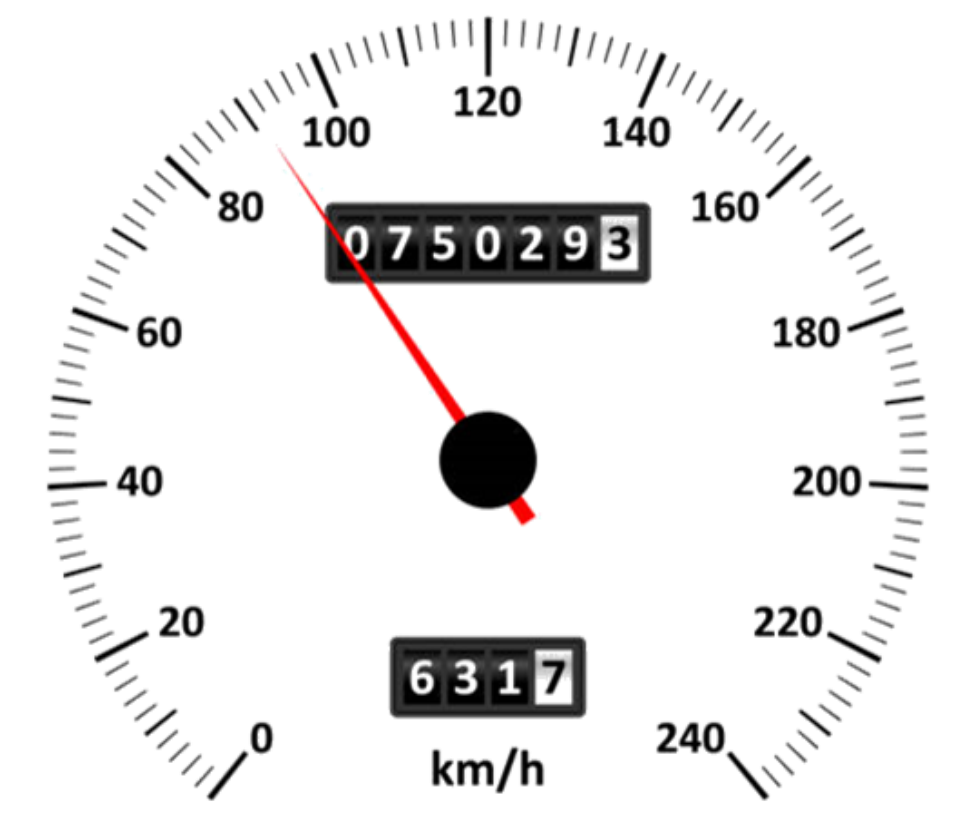

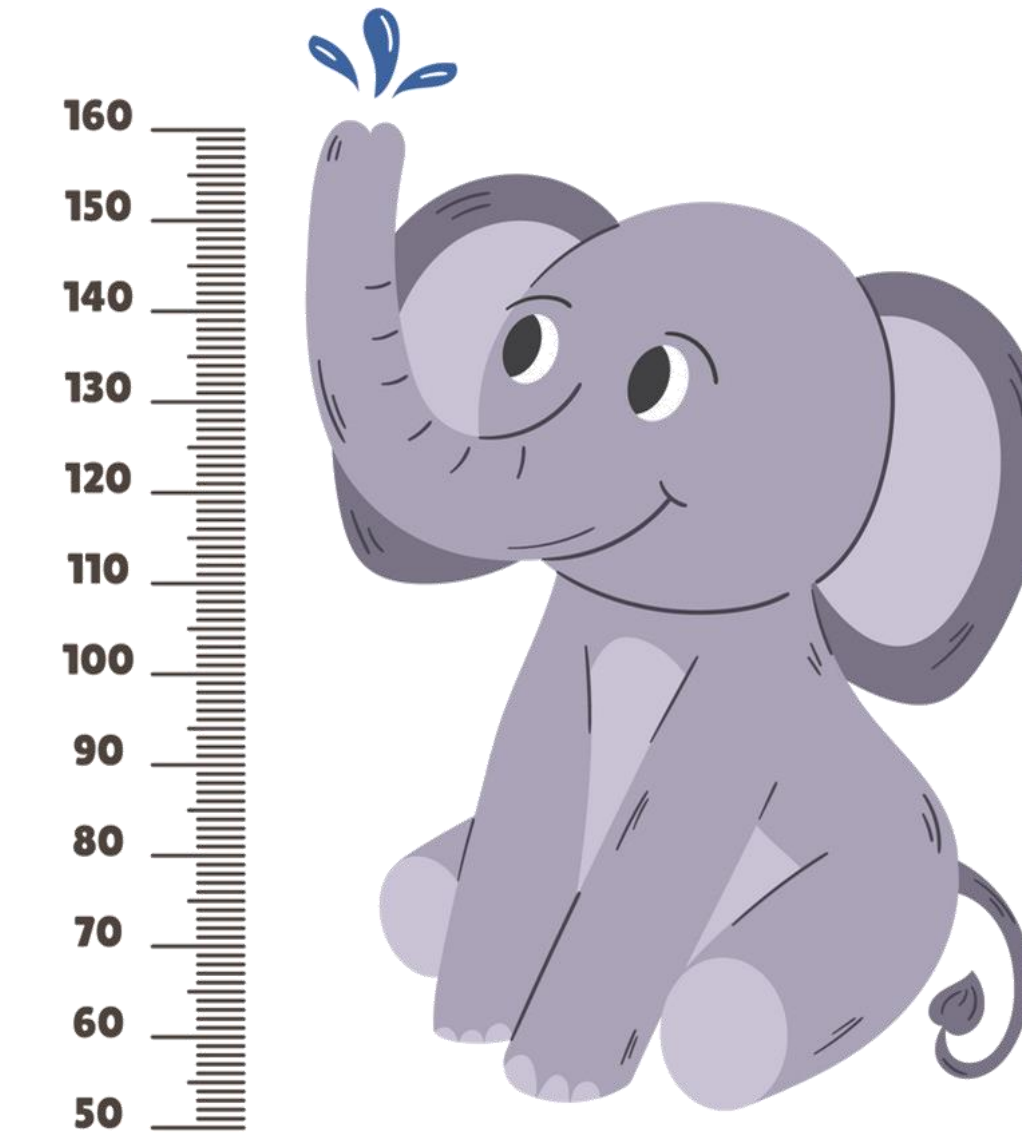

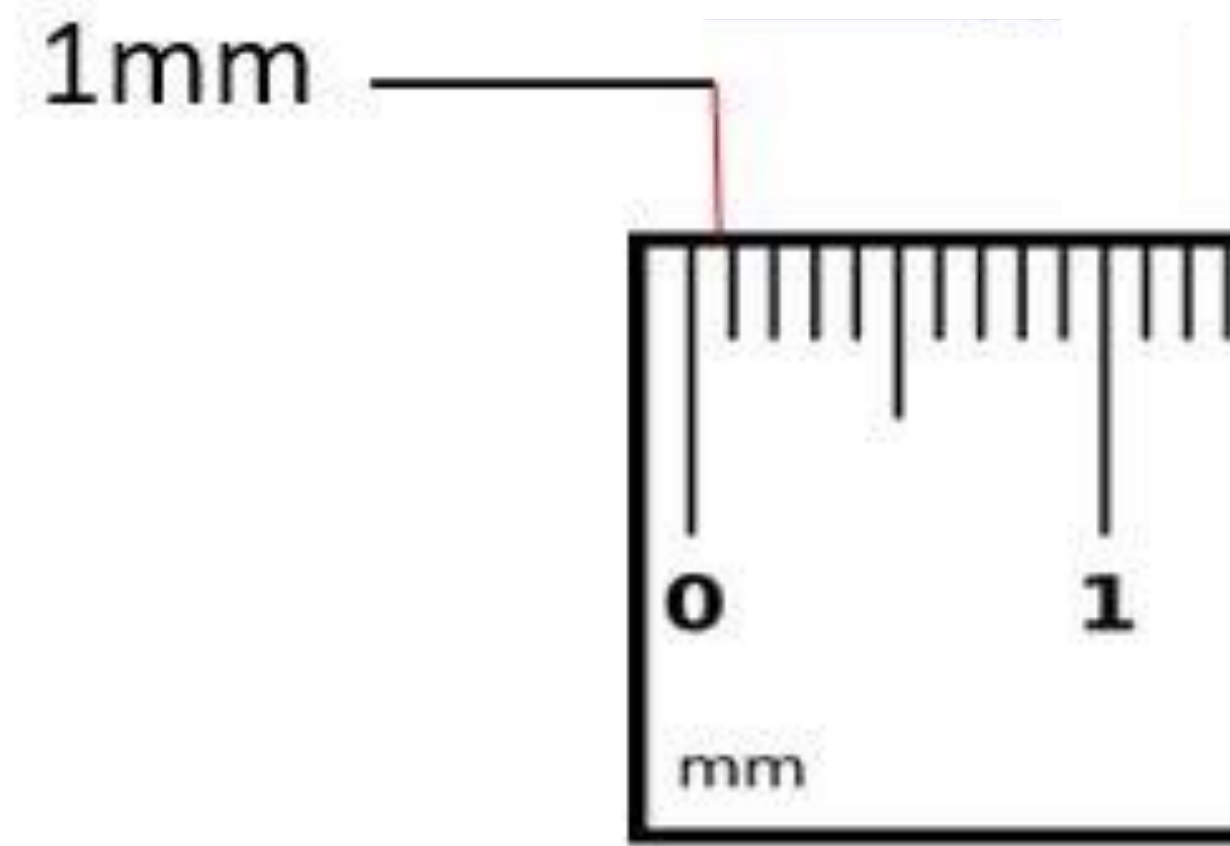

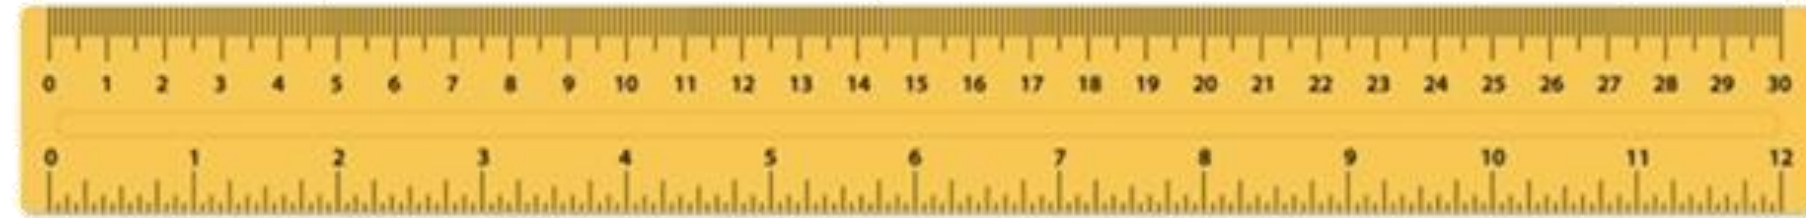

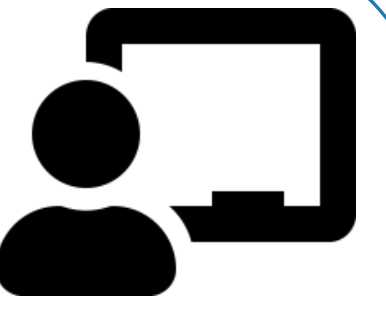

