

## Draw the number line, compare and then find the answer for the given problem

- 1) A gardener plants  $\frac{1}{4}$  of a flower bed with roses and  $\frac{7}{9}$  with tulips. Which flower covers a larger area?

Therefore, **the tulips cover a larger area of the flower bed.**

- 2) A student reads  $\frac{3}{4}$  of a chapter in history class and  $\frac{1}{2}$  of a chapter in science class. Which subject did she read more pages for?

**Draw the number line, compare and then find the answer for the given problem**

3) A hiker walks  $\frac{2}{5}$  of a trail in the morning and bikes  $\frac{3}{4}$  of the remaining trail in the afternoon. Which activity took her longer?

4) A painter uses  $\frac{7}{8}$  of a can of blue paint and  $\frac{1}{3}$  of a can of yellow paint to mix green paint. Which color paint did they use less of?
