

Write the correct answer (using commutative property)

1) $A = 24$, $B = 27$. Find the commutative property of addition ?

Solution :

L.H.S :

$$\begin{aligned} A + B &= 24 + 27 \\ &= 51 \end{aligned}$$

$$A + B = B + A$$

$$\text{L.H.S} = \text{R.H.S}$$

R.H.S :

$$\begin{aligned} B + A &= 27 + 24 \\ &= 51 \end{aligned}$$

2) $A = 31$, $B = 29$. Find the commutative property of addition ?

Solution :

3) $A = 52$, $B = 35$. Find the commutative property of addition ?

Solution :

Write the correct answer (using commutative property)

4) $A = 36$, $B = 38$. Find the commutative property of addition ?

Solution :

5) $A = 42$, $B = 50$. Find the commutative property of addition ?

Solution :

6) $A = 19$, $B = 26$. Find the commutative property of addition ?

Solution :