# 8. Choose the examples of **kilometer** in a metric units

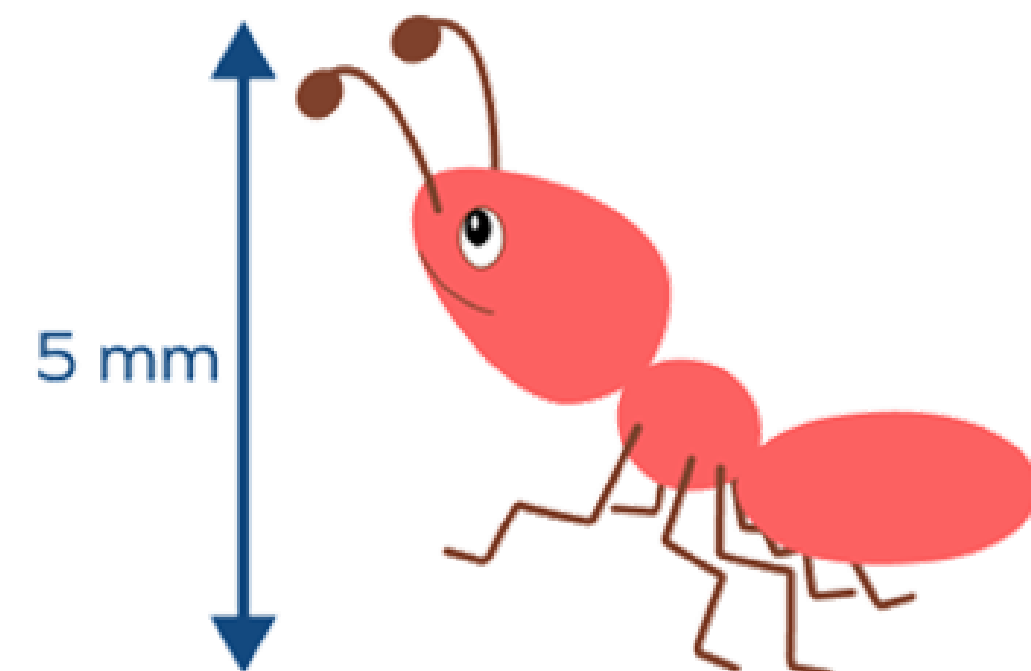

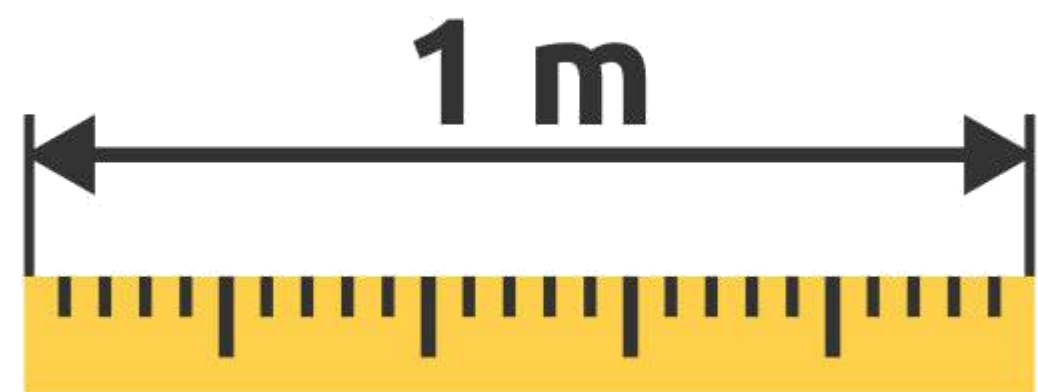

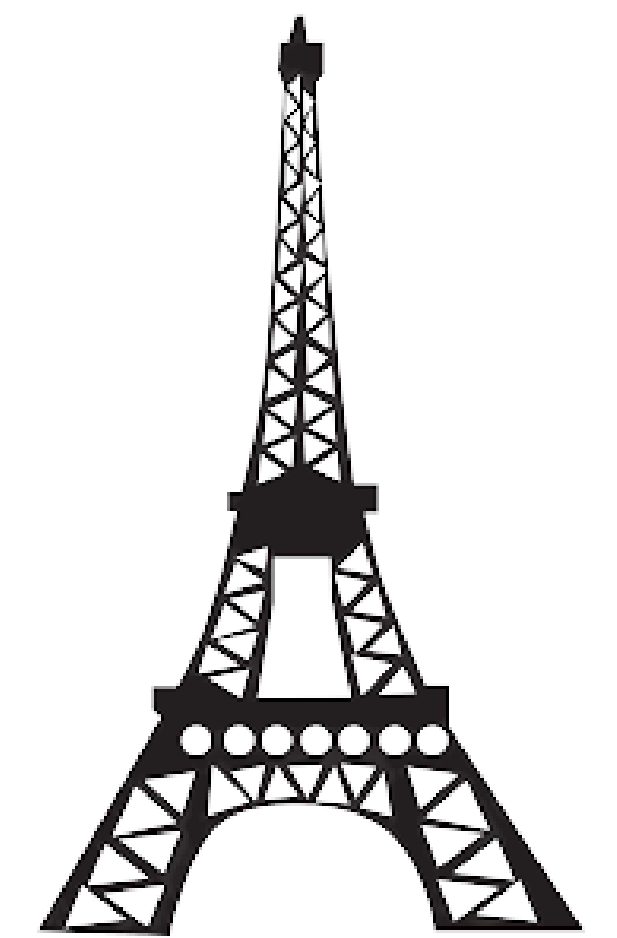

