

Add the given unit, convert and write the correct answer

1) Add 20 pounds and 18 pounds

	pounds	
+	2 0	
	1 8	
	3 8	→ 38 pounds

Convert the answer into ounces

1 pound = 16 ounces

$$38 \text{ pounds} = 38 \times 16 \text{ ounces}$$

$$38 \text{ pounds} = 608 \text{ ounces}$$

2) Add 5000 pounds and 3000 pounds

	pounds	
+		
		→

Convert the answer into tons

3) Add 7 tons and 3 tons

	tons	
+		
		→

Convert the answer into pounds

4) Add 80 ounces and 16 ounces

	ounces	
+		
		→

Convert the answer into pounds