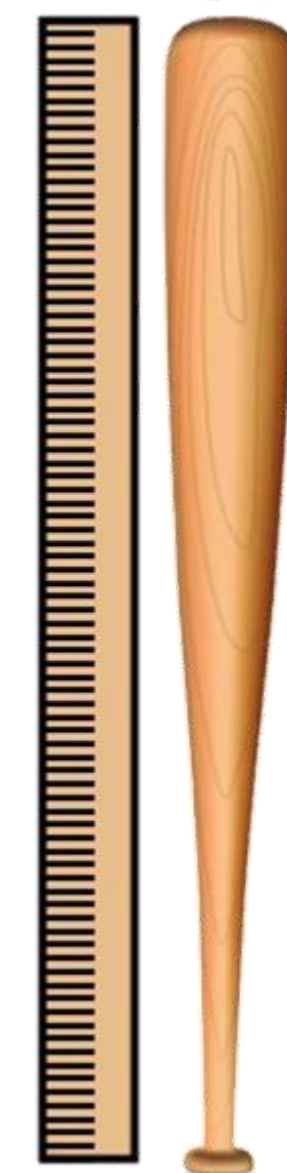

# 9. Choose the examples of **Meter** in a metric units

1/2 km

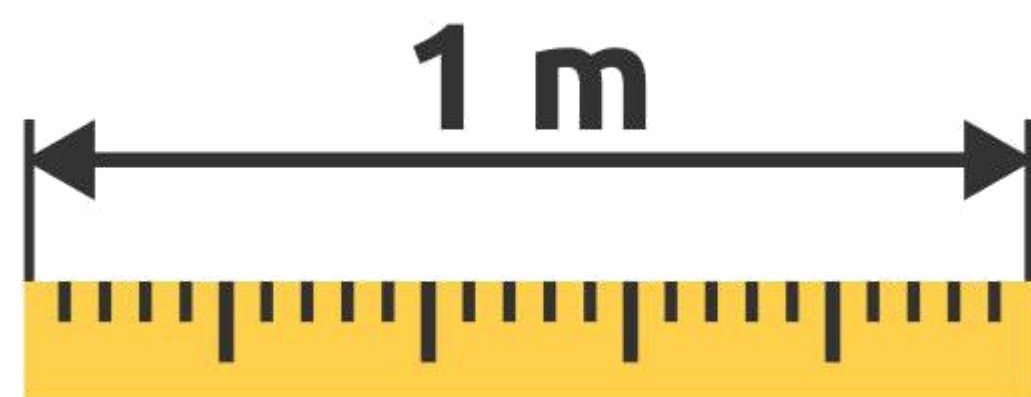

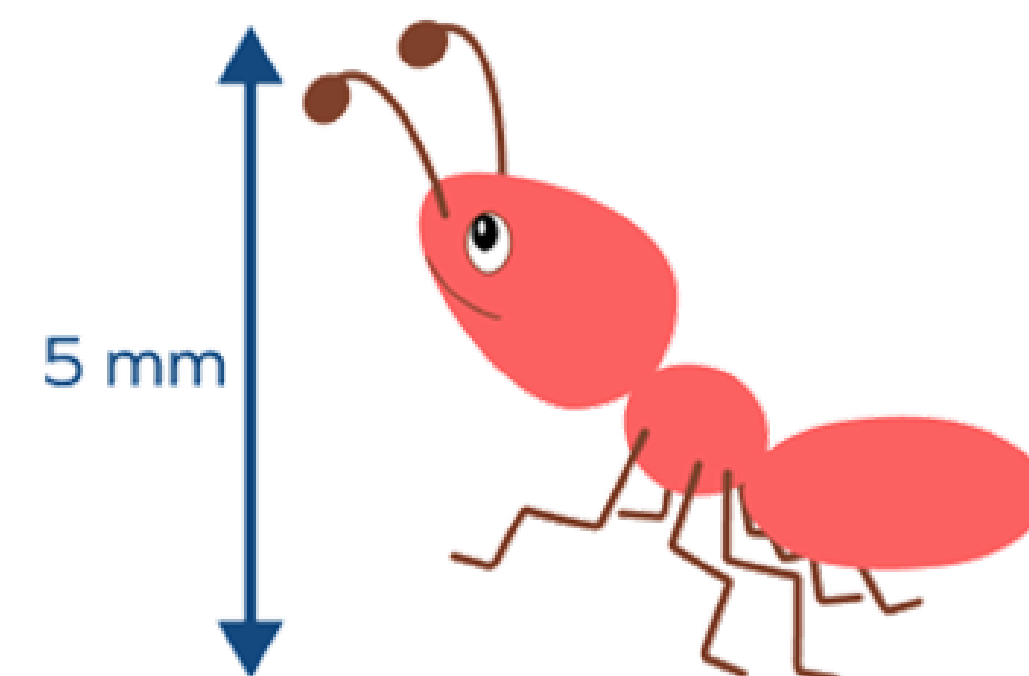

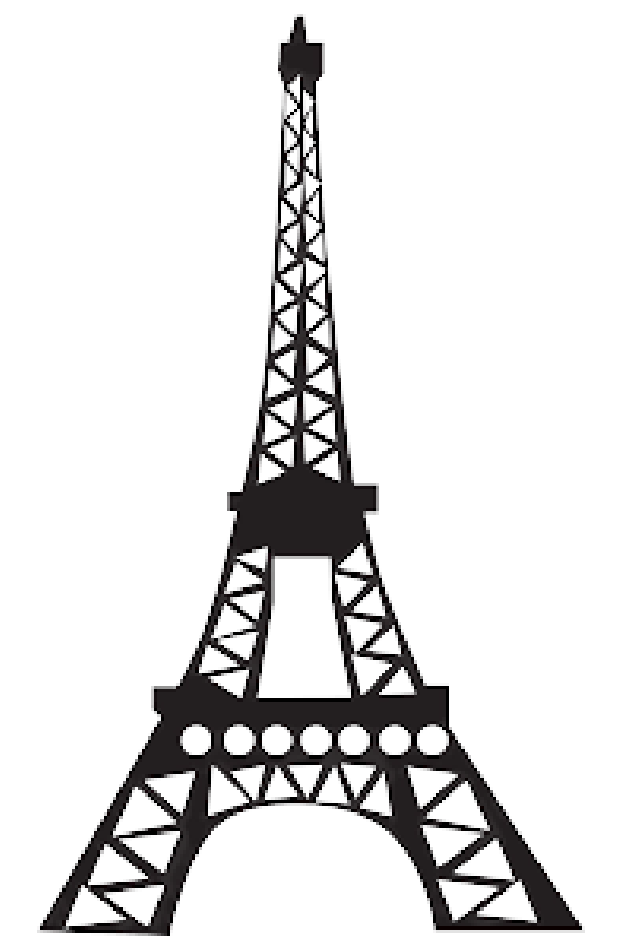

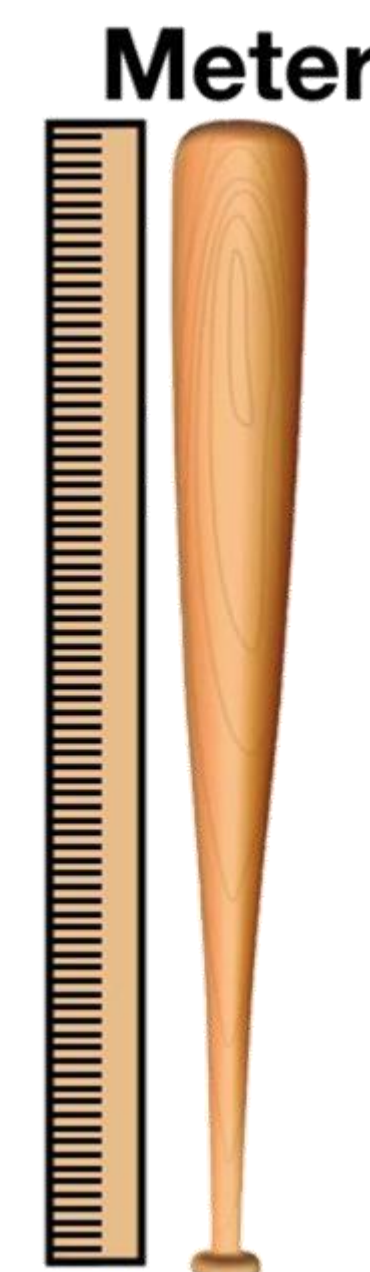

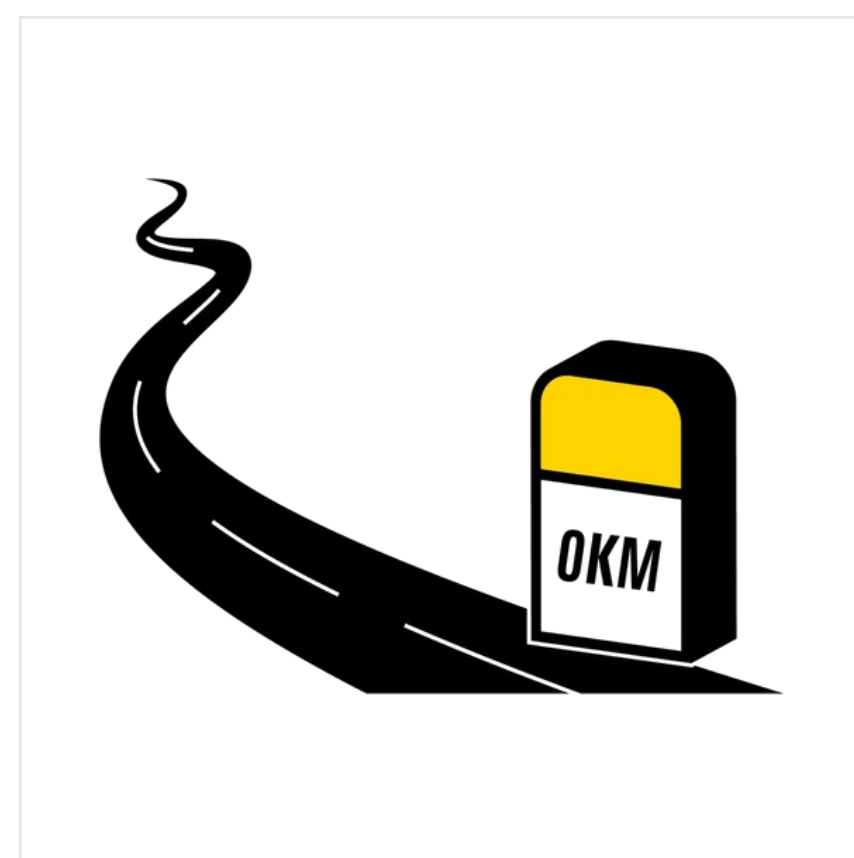

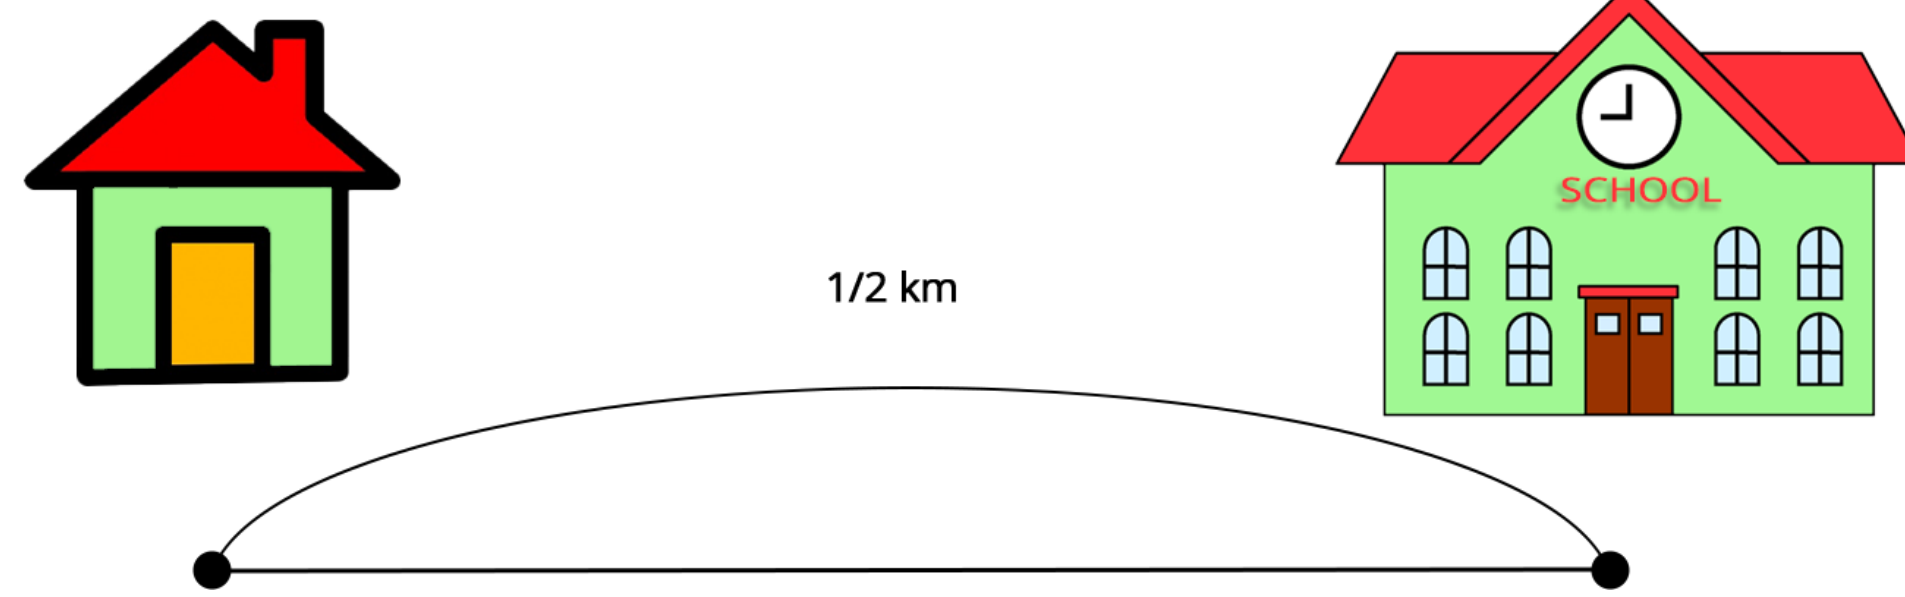

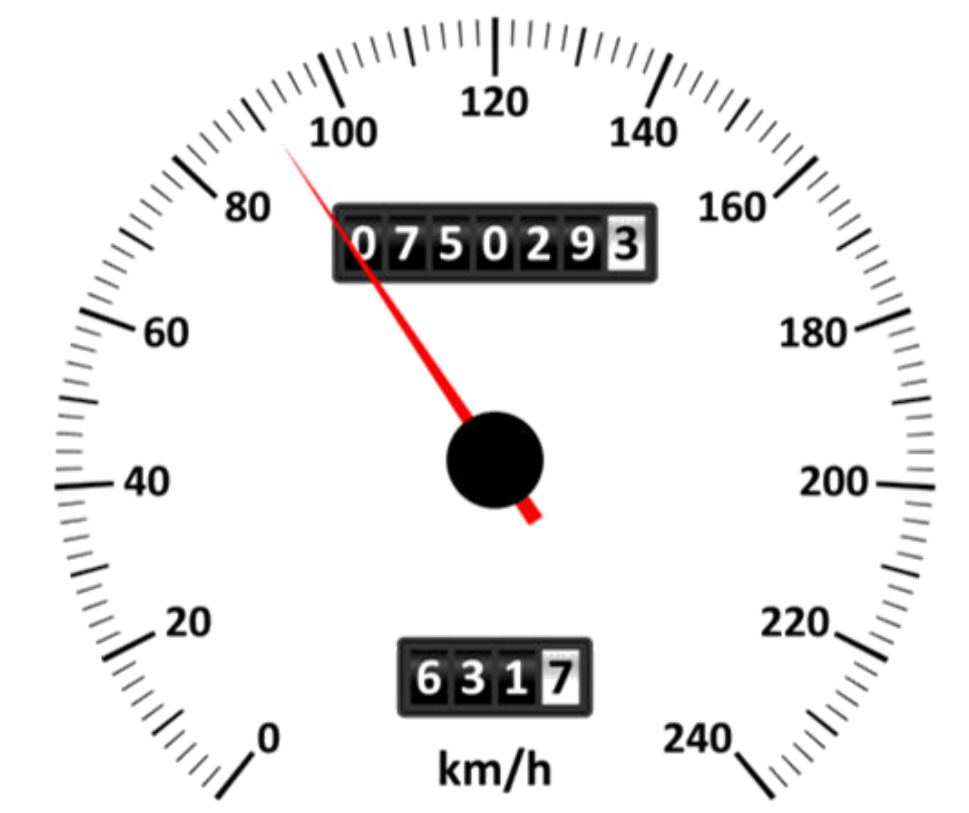

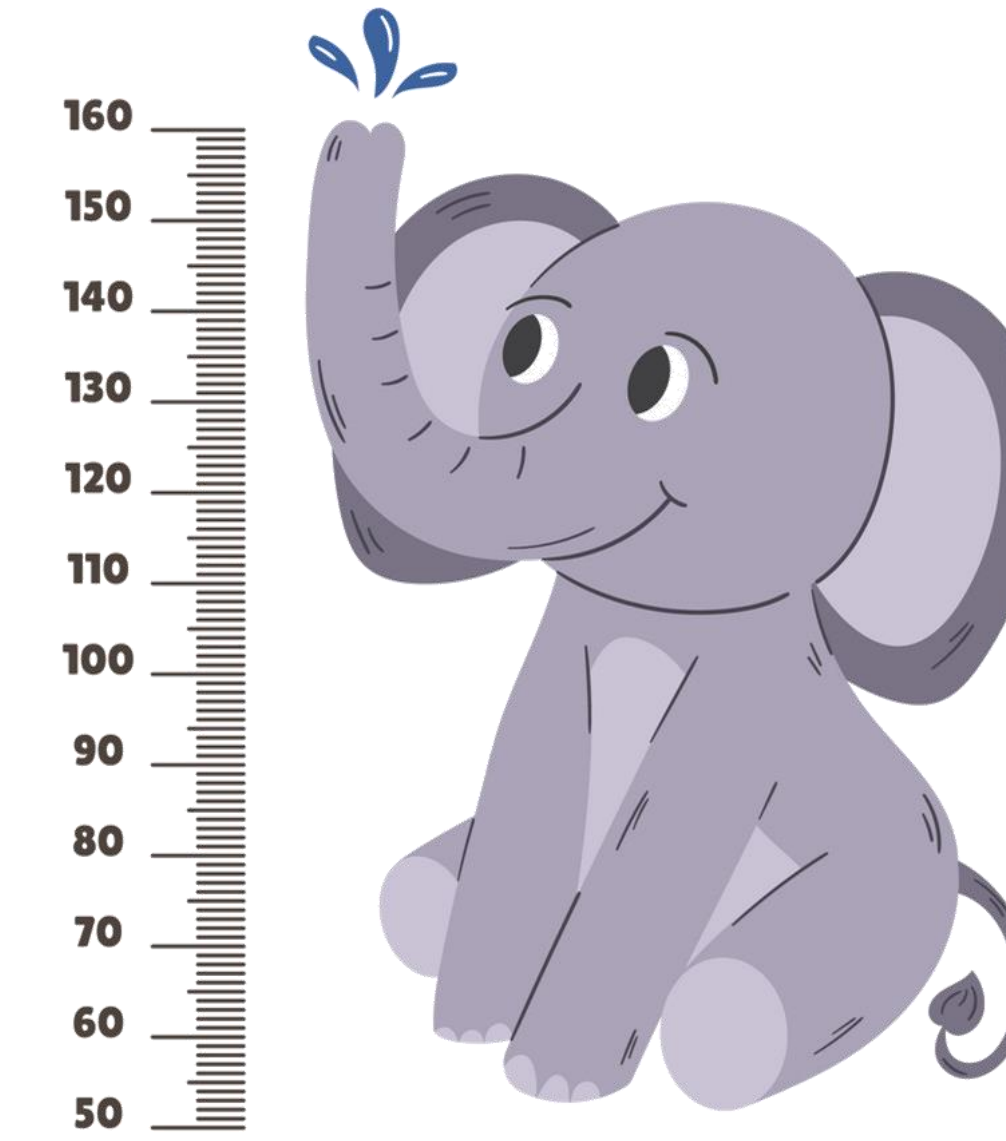

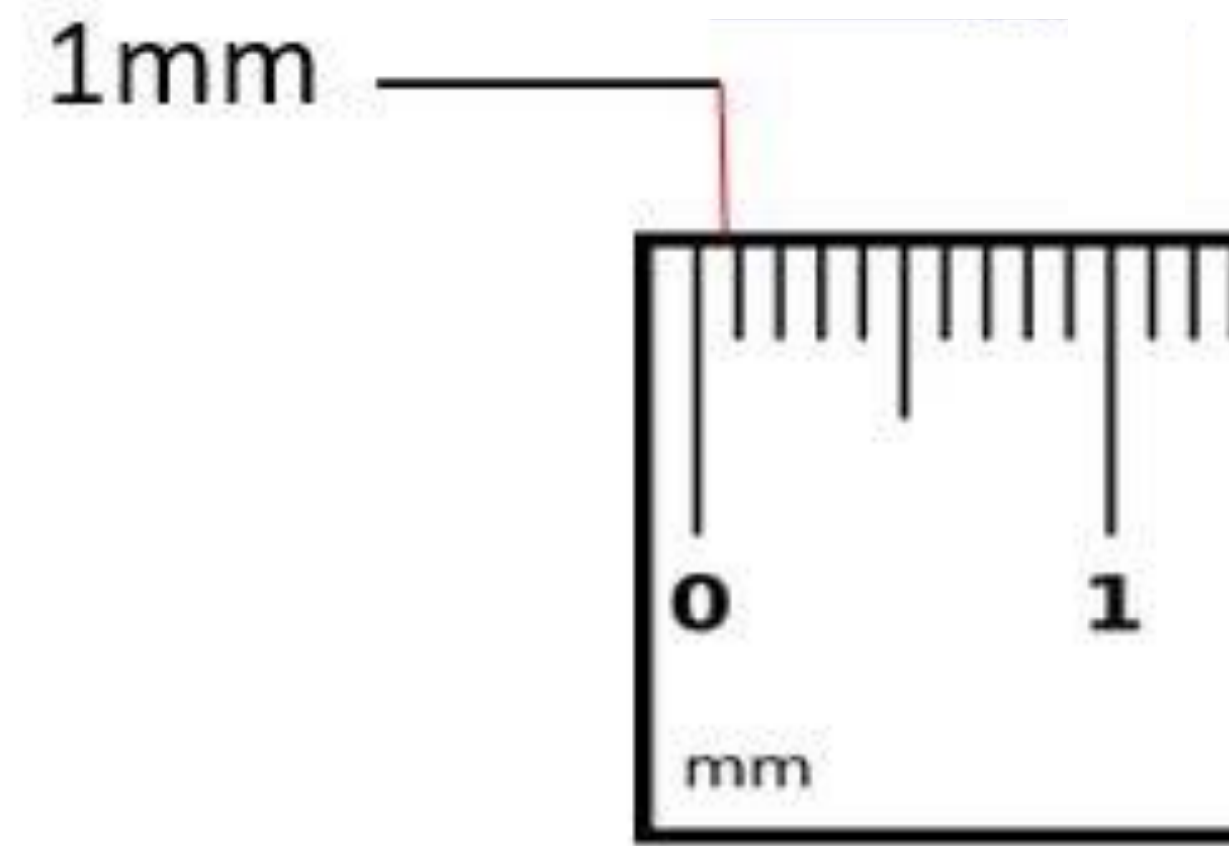

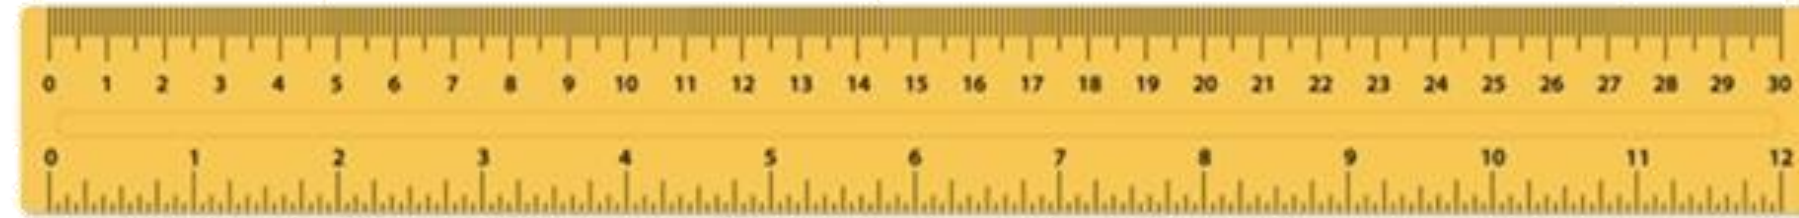

Meter

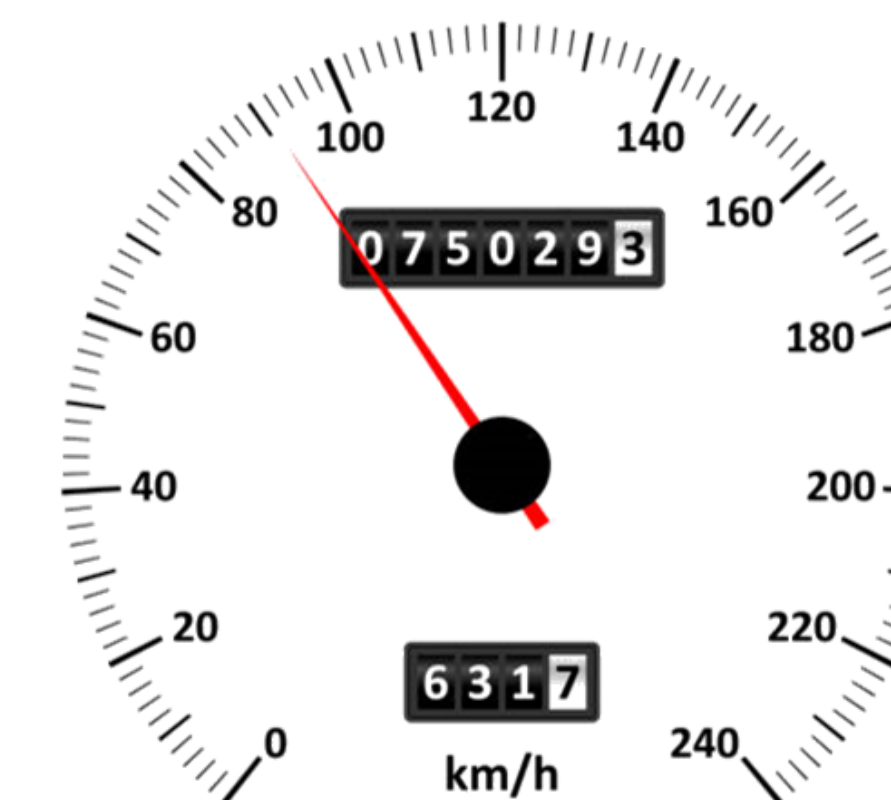

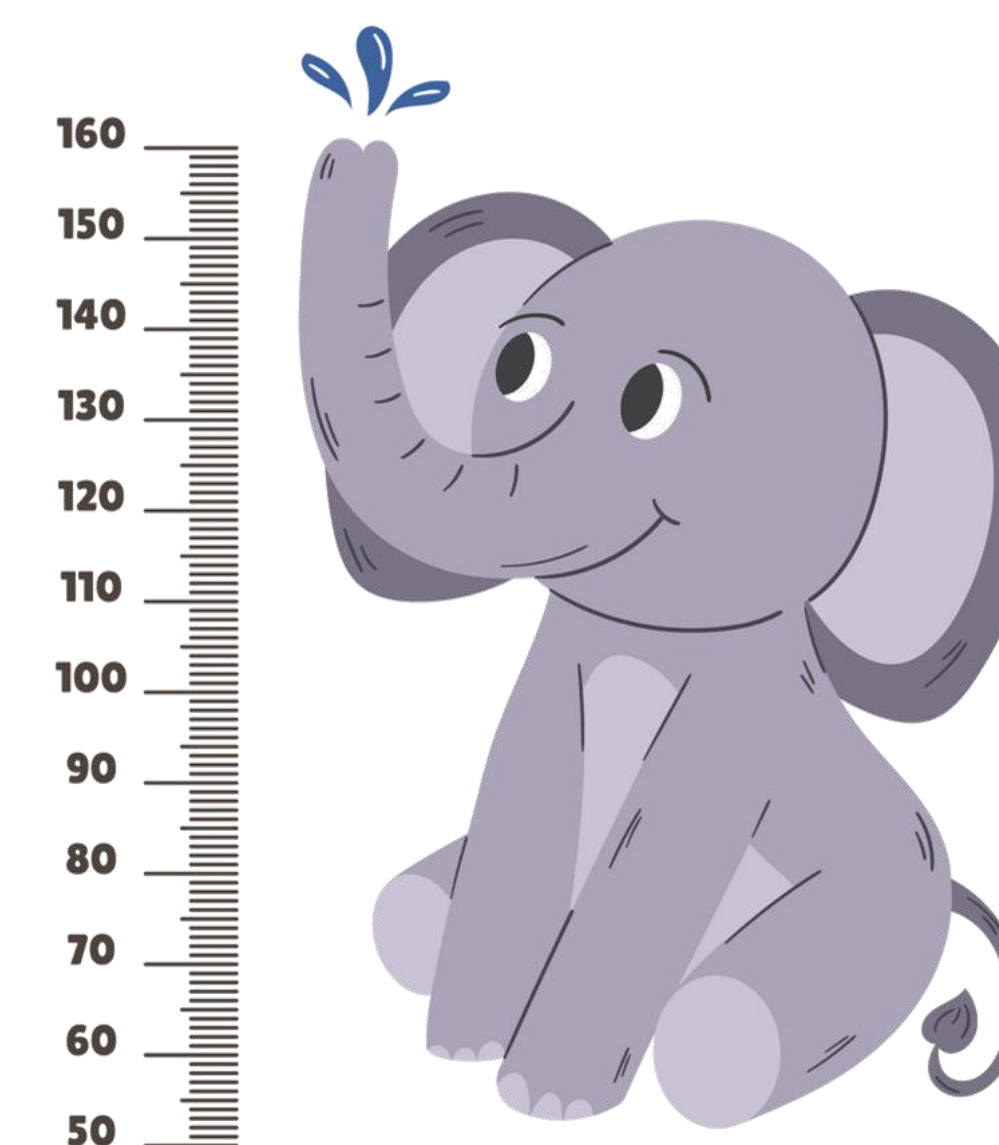

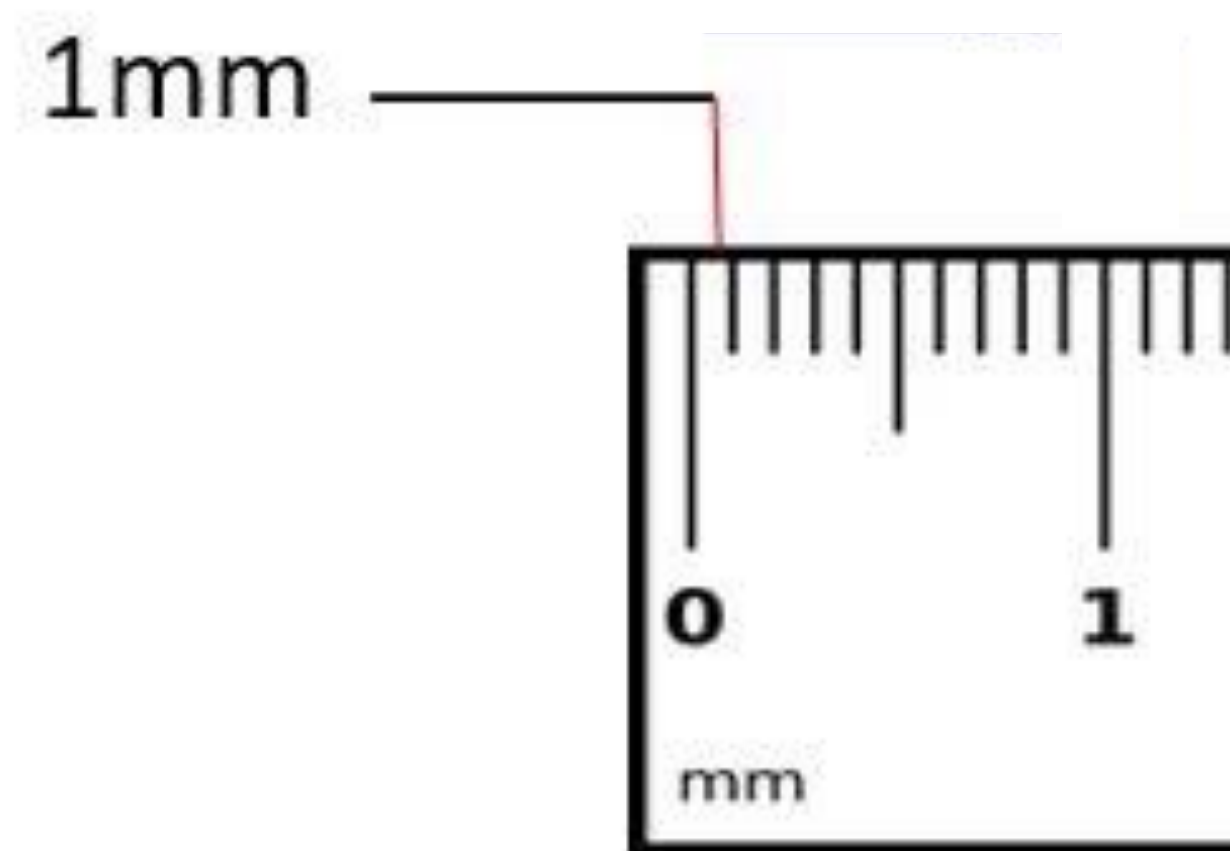

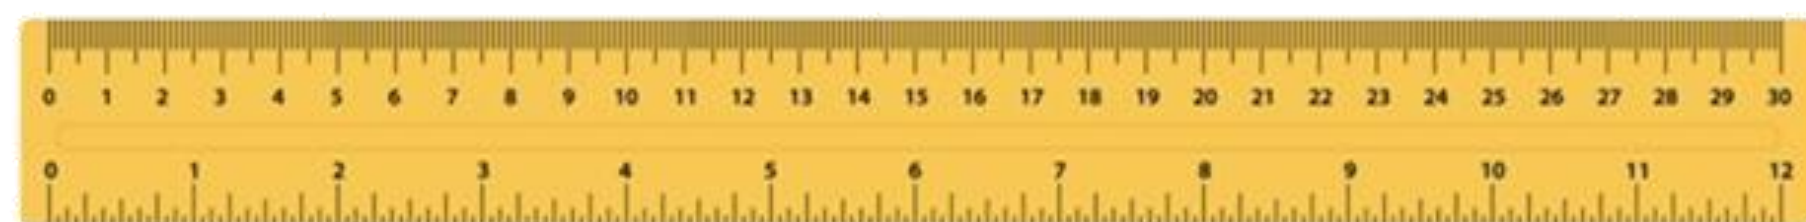

# 11. Choose the examples of **Millimeter** in a metric units

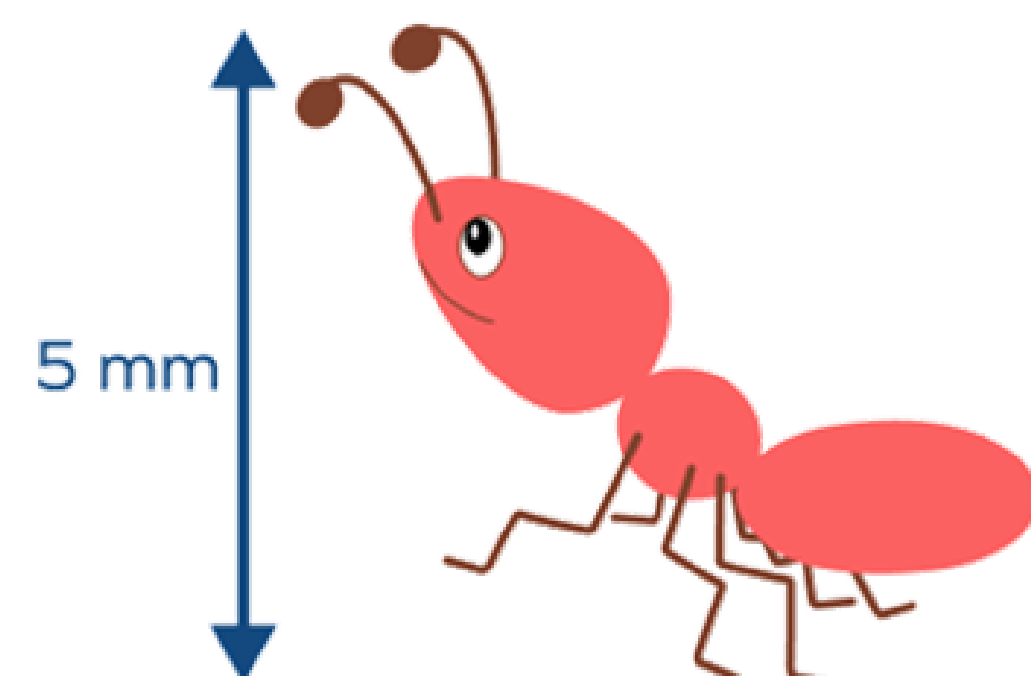

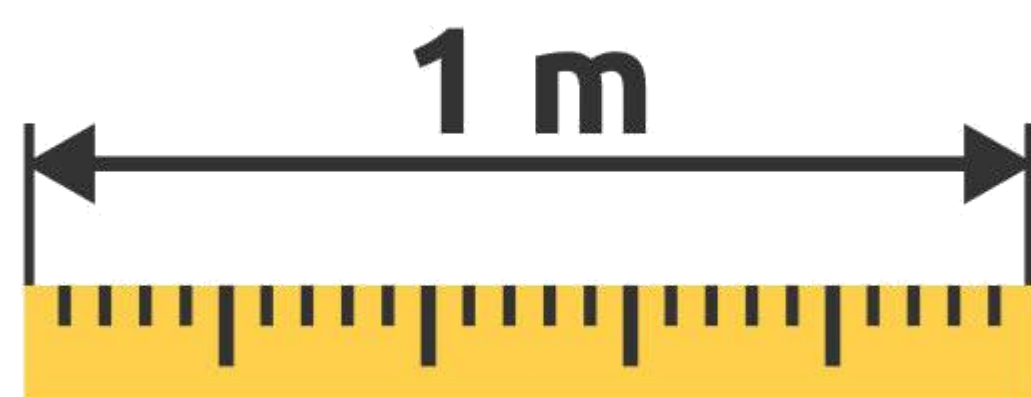

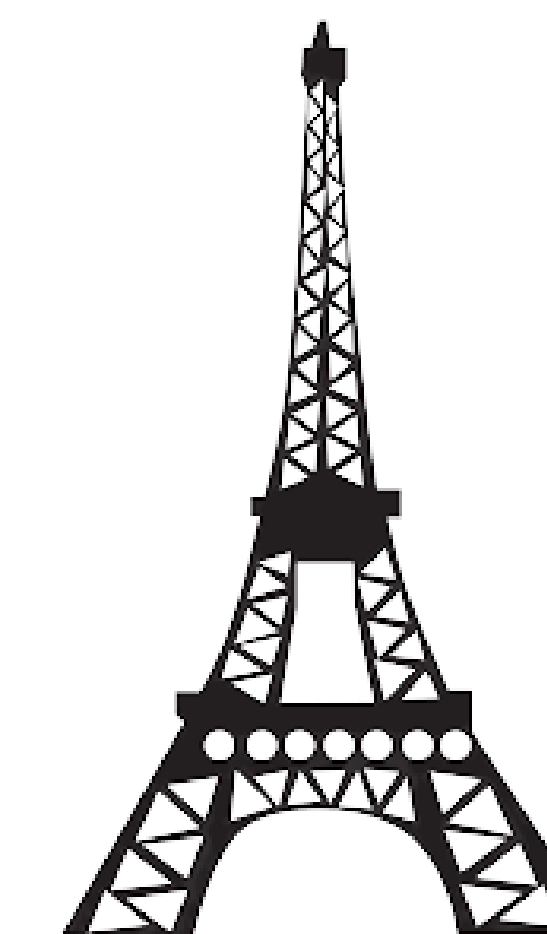

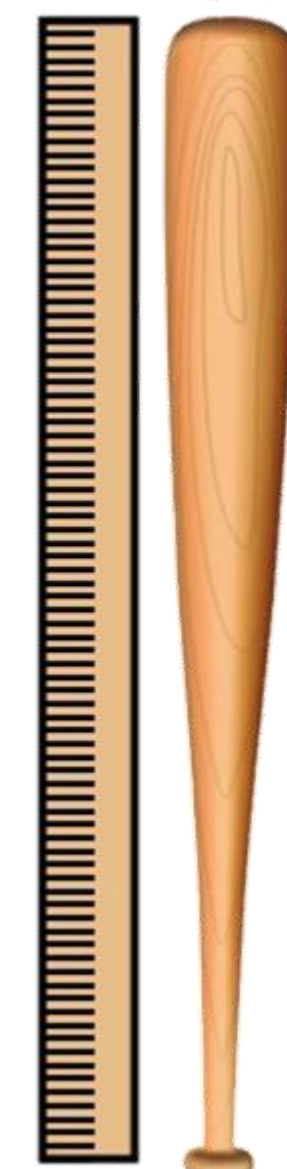

# 10. Choose the examples of **Centimeter** in a metric units

1/2 km

Meter

# 11. Fill the table and write the symbol & examples for metric units of measuring length

Metric units	Symbol	Examples
millimeter		
centimeter		
meter		
kilometer
